

LEONARD BROTHERS WELL 25, 27, 28

SPECIAL BLM STIPULATIONS

1. The location of Well #28 has moved from 660' FNL and 660' FEL Section 14, Township 26S, Range 37E, to 660' FNL and 330' FEL, Section 14, Township 26S, Range 37E.
2. No dirt work will be commenced without first consulting Mr. Nathan Botsford, Archeologist at the BLM in Roswell.
3. All such dirt work will be approved in advance by the BLM in Roswell.
4. All cultural resource artifacts which were found on the locations have been mapped and collected by an archeologist from the Salmon Ruins in Aztec, New Mexico.
5. All flowlines, as usual procedure, will be installed on the surface and will not be buried.
6. Drill pad locations will be constructed on top of the sand and will be surfaced with caliche as specified in the 13-Point Plan, Point 6C. Excess sand on locations will be pushed out from the locations and will be used to cover the areas where cultural resource artifacts have been found.
