Hello Jessica,

When you did a review of the original AOR did you find any new well penetrations? Your email below mentioned the change in surface owners but I didn't see anything stating if you found any new well penetrations in the original AOR. Thanks.

Thank you,

Good morning Jessica,

The OCD has received your extension request for WFX-1054. A review of the original AOR needs to be completed looking for any new well penetrations and new “affected persons”. If any new “affected persons” are found, they must be noticed. Once the review is complete, please share the results with the UIC team. If you have any questions please let me know.

Thank you,

To the NMOCD Engineering Bureau,

FAE II Operating LLC is requesting a 1 year extension for WFX 1054. We hope to add these wells to our drilling operations in 2026. However, we will not be able to drill, complete, and begin injecting the remaining locations before the February 7th, 2026 expiration date.

Should you have any questions, please call me at 832-706-0051 or email at jessica@faenergyus.com or Huxley Song at 832-706-0057 and huxley@faenergyus.com.

Thank you,

Jessica LaMarro
