Subject: Requesting Additional Information for SWD-2699, C-108 Application (Action ID: 575278) - NE Lybrook COM SWD No. 001 (API: 30-039-31378)

Good Afternoon Ms. Ford,

While reviewing the SWD-2699, C-108 application for the NE Lybrook COM SWD No. 001 (API 30-039-31378), Action ID: 575278, we identified a few items that require clarification before we can proceed:

1. Please send Proof of Notice to Epic Energy, LLC correct mailing address. [Return mail was received \(attached\)](#)
 - OCD noticed the address for Epic Energy, LLC is incorrect after reviewing the additional information that was provided on 5/26/26. Below is a reference of Epic Energy, LLC address found on their website. [Correct address used \(attached\)](#)

Contact Epic Energy LLC

332 CR 3100 Aztec, NM 87410

Office Phone: (505) 421-7400

2. The well completion diagram submitted is not labelled to identify if it is current and/or proposed. Additionally, quality of the figure makes it difficult to identify components such as the packer. Please provide an updated existing and proposed wellbore diagram/design for NE Lybrook COM SWD No. 001. [WBD has been revised \(attached\)](#)
3. Please provide Affirmation Statement on open faults or any hydrologic connection between the disposal zone and any underground sources of drinking water.
[Affirmative Geo Statement is attached](#)
 - OCD noticed it was not attached to the application.

Once we receive this information, we will continue with the review.

Please feel free to reach out to us if you have any questions.

Thank you,

Delilah Dougi | Petroleum Specialist

Enduring Resources, LLC
NE Lybrook COM SWD #001

XII. Affirmative Statement of Geologic and Engineering Data

Enduring Resources, LLC is not aware of any geologic or engineering data that may indicate the Entrada Sandstone formation is in hydrological connection with any freshwater sources. No faults have been detected in the area of review or other nearby wellbores. The effectiveness of the main sealing formations stratigraphically isolate hydrocarbon producing and water free formations throughout the Upper Cretaceous geologic section. Entrada water does not reach the shallower Tertiary formations.
