APPLICATION FOR OFF-LEASE MEASUREMENT, STORAGE AND SALES**McKittrick Hills Battery**

OXY USA WTP LP requests approval of off-lease measurement, storage and sales for wells at the McKittrick Hills Battery (A-14-22S-24E).

This OLM request includes current and future wells in the leases/communitization agreement and pools listed below.

McKittrick Hills Battery

Each well will flow to individual separators at the battery. McKittrick 24 Fed 1 and US 13 Fed Com 1Y have two 2-phase separators each – one measures gas flow up the casing, and the other measures gas flow up the tubing. US 13 Fed 2 and McKittrick Federal Com 1Y each flow to a single 3-phase separator. Each separator is equipped with an orifice meter to measure gas volume. Each gas meter serves as the BLM gas FMP meter. Gas flow to sales will be handled through a pending gas commingle permit for the Indian Basin area.

Liquid from McKittrick 24 Fed 1 and US 13 Fed Com 1Y flows from the individual 2-phase separators to FWKOs, which are equipped with turbine meters to measure oil and water. US 13 Fed Com 1Y is the only well at the battery that produces oil. It is sent from the FWKO to tanks, then trucked to sales. The LACT at the tanks serves as US 13 Fed Com 1Y's BLM oil FMP meter.

All water from the McKittrick Hills Battery is sent to the Indian Basin water disposal distribution system.

Additional Application Components:

