**RE: Administrative Order SWD-2617 - First Extension of Injection Authority**

Well: Glacier SWD No.1  
Surface location: 1979 feet FSL, 1981 feet FWL, Unit K, Section 32, Township 16 South,  
Range 27 East, NMPM, Eddy County, New Mexico  
(Latitude: 32.8772162; Longitude: -104.3029502 NAD83)  
Order Date: March 12, 2025  
Injection formations: Devonian formation, 9,385 feet – 9,780 feet.

Greetings Mr. Sherrell:

Reference is made to your December 4, 2025, request on behalf of Mack Energy Corporation (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: March 12, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence. One new Affected Party has been identified within the one-mile AOR that has been notified of this extension request and no protests were received. Further, OCD has reviewed the AOR and has not identified new penetrating wells drilled since the date of issuance of this permit. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until March 12, 2027.**

SWD-2617: First Extension of Injection Authority  
Mack Energy Corporation  
Page 2 of 2

---

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

Date: 1/9/2026
