ADMINISTRATIVE NON-STANDARD LOCATION

Deana M. Bennett
deana.bennett@modrall.com

Administrative Order NSL – 9365

**Coterra Energy Operating CO. [OGRID 215099]
Cascade 29 Federal Well No. 202H
API No. 30-025-PENDING**

Reference is made to your application received on May 11th, 2026.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	305 FSL & 1180 FEL	P	29	25S	33E	Lea
First Take Point	100 FSL & 50 FEL	P	29	25S	33E	Lea
Last Take Point/ Terminus	100 FSL & 1650 FEL	O	29	25S	33E	Lea

Proposed Horizontal Spacing Unit

Description	Acres	Pool	Pool Code
E/2 Section 29	320	Wildcat; Upper Bone Spring	97994

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator dedicate a horizontal well at a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter - quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the

1220 South St. Francis Drive, 3rd Floor • Santa Fe, New Mexico 87505
Phone (505) 476-3441 • www.emnrd.state.nm.us/ocd

Administrative Order NSL – 9365
Coterra Energy Operating CO.
Page 2 of 2

completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an oil well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet for a well within the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 50 feet to the eastern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 28, encroachment to the W/2 W/2

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

It is understood that the request for a non-standard location is to allow for full and efficient development of acreage within the Bone Spring formation underlying the E/2 Section 29, all while preventing waste and protecting correlative rights.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Albert C.S. Chang
Division Director

RE: Application of Coterra Energy Operating Co. for administrative approval of unorthodox well location for its Cascade 29 Federal 202H well located in a 320-acre, more or less, spacing unit in the Bone Spring formation comprised of the E/2 of Section 29, Township 25 South, Range 33 East, Lea County, New Mexico

Dear Director Chang /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Coterra Energy Operating Co. ("Coterra") (OGRID No. 215099) seeks administrative approval of an unorthodox well location ("NSL") for its Cascade 29 Federal 202H well (API No. pending) (the "Well") located in the E/2 of Section 29, Township 25 South, Range 33 East, Lea County, New Mexico, and will be in the WC-025 G-06 S253329D; Upper Bone Spring pool (Pool Code 97994). A C-102 for the Well is attached as Exhibit A. Coterra is requesting this NSL to allow for full and efficient development of this acreage.

The horizontal spacing unit to which the Well will be dedicated is described as:

Description	Acres	Pool	Pool Code
E/2 Section 29	320	WC-025 G-06 S253329G; Upper Bone Spring	97994

The WC-025 G-06 S253329G; Upper Bone Spring Pool is an oil pool subject to the state-wide rules, which establish a 330' setback requirement for the completed interval of a well to the outer boundary of the spacing unit. The Well's completed interval at the apex of the curve will be closer than 330' from the outer boundary of the spacing unit, which requires an NSL approval. The Well's completed lateral will also be closer than 330' from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal u-turn well that will be drilled as follows:

- Surface Hole Location: 305' FSL & 1180' FEL (Unit P) of Section 29-T25S-R33E;
- Bottom Hole Location: 100' FSL & 1650' FEL (Unit O) of Section 29-T25S-R33E;
- First Take Point: 100' FSL & 50' FEL (Unit P) of Section 29-T25S-R33E;
- Last Take Point: 100' FSL & 1650' FEL (Unit O) of Section 29-T25S-R33E.

Coterra provides a map of the area, attached as Exhibit B, which shows the tracts upon which the unorthodox location will encroach.

As the included C-102 shows, this well is a u-turn well with the first portion of its completed interval in the E/2E/2 of Section 29 and the second half of the completed interval in the W/2E/2 of Section 29. As discussed above, the Well's **completed lateral at the apex** will be closer than 330' from the outer boundary of the spacing unit and the Well's **completed lateral** will also be closer than 330' from the outer boundary of the spacing unit. See Exhibit A (C-102). The unorthodox location will encroach towards the S/2SE/4 of Section 20, the W/2W/2 of Section 28, and the NW/4NW/4 of Section 33.

Coterra is the operator and owns 100% of the working interest in the W/2W/2 of Section 28, Township 25 South, Range 33 East. Coterra's landman has provided a letter confirming the ownership in the W/2W/2 of Section 28, Township 25 South, Range 33 East, which is included as Exhibit C.

Attached as Exhibit D is proof of mailing, along with a copy of the notice letter sent to affected parties. Exhibit D-1 is a list of operators, or where Coterra is the operator, a list of working interest owners, to whom Coterra is providing notice, through its undersigned counsel, pursuant to Rule 19.15.4.12(A)(2) and Rule 19.15.2.7(A)(3). Coterra is also providing notice to the Bureau of Land Management and the New Mexico State Land Office.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett

Re: Non-Standard Location Application
Cascade 29 Federal 202H well
Lea County, New Mexico

Dear OCD Engineering Bureau:

I am a landman for Coterra Energy Operating Co. ("Coterra"). Coterra has requested administrative approval of a non-standard location ("NSL") for the Cascade 29 Federal 202H well (the "Well"). As noted in the NSL application materials for the Well, the Well's unorthodox location will encroach towards the S/2SE/4 of Section 20, the W/2W/2 of Section 28, and the NW/4NW/4 of Section 33.

As a landman for Coterra, I have knowledge of the ownership of the W/2W/2 of Section 28, Township 25 South, Range 33 East, which is one tract upon which the Well will encroach. I confirm that Coterra is the operator and owns 100% of the working interest in the W/2W/2 of Section 28, Township 25 South, Range 33 East.

Thank you for your consideration.

Sincerely,

Land Representative

RE: Application of Coterra Energy Operating Co. for administrative approval of unorthodox well location for its Cascade 29 Federal 202H well, located in a 320-acre, more or less, spacing unit in the Bone Spring formation comprised of the E/2 of Section 29, Township 25 South, Range 33 East, Lea County, New Mexico

Dear Sir or Madam:

Enclosed is a copy of the above referenced applications filed with the New Mexico Conservation Division on this date. Any objections that you have to these applications must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above-referenced applications. If no objection is received within this twenty-day period, the applications may be approved administratively by the Division.

Sincerely,

Deana M. Bennett

Subject: [EXTERNAL] Discrepancy between letter and C102
Date: Tuesday, July 21, 2026 2:56:58 PM

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon, Leonard,

You contacted me about a discrepancy between the letter and the C102 for the Cascade 29 Fed 202H NSL Application filed on behalf of Coterra Energy Operating Co. I just wanted to confirm for you that I have spoken to them and the correct acreage for the horizontal spacing unit is 640 acres.

Thank you so much.

Jeff
