Gentlemen:

This is to amend our letter of August 25. The bond for the well under No. 2 above, was accepted and filed August 12. Another bond came in and was returned for corrections to Karr & Eichenberger, Insurance Agents, Albuquerque, New Mexico, on August 19, which bond evidently covered the well under No. 1 above designated. The well which you now propose to drill described under No. 3, above, should be covered by a similar bond.

Very truly yours,

OIL CONSERVATION COMMISSION.
