1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthaler and Whistler (1973). The total chlorophyll content was determined by the method of Arar and Johnson (1977). The carotenoid content was determined by the method of Lichtenthaler and Whistler (1973). The total carotenoid content was determined by the method of Arar and Johnson (1977). The total protein content was determined by the method of Lowry et al. (1951). The total lipid content was determined by the method of Bligh and Dyer (1959). The total carbohydrate content was determined by the method of Dubois and Gilles (1950). The total nucleic acid content was determined by the method of Burton (1956). The total ash content was determined by the method of AOAC (1970). The total water-soluble carbohydrate content was determined by the method of Dubois and Gilles (1950). The total water-soluble protein content was determined by the method of Lowry et al. (1951). The total water-soluble lipid content was determined by the method of Bligh and Dyer (1959). The total water-soluble nucleic acid content was determined by the method of Burton (1956). The total water-soluble ash content was determined by the method of AOAC (1970).
