Re: Stuart Tract 6 Well No. 2  
Section 22, T-25-S, R-37-E  
Lea County, New Mexico

Gentlemen:

The captioned well was drilled in a near-depleted reservoir in preparation for waterflood development.

Gas production was too low to justify a gas pipeline connection; therefore, we respectfully request an exception to the No-Flare Rule which would enable us to flare our gas production.

Enclosed is a copy of a GOR test taken on July 21, 1968.

Yours very truly,

*John A. Bates*
