Re: Application of Coterra Energy Operating Co. for administrative approval of a non-standard spacing unit in the Wolfcamp formation comprised of Section 5, Township 26 South, Range 32 East, Lea County, New Mexico.

Dear Director Chang /OCD Engineering Bureau:

Coterra Energy Operating Co. ("Coterra"), OGRID number 215099, respectfully requests administrative approval of a non-standard unit ("NSU") in the Wolfcamp formation comprised of Section 5, Township 26 South, Range 2 East, Lea County, New Mexico.

This application covers the WC-025 G-08 S263205N; Upper Wolfcamp pool (Code 98065), which encompasses 640 acres and is comprised of Section 5.

Coterra requests that the following new well be dedicated to this NSU:

<u>Well Name</u>	<u>API Number</u>
Hallertau 5 Federal Com 401H	30-025-56121
Hallertau 5 Federal Com 411H	30-025-56120

Coterra also requests that the following existing¹ wells be included in the NSU approved order:

<u>Well Name</u>	<u>API Number</u>
Hallertau 5 Federal Com 3H	30-025-40455

¹ The existing wells are currently dedicated to 160-acre horizontal spacing units. Coterra's goal is to create a single approximately 640-acre horizontal spacing unit.

C-102s for the new and existing wells (the "Wells") are attached hereto as **Exhibit A**. The Wells will comply with the statewide setback requirements for the non-standard spacing unit.

Coterra is requesting this NSU for several reasons. First, approval of the NSU will allow for full and efficient development of this acreage and will minimize surface disturbance by allowing Coterra to consolidate facilities and commingle production from wells in the proposed NSU. Second, Coterra is requesting approval of this NSU to promote effective well spacing by removing the setback requirements from the center line and the quarter-quarter lines to allow for more efficient spacing.

A tract map is attached hereto as **Exhibit B**, which identifies the approximate Well locations. Exhibit B includes attachments that compare and contrast the standard versus non-standard unit scenario.

Exhibit C is a letter from Coterra's reservoir engineer explaining the need for a non-standard unit and the benefits associated with a non-standard, as opposed to a standard, unit.

Proof of mailing notice of the application (including a copy of the application) to affected persons entitled to notice is attached hereto as **Exhibit D**. Also included in Exhibit D is a map identifying the affected tracts and ownership for notice purposes. **Exhibit E** is a letter from Coterra's landman confirming Coterra owns 100% of the working interest in the W/2W/2 of Section 4, Township 26 South, Range 32 East, which is one of the tracts upon which the NSU will encroach.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett

RE: Application of Coterra Energy Operating Co. for administrative approval of a non-standard spacing unit in the Wolfcamp formation comprised of Section 5, Township 26 South, Range 32 East, Lea County, New Mexico.

Dear Director Chang/OCD Engineering Bureau:

Coterra Energy Operating Co., a subsidiary of Coterra Energy Inc., OGRID Number 215099 ("Coterra"), respectfully requests administrative approval of a 640-acre, more or less, nonstandard spacing unit ("NSU") comprised of Section 5, Township 26 South, Range 32 East, Lea County, New Mexico.

The new wells proposed to be dedicated to this NSU are:

<u>Well Name</u>	<u>API Number</u>
Hallertau 5 Federal Com 401H	30-025-56121
Hallertau 5 Federal Com 411H	30-025-56120

Coterra also requests that the following existing wells be included in the NSU approved order:

<u>Well Name</u>	<u>API Number</u>
Hallertau 5 Federal Com 3H	30-025-40455
Hallertau 5 Federal Com 7H	30-025-43911
Hallertau 5 Federal Com 8H	30-025-42666
Hallertau 5 Federal Com 9H	30-025-43303
Hallertau 5 Federal Com 10H	30-024-43304
Hallertau 5 Federal Com 11H	30-025-43886
Hallertau 5 Federal Com 16H	30-025-43887

The new and existing wells (the "Wells") target the Wolfcamp formation and the pool underlying the proposed non-standard spacing unit is the WC-025 G-08 S263205N; Upper Wolfcamp pool (Code 98065), which follows the statewide spacing rules.

The existing wells are currently dedicated to separate 160-acre horizontal spacing units; a W/2W/2 unit and an E/2W/2. The Hallertau 5 Fed Com 401H well is a u-turn well proposed to be in the E/2 of Section 5.

Coterra's goal is to combine the two existing units together with the E/2 unit to create a single approximately 640-acre, more or less, spacing unit.

Approval of Coterra's application promotes effective well spacing because it will allow Coterra to develop the proposed U-Turn well in the non-standard unit. Without the NSU approval, Coterra would need an additional E/2 unit.

In addition, approval of this administrative application will allow for full development of the acreage, promote efficiently located surface facilities, reduce surface disturbance, consolidate roads, tanks and pipelines, and promote effective well spacing, and will allow Coterra to commingle production.

In my opinion, approval of the NSU is in the best interest of conservation, prevention of waste, and protection of correlative rights.

Thank you for your consideration. Should you have any questions please contact me at evan.gutherman@coterra.com or (484) 985-5404.

Sincerely,

Evan Gutherman, EI
