Subject:	IMPORTANT, NOTICE OF LOSS OF INJECTION AUTHORITY
Date:	Thursday, January 11, 2024 3:30:00 PM
Attachments:	Notice - Loss of Injection - Canyon E_P Company.pdf
	image001.png

Dear Operator,

Please read this email as it contains important information regarding well(s) under the supervision of (Canyon E&P Company).

This email has been sent to inform you that the **injection authority** pertaining to one or more disposal well(s) has been lost. The failure to report disposal for longer than 12 consecutive months is defined as abandonment of injection authority and the well(s) must immediately be shut-in and disconnected from incoming source of disposal.

Attached to this email is a formal notice letter stating which wells are out of compliance and what the necessary steps are to regain injection authority.

OCD retains the authority to require an audit of submitted data; however, OCD will consider voluntary compliance with this request when reviewing any required supplemental filing or resulting compliance action. If you have any questions, please do not hesitate to contact Phillip Goetze, UIC Group Manager, at 505-660-8274 or phillip.goetze@emnrd.nm.gov.

Thank you,

Hailee Thompson | Petroleum Specialist

Delivery has failed to these recipients or groups:

mike@canyonep.com (mike@canyonep.com)
Your message couldn't be delivered. The Domain Name System (DNS) reported that the recipient's domain does not exist.

Contact the recipient by some other means (by phone, for example) and ask them to tell their email admin that it appears that their domain isn't properly registered at their domain registrar. Give them the error details shown below. It's likely that the recipient's email admin is the only one who can fix this problem.

For more information and tips to fix this issue see this article: https://go.microsoft.com/fwlink/?LinkId=389361.

Your message to travis@eddyedreyer.com couldn't be delivered.

travis wasn't found at eddyedreyer.com.

Hailee.Thompson	Office 365	travis
Action Required		Recipient

Unknown To address

How to Fix It
The address might be misspelled or might not exist. Try one or more of the following:

- **Retype the recipient's address, then resend the message -** If you're using Outlook, open this non-delivery report message and click **Send Again** from the menu or ribbon. In Outlook on the web, select this message, and then click the "**To send this message again, click here.**" link located just above the message preview window. In the To or Cc line, delete and then retype the entire recipient's address (ignore any address suggestions). After typing the complete address, click **Send** to resend the message. If you're using an email program other than Outlook or Outlook on the web, follow its standard way for resending a message. Just be sure to delete and retype the recipient's entire address before resending it.
- **Remove the recipient from the recipient Auto-Complete List, then resend the message -** If you're using Outlook or Outlook on the web, follow the steps in the "Remove the recipient from the recipient Auto-Complete List" section of this article. Then resend the message. Be sure to delete and retype the recipient's entire address before clicking **Send**.
- **Contact the recipient by some other means,** (by phone, for example) to confirm you're using the right address. Ask them if they've set up an email forwarding rule that could be forwarding your message to an incorrect address.

If the problem continues, ask the recipient to tell their email admin about the problem, and give them the error (and the name of the server that reported it) shown below. It's likely that only the recipient's email admin can fix this problem.

Was this helpful? Send feedback to Microsoft.

More Info for Email Admins
Status code: 550 5.4.1

This error occurred because a message was sent to an email address hosted by Office 365, but the address doesn't exist in the receiving organization's Office 365 directory. Directory Based Edge Blocking (DBEB) is enabled for eddyedreyer.com, and DBEB rejects messages addressed to recipients who don't exist in the receiving organization's Office 365 directory. This error is reported by the recipient domain's email server, but most often it can be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

Check that the email address exists and is correct - Confirm that the recipient address exists in your Office 365 directory, is correct, and is accepting messages.

Synchronize your directories - Make sure directory synchronization is working correctly, and that the recipient's email address exists in both Office 365 and in your on-premises directory.

Check for errant forwarding rules - Check for forwarding rules for the original recipient that might be trying to forward the message to an invalid address. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Forwarding or Inbox Rules features.

Make sure the recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license to them (Users > Active Users > Select the recipient > Assigned License > Edit).

Make sure that mail flow settings and MX records are correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are set up correctly.

For more information and additional tips to fix this issue, see this article.

UNDERGROUND INJECTION CONTROL PROGRAM
FORMAL NOTICE OF LOSS OF INJECTION AUTHORITY

Dear Operator,

This letter is to provide formal notice that the authority to inject into the well(s) identified in Attachment A has terminated pursuant to 19.15.26.12(C)(1) New Mexico Administrative Code ("NMAC"). This citation of the NMAC states as follows:

Abandonment of injection operations:
Whenever there is a continuous one-year period of non-injection into all wells in an injection or storage project or into a produced water disposal well or special purpose injection well, the division shall consider the project or well abandoned, and the authority for injection shall automatically terminate ipso facto.

Injection of any fluid into any of the identified wells is prohibited until a new injection permit is approved by the Director. Additionally, the operator of the identified wells must immediately ensure the well is shut-in and disconnected from incoming sources of disposal.

Failure to report disposal volumes to the Oil Conservation Division ("OCD") is considered as "non-injection" for purposes of triggering automatic termination of the authority to use the well for disposal. Pursuant to 19.15.7.24 NMAC, disposal volumes must be reported on or before the 15th day of the second month following the month of disposal on Form C-115 (Monthly Production Reports). In addition to the loss of injection authority, the failure to report is, in its own right, a violation that may be punishable under 19.15.5.10 (D) NMAC by assessing a civil penalty of no more than two thousand and five hundred dollars ($2500) per day of noncompliance for each violation.

Canyon E & P Company
Formal Notice of Loss of Injection Authority

If you plan to continue the use of the well for disposal, you must apply for a new Underground Injection Control ("UIC") permit pursuant to 19.15.16.8 NMAC using Form C-108 and completing the requirements specified in the form. The approval of a UIC permit may be either through the administrative review process or through hearing. Submission of an administratively complete Form C-108 does not guarantee the OCD will approve a new UIC permit for the well.
The well(s) shall be shut in and must not be used for disposal purposes until the following have been approved and all conditions of approval completed. The well(s) must have the following prior to reopening:

- An Approved UIC permit
- A new passing Mechanical Integrity Test (MIT).
- The OCD has approved a new form C-105 for well(s).
- All conditions of approval in the UIC permit have been completed.

Please also be aware that pursuant to 19.15.25.8 NMAC or any applicable Agreed Compliance Order, there is a limited time in which a well(s) must be returned to service or abandoned through either proper temporary abandonment or plugging. For these deadlines, please refer to said rule or agreement.

If you have any question regarding the procedure to obtain a new disposal permit for this well, please contact the Engineering Bureau at OCD.engineer@emnrd.nm.gov. If you have questions as to C-115 reporting, inactive well status, or other compliance issues, contact the OCD Admin and Compliance Bureau at OCD.AdminComp@emnrd.nm.gov.

Sincerely,

_____   1/10/24
                                             _____
Brandon Powell   Date:
Deputy Director

Enclosure: Attachment A: List of Well(s) with Loss of Injection Authority
