Hi folks

Victoria said

**If** 1RF-457 - Rodney Robinson Above-Ground Storage Tank has not been completed and hasn't started operations yet, please **upload the clarification to OCD.online** to have the official notice on the facility file.

So all you need to do is upload an email stating that it has not started operation. Her not recognizes that the reporting period has not begun.

The rest of the note from Victoria is boilerplate. Your 5-year period does NOT start when the facility is built. Instead, the 5 year period starts on the day of submission.

Have a good weekend.

Good morning Ms. Robbins,  
If 1RF-457 - Rodney Robinson Above-Ground Storage Tank has not been completed and hasn't started operations yet, please upload the clarification to OCD.online to have the official notice on the facility file.

**19.15.34.13.C.** "A recycling containment shall be deemed to have ceased operations if less than 20% of the total fluid capacity is used every six months following the first withdrawal of produced water for use. The operator must report cessation of operations to the

appropriate division district office. The appropriate division district office may grant an extension to this determination of cessation of operations not to exceed six months”.

The recycling clock for the monthly reports hasn't yet started, but according to the conditions of approval, the five-year period of operation began on September 30, 2020:

- “The 1RF-457 RODNEY ROBINSON AST CONTAINMENT is approved for five years of operation from the date of permit application. OCD received the permit application on September 30, 2020. The 1RF-457 RODNEY ROBINSON AST CONTAINMENT permit expires on September 30, 2025. If Solaris wishes to extend operations past five years, an annual permit extension request must be submitted using an OCD form C-147 through the OCD Online system by May 9, 2025.”

Please let me know if you have additional questions.

Good morning Victoria,

I've attached two filings that were filed in error as this tank has not been completed. Can you please pull these reports so we don't prematurely start the clock?

Thanks,
