**Proposed Horizontal Units**

| <b>Description</b> | <b>Acres</b> | <b>Pool</b>            | <b>Pool Code</b> |
|--------------------|--------------|------------------------|------------------|
| Section 19         | 1923.55      | Avalon; Wolfcamp (Gas) | 71120            |
| Section 20         |              |                        |                  |
| Section 21         |              |                        |                  |

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(3)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal **gas** well a standard horizontal spacing

Administrative Order NSL - 9406  
Permian Resources Operating, LLC  
Page 2 of 2

unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 660 feet for a **gas** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 330 feet for a **gas** in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and Last Take Points referenced above within the described Horizontal Spacing Unit.

This well's completed interval is as close as 100 feet to the western and eastern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 24, encroachment to the SE/4  
Section 22, encroachment to the SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you are seeking this unorthodox location for optimal spacing, to maximize lateral length, for stimulation energy and to optimize pressure drawdown. While creating cost efficiencies, therefore preventing waste and protecting correlative rights within the Wolfcamp formation underlying all of Section 19, Section 20 and Section 21.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.

**Re: Permian Resources Operating, LLC  
Request for Administrative Approval of Unorthodox Well Location**

Solstice Fed Com 5H (API No. 30-015-57940)  
All of Sections 19, 20, and 21, Township 21 South, Range 26 East, Eddy County, New Mexico.  
Avalon; Wolfcamp (GAS) Pool (Code 71120)

Dear Mr. Chang,

In accordance with Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Permian Resources Operating, LLC ("Permian Resources") (OGRID No. 372165) seeks administrative approval of an unorthodox well location for the Solstice Fed Com 5H well, which is located in a 1,923.55 acre, more or less, standard horizontal spacing unit, comprised of all of Sections 19, 20, and 21, Township 21 South, Range 26 East, Eddy County, New Mexico.

The location for the **Solstice Fed Com 5H** well is as follows:

- Surface Hole Location: 1,173' FSL and 718' FWL, Section 19, Township 21 South, Range 26 East
- First Take Point: 330' FSL and 100' FWL, Section 19, Township 21 South, Range 26 East
- Last Take Point: 330' FSL and 100' FEL, Section 21, Township 21 South, Range 26 East
- Bottom Hole Location: 330' FSL and 100' FEL, Section 21, Township 21 South, Range 26 East

Page 2

The completed interval of the well will be unorthodox because the well is located in a gas pool and will be located less than 330 feet from the offset spacing units to the east, west, and south. As explained in the engineering statement, included as **Exhibit A**, approval of the unorthodox, completed interval is necessary to allow Permian Resources to maximize lateral length, properly place stimulation energy, and optimize pressure drawdown, which will prevent waste and protect correlative rights.

**Exhibit B** is a Form C-102 showing the location of the Solstice Fed Com 5H well in relation to the offset tracts.

**Exhibit C** is a plat that shows the Solstice Fed Com 5H well in relation to the adjoining tracts. Notice was provided to the offset operators to the west of the unorthodox well location, as well as royalty interest owners of the offset tracts. Permian Resources is the offset operator to the east and south. Notice was provided to working interest owners in the east. Permian Resources owns 100% of the working interest in the spacing units it operates to the south. The notice list attached as Exhibit D identifies all offset operators and royalty interest owners who were provided notice of this application.

**Exhibit D** is a list that identifies all affected persons who were sent a copy of this application and attachments by certified mail, advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application, along with the date notice was sent, and a copy of the notice letter to affected persons.

Thank you for your attention to this matter. Please let me know if you require additional information.

Very truly yours,

HARDY McLEAN LLC

**Re: SOLSTICE FED COM 5H**

**SHL:** 718' FWL, 1,173' FSL of Section 19, T21S-R26E

**FTP:** 100' FWL, 330' FSL of Section 19, T21S-R26E

**LTP:** 100' FEL, 330' FSL of Section 21, T21S-R26E

**BHL:** 100' FEL, 330' FSL of Section 21, T21S-R26E

Eddy County, New Mexico

To Whom It May Concern,

Permian Resources Operating, LLC ("Permian") respectfully requests administrative approval on a non-standard location for the SOLSTICE FED COM 5H as it is being drilled 100' from the West line of the spacing unit at the First Take Point, 100' from the East line of the spacing unit at the Last Take Point and 330' from the South line of the spacing unit. Due to the optimal spacing of the planned wells in this section, Permian has planned the SOLSTICE FED COM 5H at this location 100' from the West line, 100' from the East line, and 330' from the South line to obtain maximum lateral length, properly place stimulation energy, and optimize pressure drawdown, which will create cost efficiencies, prevent waste, and protect correlative rights, Permian respectfully requests approval of this non-standard location.

Sincerely,

A handwritten signature in black ink that reads "Dustin Van Brunt".

**Dustin Van Brunt**

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

June 26, 2026

**VIA CERTIFIED MAIL**  
**RETURN RECEIPT REQUESTED****TO: ALL AFFECTED PERSONS****Re: Permian Resources Operating, LLC**  
**Request for Administrative Approval of Unorthodox Well Location**

Enclosed are copies of administrative applications requesting approval of non-standard well locations for the Solstice Fed Com 134H, 214H, and 5H wells. Administrative applications for the above-referenced non-standard locations were filed with the New Mexico Oil Conservation Division on this date. Any objection to these applications must be filed in writing within twenty (20) days from the date these applications are received by the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. If no objection is received within this twenty-day period, the applications may be approved administratively by the Division.

Please consider this letter for notification purposes only. We do not need anything signed or returned to us. If you have any questions about these applications, please contact Daniel Koury, Landman at Permian Resources – [daniel.koury@permianres.com](mailto:daniel.koury@permianres.com).

Sincerely,

HARDY MCLEAN LLC

/s/ Jaclyn M. McLean
