Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Frazier 27 State Com #206H Well in the E/2 of Sections 27 and 24, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Sandoval:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Frazier 27 State Com #206H Well** (API No. 30-025-46780) to be completed within the Triste Draw; Bone Spring, East Pool [96682], underlying the E/2 of Sections 27 and 24, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.

This well is to be drilled and completed at a surface location 559 feet from the north line and 2220 feet from the west line (Unit C) of Section 27. The *first take point* is located 100 feet from the north line and 2591 feet from the east line (Unit B) of Section 27, and the *last take point* is located 100 feet from the south line and 2589 feet from the east line (Unit O) of Section 34. Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the western boundary of the spacing unit. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A includes a Form C-102 and an as-drilled plat, showing the completed interval of the proposed **Frazier 27 State Com #206H Well** encroaches on the spacing unit/tracts to the west in the E/2 W/2 of Sections 27 and 34.

Exhibit B is a plat for Sections 27 and 34 that shows the proposed **Frazier 27 State Com #206H Well** in relation to adjoining spacing unit to the west.

Ownership is diverse between the subject spacing unit and the affected spacing unit to the west. **Exhibit C** is a landman statement indicating the New Mexico State Land Office is the only “affected party” and proof that a copy of this application with all attachments has been sent by certified mail to each affected party advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Exhibit D is a statement from a petroleum engineer providing justification for the needed exception.

Your attention to this matter is appreciated.

Sincerely,

Re: EOG Resources NSL Application
Frazier 27 State Com #206H

To whom it may concern:

A non-standard location is necessary to develop the Bonespring formation, specifically the Upper Leonard B, in this section efficiently and in an economic manner. A non-standard location optimizes pressures related to the completion and production drawdown of the wells and is expected to yield a higher ultimate recovery than a standard location, thereby preventing waste and protecting correlative rights.

Sincerely,
