RE: Administrative Order SWD-1878 - Fourth Extension of Injection Authority

Well: Mills 19 SWD No. 1
Surface location: 2430 feet FNL, 1170 feet FWL, Section 19, Township 22 South, Range 32 East, NMPM, Lea County, New Mexico
(Latitude: 32.37761; Longitude: -103.719137 NAD83)
Order Date: August 7, 2022
Injection formations: Devonian-Silurian formation, 16,207 feet – 17,457 feet

Greetings Ms. Kegley-Whitehead:

Reference is made to your June 16, 2026, request on behalf of Enchantment Water, LLC (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection due to a previous Extension of Injection Authority approval is August 8, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence which states that since the most recent extension approval, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review (“AOR”). Additionally, no new Affected persons have been identified within the one-mile AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until August 8, 2027.**

SWD-1878: Fourth Extension of Injection Authority
Enchantment Water, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

ALBERT C.S. CHANG
Division Director
