- Last Take Point (LTP): 721' from the South line and 100' from the East line of Section 1, Township 21 South, Range 27 East.

Devon has included as Exhibit B, a letter explaining why this application is needed. These wells will produce from the WC Burton Flat Upper Wolfcamp East Pool (Pool Code 98315). The WC Burton Flat Upper Wolfcamp East Pool is designated as an oil pool and the statewide rules apply.

The non-standard horizontal spacing unit will be comprised of Lots 9 through 16, and the S/2 (aka Units I through P) of Sections 1, 2, and 3, all in Township 21 South, Range 27 East, NMPM, Eddy County, New Mexico, and therefore notice was provided to affected persons adjoining the non-standard unit, pursuant to 19.15.16.15B(5)(b)(ii) NMAC.

Devon attests that, on or before submission of this application, it provided notice to the affected persons as described herein; said notice described satisfies all provisions of 19.15.16.15B(5)(b) NMAC. Devon has also provided notice to the New Mexico State Land Office and the Bureau of Land Management to the extent that state and federal leases are involved, pursuant to 19.15.2.7(A)(8)(d) NMAC. Copies of the application and required plat maps are furnished. Devon provides herein a sectional map of this area, attached as Exhibit C. Proof of mailing, along with a copy of the notice letter sent to listed affected persons and parties, is attached hereto as Exhibit D. This nonstandard spacing unit proposed herein is submitted with plans by Devon to have it supplant and supersede two smaller units that were previously pooled in Case Nos. 23910 and 23911. Devon has submitted a new pooling application in Case No. 24283 for the April 4, 2024 docket to pool

interests in the nonstandard spacing unit proposed herein, and if Devon is able to receive an order from the new Case No. 24283, then Devon will dismiss the two previous cases and their Order Nos. R-23021 and R-23022. This administrative NSP application is submitted concurrently with the new pooling application to facilitate the transition to the nonstandard spacing unit.

Your consideration in this matter is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read 'Darin C. Savage', written over a horizontal line.

RE: Application for Non-standard Spacing Unit
Engineering Statement
Devon Energy Production Company, L.P.
Burton Flat 3-1 Fed State Com 623H, 624H, 626H, and 826H Wells
(the "Burton Flat Wells")
Lots 9 through 16, and the S/2 of Sections 1, 2, and 3
Township 21 South, Range 27 East, NMPM ("Unit")
Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. ("Devon") respectfully requests administrative approval of a non-standard spacing unit for the Burton Flat Wells referenced above. The wells are in the WC Burton Flat Upper Wolfcamp East Pool (Pool Code 98315).

Devon previously pooled and orders were issued for two units which cover the same 1,920-acre area as the proposed non-standard unit herein. Those two units consist of (1) Lots 9 through 16 of Sections 1, 2 and 3, containing the Burton Flat 3-1 Fed State Com 623H Well (as established in Case No. 23911, Order No. R-23022) and (2) the S/2 of Sections 1, 2 and 3, containing the Burton Flat 3-1 Fed State Com 624H, 626H, and 826H Well (as established in Case No. 23910, Order No. R-23021).

Sections 1, 2 and 3 are unusual, irregular sections. First, the north half of each section is comprised of 16 lots; thus, each Section is expanded far beyond a typical section by approximately 320 acres. For example, Section 1 is a sizable 912.80 acres because its north half has eight extra lots (Lots 9 through 16) that are 40 acres each.

Because Devon's development plans for all of Sections 1, 2, and 3, extend across and cover the full 2743.92 acres, more or less, Devon is encountering operational and logistical difficulties with the placement of its equipment and facilities. These difficulties became apparent when Devon drilled certain wells in the most northern units of the Sections covering Lots 1-4, and Lots 5-8. Devon has not yet drilled the above-referenced wells in the southern units of the three sections and will be filing new pooling applications for the Wolfcamp formation concurrently

with this administrative application for a 1,920 acre, more or less, non-standard spacing unit in the Wolfcamp underlying Lots 9 – 16 and the S/2 of Section 1, 2 and 3.

Devon has a responsibility to be a prudent operator and approval of the non-standard unit would allow Devon to set up facilities and operations in a prudent manner that provides for the efficient development of these irregular sections and avoids significant economic waste, by eliminating the unnecessary duplication of production facilities, thus bolstering revenue from production and protecting correlative rights. This would also benefit the environment by reducing the impact on surface area and eliminating potential emissions from separate facilities.

Finally, the BLM is directing Devon to enter into a Communization Agreement that encompasses larger areas, and establishing a non-standard unit that encompasses Lots 9 – 16 and the S/2 of Section 1, 2, and 3, would satisfy BLM's preference on these federal lands.

