RE: Administrative Order SWD-1878- 2nd Extension of Injection Authority

Well: Mills 19 SWD No. 1

Surface location: 2430 feet FNL 1170 feet FWL Section 19, Township 22 South, Range 32 East, NMPM, Lea County, New Mexico (Lat: 32.37761, Long: -103.719137 NAD83)

Order Date: August 07, 2022

Injection formations: Devonian formation; 16,207-17,457 feet

Dear MS: Caylor

Reference is made to your July 11, 2024, request on behalf of Solaris Water Midstream, LLC (the "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: August 07, 2022.

It is the Division's understanding from your correspondence that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review (AOR). Additionally, no new affected parties have been identified in the AOR. Therefore, the extension request could be reviewed administratively for approval.

The Division finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended until August 07, 2025.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the
