Mr. A. C. McColl, Jr.
R. Olsen Oil Company
2809-14 AFCC Tower
Oklahoma City, Oklahoma

Dear Mr. McColl:

This is in reply to your letter of April 5, requesting the Commission's approval for your unorthodox location, Winingham No. 3 well, 1930' from the south and 330' from the east, section 30-25S-37E.

On checking this location with respect to the exact wording of our Rule 104, we can see no way to approve this location without submitting of an application (3 copies) and after a hearing before the Commission.

Whether or not you continue drilling is a matter for the R. Olsen Oil Company to decide. We have no way of knowing and do not intend to commit ourselves whether or not the location will be approved.

Very truly yours,

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION