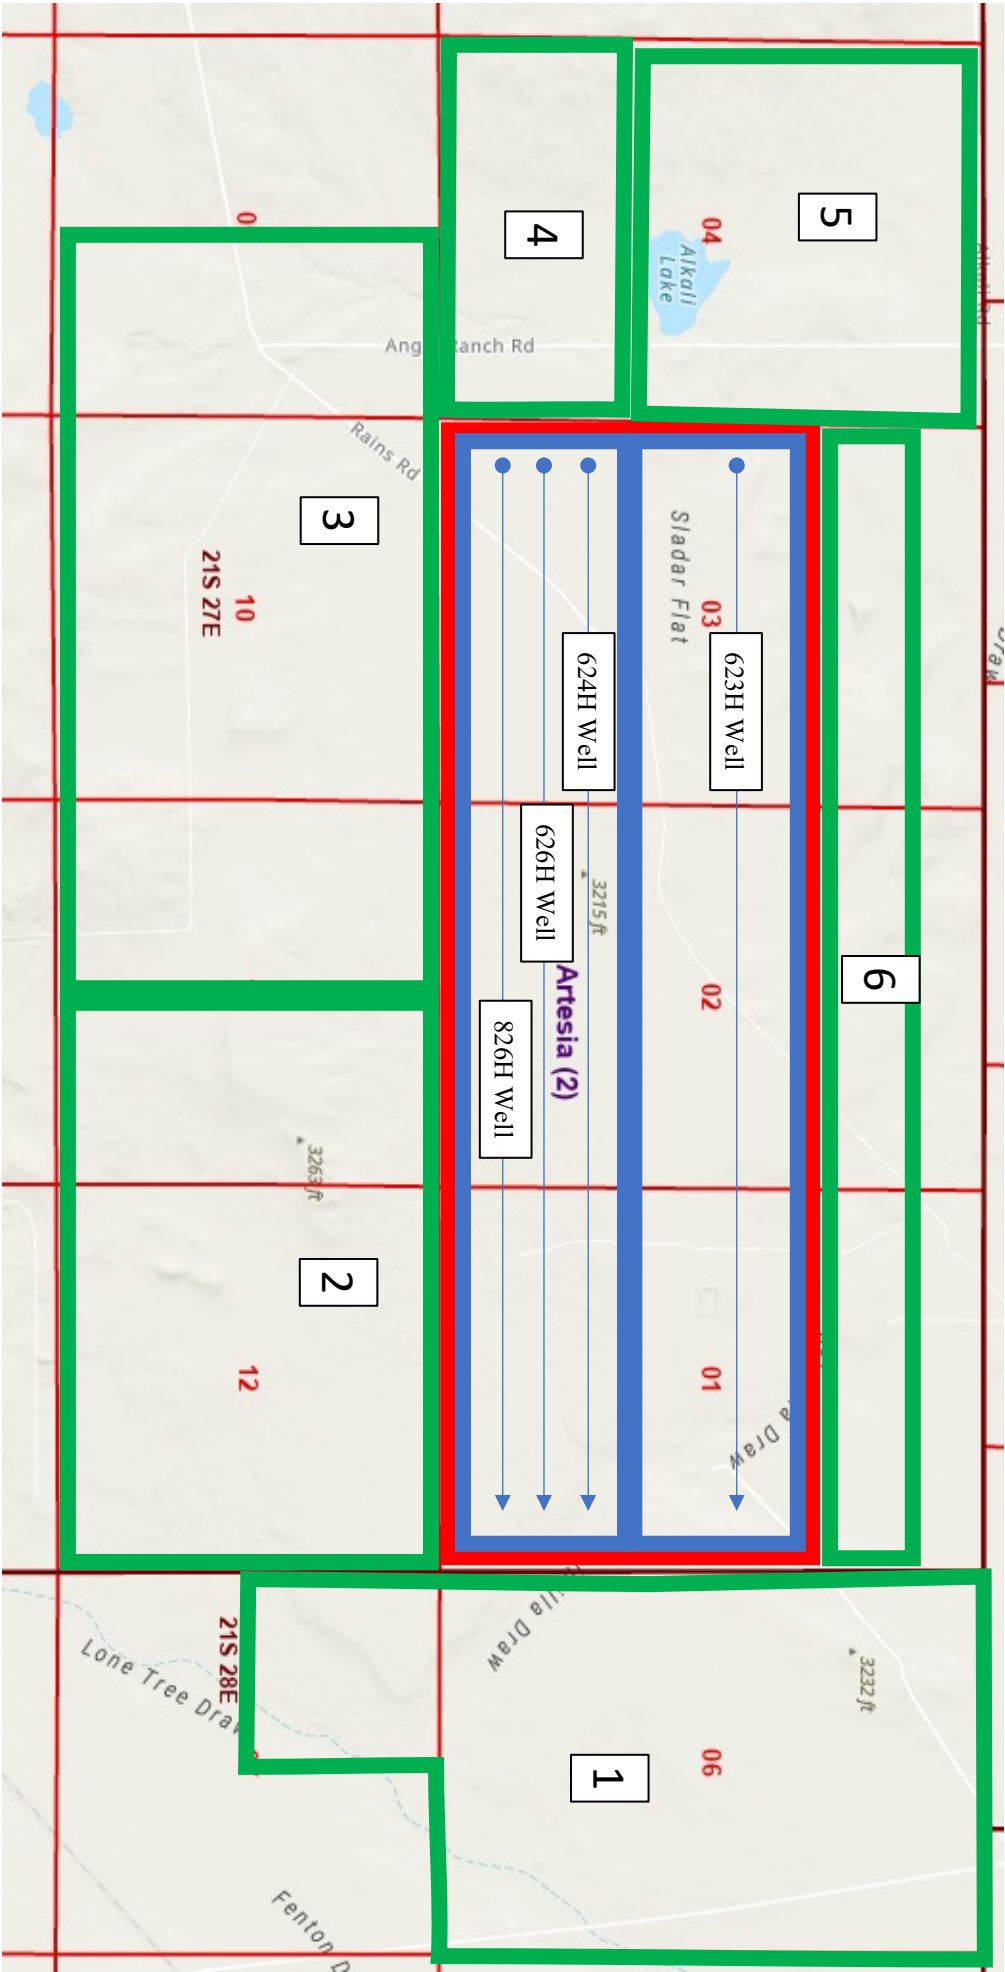

For the foregoing reasons, Devon is requesting approval of the non-standard unit.

Sincerely,

A handwritten signature in black ink, appearing to read 'Keevin Barnes', written over a horizontal line.
