**RE: Administrative Order SWD-2629 - First Extension of Injection Authority**

Well: Mugatu 28 Fed SWD No. 1  
Surface location: 944 feet FNL, 563 feet FWL, Unit D, Section 28, Township 23 South,  
Range 29 East, NMPM, Eddy County, New Mexico  
(Latitude: 32.28063038; Longitude: -103.99665071 NAD83)  
Order Date: February 26, 2025  
Injection formations: Devonian-Silurian formation, 14,507 feet – 15,800 feet

Greetings Mr. Stone:

Reference is made to your January 9, 2026, request on behalf of Solaris Water Midstream, LLC (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: February 26, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review (“AOR”). Additionally, one new Affected person has been identified within the one-mile AOR and were noticed and no protests were received. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until February 26, 2027.**

SWD-2629: First Extension of Injection Authority  
Solaris Water Midstream, LLC  
Page 2 of 2

---

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

Date: 05/29/2026
