RE: STATE A-2 COM #1  
UNIT O. S2-T25S-R37E

Gentlemen:

The above referenced plugged well site has recently been inspected by an Oil Conservation Division Representative, in an attempt to release the location.

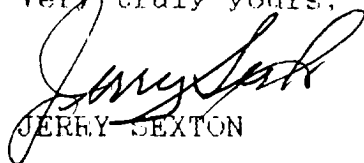

As a result of this inspection, the location has been found to not comply with the minimum requirements of OCD Rules and Regulations.

The following work needs to be completed before the location can be released.

1. Cellar needs to be filled and/or levelled.

When the item above has been done, please contact Jerry Sexton at (505) 393-6161, or sign below and return this letter to our address listed above, so that we may proceed in releasing this well.

Very truly yours,

  
JERRY SEXTON
