Mr. Jones,

As per our conversation I have attached the letter that I have sent to you earlier today.

I have included Mr. Harris and Mr. Montgomery in on this email so they remain in the loop.

Thanks

Re: Notice of hydrostatic test water discharge  
**July 1, 2014 5,000 gallon hydrostatic test water discharge**  
**Permit Number HBP-030**  
Crestwood New Mexico Pipeline LP

Mr. Jones,

This is a formal notification for our discharge of hydrostatic test water discharge that is to take place on July 1, 2014. We plan on discharging around 5,000 gallons of freshwater from our newly constructed pipeline. The fluid will be discharged on property that is owned by Crestwood New Mexico Pipeline LP. The discharge will flow through a straw bale check dam to aid in aeration and prevent sediment runoff and erosion. The water is to be purchased from a local municipal water source. The discharge is not capable of reaching any surface waters of the state. There is a playa lake 1,800 feet to the east southeast however it has been determined that water will not reach this water feature.

If you have any question please do not hesitate to call me directly.

Sincerely,

Michael Daniels  
Environmental and Regulatory Advisor

**Subject:** RE: Hydrostatic Test Notification - Crestwood-WLGP Inlet and Sales Line  
**Attachments:** Willow Lake Topo map.pdf

Mr. Jones,

This email is to notify you that Crestwood New Mexico Pipeline plans to conduct a hydrotest of our inlet and sales line to our Willow Lake Gas Plant. Discharge details are listed below. Please note that I sent a hard copy notifying OCD of this discharge several days ago. This notice is to meet your formatting instructions as we discussed on June 25, 2014.

1. Project Name: Willow Lake Gas Plant Inlet 10" and Sales Line 6"
2. NMOCD Permit: HBP-030— Annual Temporary Permission to Discharge Hydrostatic Test Water, Crestwood New Mexico Pipeline LP.
3. Expected date of hydrostatic discharge: 7/01/14
4. Location of hydrostatic discharge (Name, lat / long):  
Willow Lake Gas Plant  
N 32° 11' 45.0"  
W 104° 6' 19.2"
5. Clean Water acquisition Source: City of Loving Municipal Water District (water purchase receipt will be kept on file)
6. Total Piping Volume to be Tested: 5,000 gallons
7. Planned discharge location: Within plant facility

Attached is the topo for the discharge area.

I have included Mr. Harris and Mr. Montgomery from my company in on this email to let them know this has been handled.

Please let me know if you have any questions.

Thanks
