CONDITIONS OF APPROVAL, IF ANY:

*See Instructions on Reverse Side

General: This form is designed for submitting proposals to perform various operations, and reports of such operations when completed, as indicated, on **Federal and Indian lands** pursuant to applicable Federal law and regulations, and if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by or may be obtained from the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult the State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent efforts of plugging a well should include reasons for the abandonment and reports should include reasons for the abandonment and data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or other plugs; depths to top of any cement plugs; amount, size, method of packing of any casing, liner or logging pack used; the depth to top of any left in the hole; method of closing top of well; and date well shut in and conditioned for final inspection and report after well is abandoned.

As a result, the authors of the 1996 study note that "the 1996 study did not provide the information required by this act to determine whether the 1996 study was conducted in accordance with the act."

are entitled to (a) a copy of any document or information submitted to the Commission in support of the application, and (b) a copy of any document or information submitted to the Commission in support of the application, and report on the results of the investigation, on a federal level basis.

ROUTINE USER: (1) Follow the equipment and procedures used during the proposed activity. (2) Apply the equipment and procedures. (3) Request and grant approval to perform the actions covered by 43 CFR 206.3 (b). (4) Analyze future applications to drill for and/or conduct geophysical operations in light of data obtained and methods used. (4)(5) Information from the record and/or the necessary information transferred to appropriate Federal, State, local or tribal agencies, when relevant, to conduct regulatory investigations or proceedings.

only a few days after the publication of the *Washington Post* article, the majority of the institution's senior faculty members were drafted.

The Computer Recognition Act of 1980 (43 U.S.C. 3501, et. seq.) requires us to inform you that:

This information is being collected in order to evaluate proposed and/or completed subsequent operations on federal or Indian oil and gas leases.

This information will be used to report subsequent operations once work is completed and when requested, to obtain approval for subsequent operations not previously authorized.

Response to this request to monitor for the specific types of activities specified in 33 CFR Part 3160
