RE: Administrative Order SWD-1878 Third Extension of Injection Authority

Well: Mills 19 SWD No. 1, API 30-015-49289

Surface location: 2,430 feet FNL & 1,170 feet FWL, Section 19, Township 22 South, Range 32 East, NMPM, Lea County, New Mexico (Lat: 32.377610, Long: -103.719137 NAD83)

Order Date: August 07, 2022

Injection formations: Devonian formation; 16,207-17,457 feet

Greetings Ms. Martin:

Reference is made to your June 17, 2025, request on behalf of Enchantment Water, LLC (the current "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection due to a previous Extension of Injection Authority approval is August 8, 2025.

The Oil Conservation Division ("OCD") has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review ("AOR"). Additionally, no new Affected Parties have been identified within the one-mile AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until August 8, 2026.**

SWD-1878: Third Extension of Injection Authority
Enchantment Water, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

ALBERT CHANG
Division Director