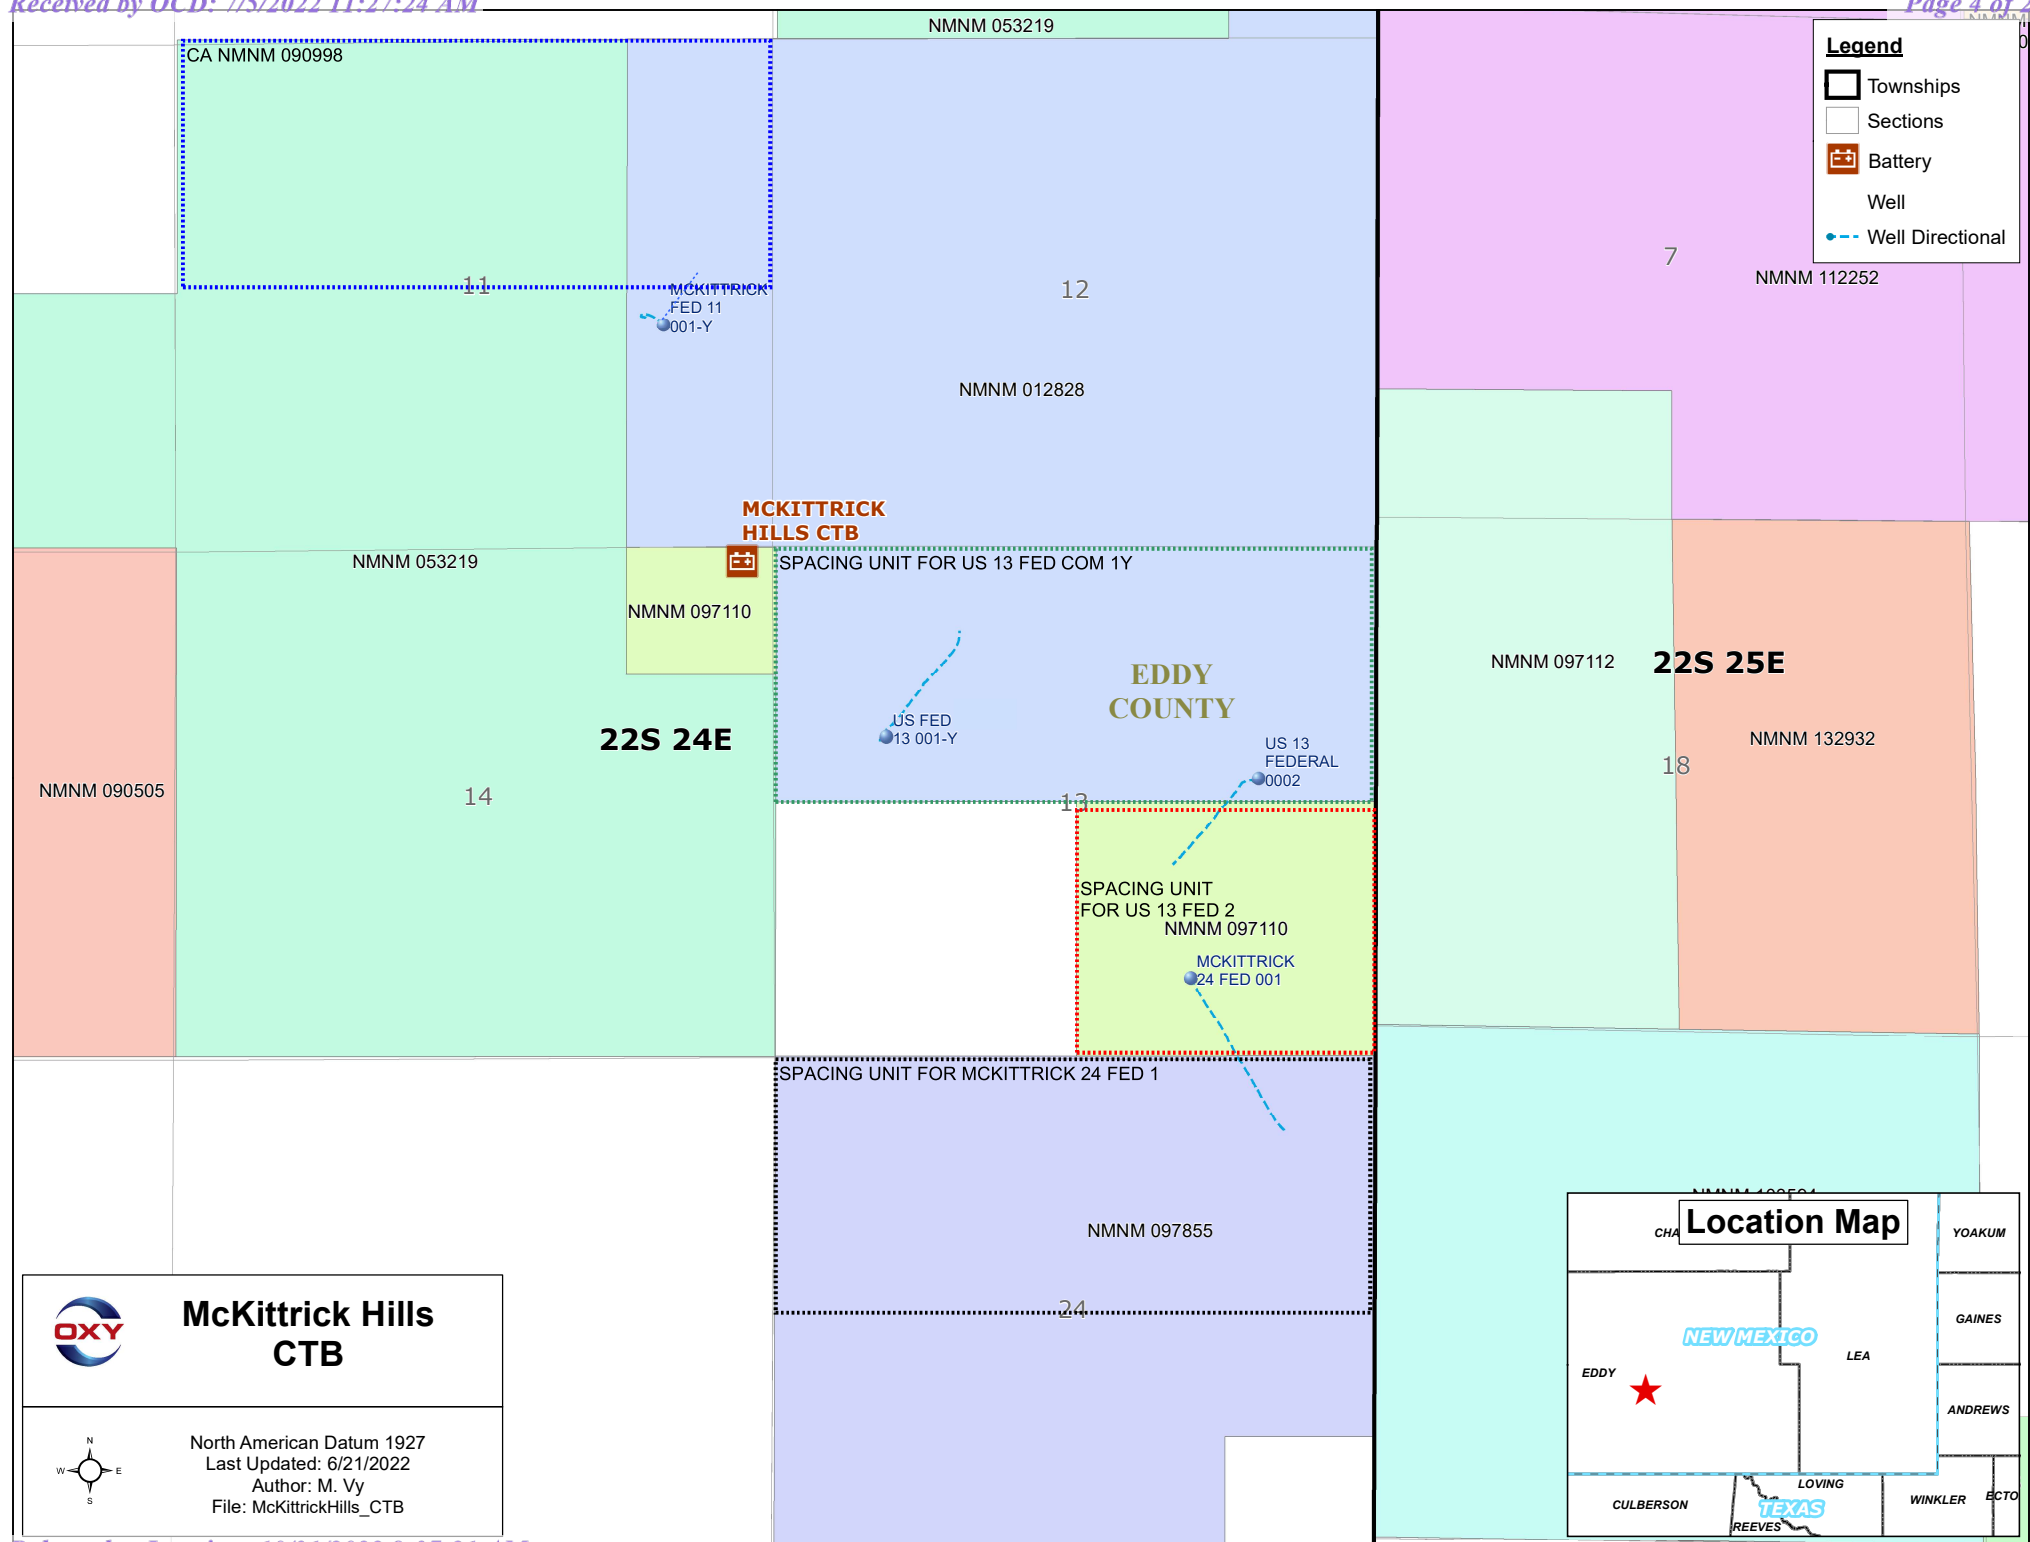

The flow of production is shown in detail on the enclosed facility diagram. Also enclosed is a map detailing facility, lease, and well location.

The oil and gas meters are calibrated on a regular basis per API, NMOCD and BLM specifications.

Pursuant to Statewide rule 19.15.12.10(C)(4)(g) OXY USA WTP LP requests the option to include additional pools or leases within the defined parameters set forth in the Order for future additions.

Off-lease measurement will not reduce the individual wells' production value or otherwise adversely affect the interest owners. It is the most effective means of producing the reserves.

OXY USA WTP LP understands the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument.

Hello Dean,

As we discussed, please edit this submittal to only include US 13 Fed #1Y (30-015-24193). It will produce oil so still needs the OLM permit. The other three wells will only produce gas, so any OLM will be handled under the large Indian Basin Gas Commingle submittal (Action ID 122646).

Thank you for your consideration.
