RE: Administrative Order SWD-1707 – Extension of Injection Authority

Well: Athena 28 SWD Well No. 1
Surface location: 2198 feet FNL and 350 feet FWL, Unit E of Section 28,
Township 20 South, Range 34 East, NMPM, Lea County, New Mexico
Lat: 32.545348, Long: -103.572712; NAD83
Order Date: February 7, 2023
Injection formation: Devonian and Silurian Formations; 14,500 feet to 16,250 feet

Dear Mr. Alleman,

Reference is made to your January 5, 2024, request on behalf of Permian Oilfield Partners, LLC (the current "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after the issuance of the order: February 7, 2024.

The Oil Conservation Division ("OCD") has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review ("AOR"). Additionally, thirteen new Affected Parties were identified within the one-mile AOR that have been notified of this extension request and no protests were received. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended until February 7, 2025.

SWD-1707: Extension of Injection Authority
Permian Oilfield Partners, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

GERASIMOS RAZATOS
