**RE: Administrative Order SWD-2615 - First Extension of Injection Authority**

Well: Iceberg SWD No. 1  
Surface location: 180 feet FNL, 780 feet FWL, Unit D, Section 32, Township 16 South,  
Range 27 East, NMPM, Eddy County, New Mexico  
(Latitude: 32.8859043; Longitude: -104.3068682 NAD83)  
Order Date: April 2, 2025  
Injection formations: Devonian formation, 9,205 feet – 9,605 feet.

Greetings Mr. Sherrell:

Reference is made to your January 7, 2026, request on behalf of Mack Energy Corporation (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: April 2, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence which states that there are no changes to the Area of Review (“AOR”). OCD has confirmed that there are no new penetrating wells drilled within the AOR since the date of issuance of this permit and that no new Affected persons have been identified within the one-mile AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until April 2, 2027.**

SWD-2615: First Extension of Injection Authority  
Mack Energy Corporation  
Page 2 of 2

---

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.
