RE: Application of Coterra Energy Operating Co. for administrative approval of unorthodox well location for its Cascade 29 Federal 221H well located in a 320-acre, more or less, spacing unit in the Bone Spring formation comprised of the W/2 of Section 29, Township 25 South, Range 33 East, Lea County, New Mexico

Dear Director Chang /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Coterra Energy Operating Co. ("Coterra") (OGRID No. 215099) seeks administrative approval of an unorthodox well location ("NSL") for its Cascade 29 Federal 221H well (API No. 30-025-55533) (the "Well") located in the W/2 of Section 29, Township 25 South, Range 33 East, Lea County, New Mexico, and will be in the WC-025 G-08 S253235G; Lower Bone Spring pool (Pool Code 97903). A C-102 for the Well is attached as Exhibit A. Coterra is requesting this NSL to allow for full and efficient development of this acreage.

The horizontal spacing unit to which the Well will be dedicated is described as:

Description	Acres	Pool	Pool Code
W/2 Section 29	320 ¹	WC-025 G-08 S253235G; Lower Bone Spring	97903

The WC-025 G-08 S253235G; Lower Bone Spring Pool is an oil pool subject to the state-wide rules, which establish a 330' setback requirement for the completed interval of a well to the outer boundary of the spacing unit. The Well's completed interval at the apex of the curve will be closer than 330' from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal u-turn well that will be drilled as follows:

- Surface Hole Location: 270' FSL & 430' FWL (Unit M) of Section 29-T25S-R33E;
- Bottom Hole Location: 100' FSL & 2310' FWL (Unit N) of Section 29-T25S-R33E;
- First Take Point: 100' FSL & 990' FWL (Unit M) of Section 29-T25S-R33E;
- Last Take Point: 100' FSL & 2310' FWL (Unit N) of Section 29-T25S-R33E.

¹ Coterra is preparing an administrative application seeking approval of a non-standard unit to be submitted to the Division in the near term.

Coterra provides a map of the area, attached as Exhibit B, which shows the tracts upon which the unorthodox location will encroach.

As the included C-102 shows, this well is a u-turn well with the first portion of its completed interval in the W/2W/2 of Section 29 and the second half of the completed interval in the E/2W/2 of Section 29. As discussed above, the Well's **completed lateral at the apex** will be closer than 330' from the outer boundary of the spacing unit. See Exhibit A (C-102). The unorthodox location will encroach towards the S/2SW/4 of Section 20.

Coterra received a NSL Waiver, attached as Exhibit C, from OXY USA Inc. ("OXY"), the operator of Section 20, T25S, R33E, Lea County, New Mexico. Coterra is, however, providing notice to the Bureau of Land Management. Proof of mailing along with a copy of the notice letter are included in Exhibit D. Because Coterra received a Waiver from OXY, the only affected offsetting operator, no other offsetting notice is required.

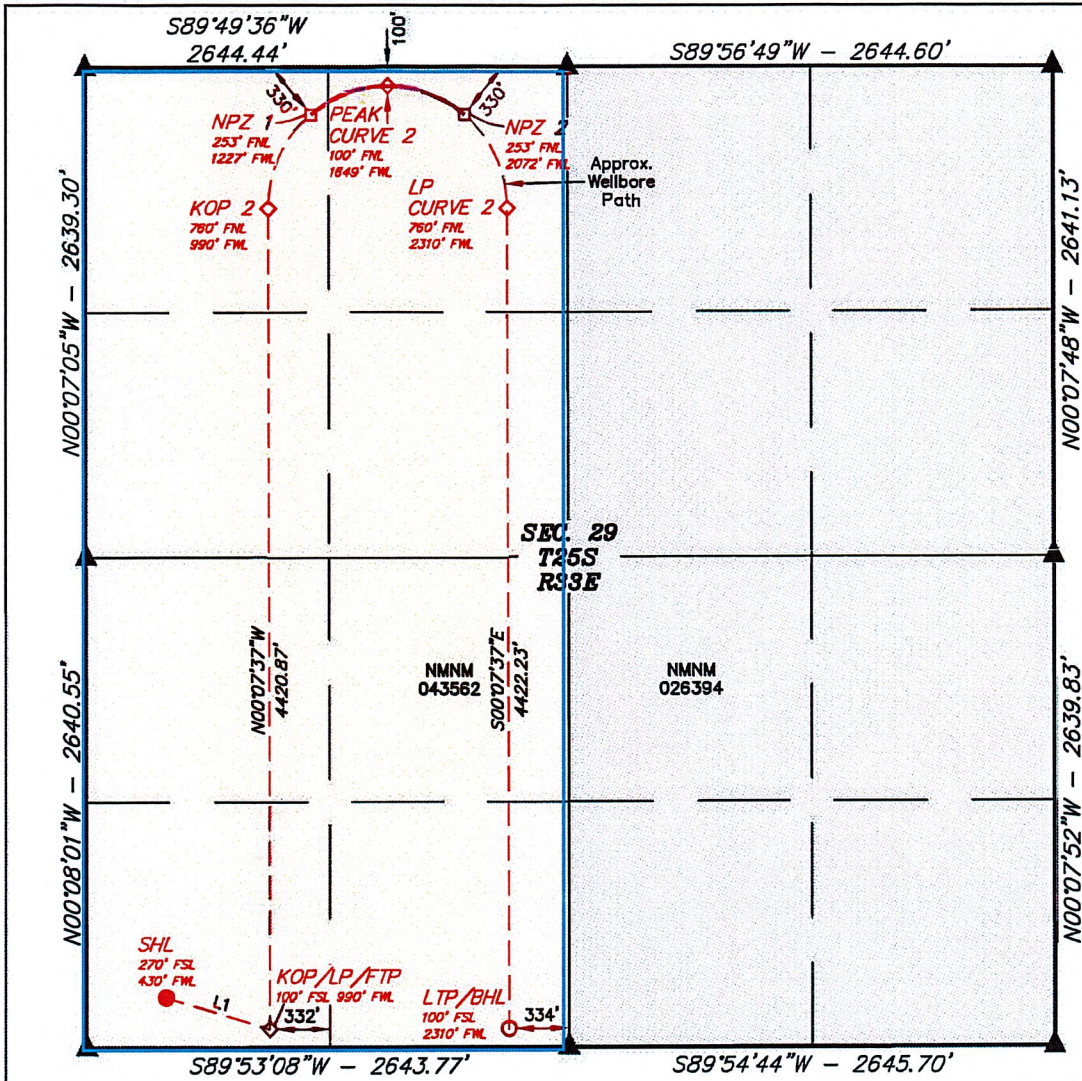

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett
Attorney for Coterra Energy Operating Co.
