ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 9424

**Devon Energy Production Company, L.P. [OGRID 6137]
Green Wave 17 32 Federal Com Well No. 801H
API No. 30-025-56014**

Reference is made to your application received on July 20th, 2026.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	805 FNL & 525 FWL	D	17	26S	34E	Lea
First Take Point	100 FNL & 1758 FWL	C	17	26S	34E	Lea
Last Take Point	100 FSL & 1758 FWL	F/3	32	26S	34E	Lea
Terminus	20 FSL & 1758 FWL	F/3	32	26S	34E	Lea

Proposed Horizontal Units

Description	Acres	Pool	Pool Code
(equivalent) Section 32	2224.64	Bradley; Wolfcamp (GAS)	72860
Section 29			
Section 20			
Section 17			

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(3)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal **gas** well a standard horizontal spacing

Administrative Order NSL - 9424
Devon Energy Production Company, L.P.
Page 2 of 2

unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 660 feet for a **gas** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 330 feet for a **gas** in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and Last Take Points referenced above within the described Horizontal Spacing Unit.

This well's completed interval is as close as 100 feet to the northern and southern edge of the horizontal spacing unit. However, encroachment concerns only impact the following tract(s) residing within OCD's jurisdiction.

Section 08, encroachment to the SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you are seeking this unorthodox location in order to maximize the lateral length of this well. Therefore, preventing waste within the Wolfcamp formation underlying Section 17, Section 20, Section 29 and (equivalent) Section 32.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.

Albert C.S. Chang
Division Director
AC/lrl

**Re: Devon Energy Production Company, L.P.
Request for Administrative Approval of Unorthodox Well Location**

Green Wave 17-32 Federal Com 801H (API No. pending)
All of Sections 17, 20, 29, and all of irregular Section 32 (N/2 equivalent), Township 26
South, Range 34 East, Lea County, New Mexico.
Bradley; Wolfcamp (Gas) Pool (Code 72860)

Dear Mr. Chang,

In accordance with Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Devon Energy Production Company, L.P. ("Devon") (OGRID No. 6137) seeks administrative approval of an unorthodox well location for the Green Wave 17-32 Federal Com 801H well, which is located in a 2,224.64, more or less, standard horizontal spacing unit, comprised of all of Sections 17, 20, 29, and all of irregular Section 32 (N/2 equivalent), Township 26 South, Range 34 East, Lea County, New Mexico.

The location for the **Green Wave 17-32 Federal Com 801H** well is as follows:

- Surface Hole Location: 805' FNL and 525' FWL, Section 17, Township 26 South, Range 34 East
- First Take Point: 100' FNL and 1,758' FWL, Section 17, Township 26 South, Range 34 East
- Last Take Point: 100' FSL and 1,758' FWL, Section 32, Township 26 South, Range 34 East

125 Lincoln Avenue, Suite 223
Santa Fe, NM 87501

Hardy McLean LLC
July 20, 2026

Page 2

- Bottom Hole Location: 20' FSL and 1,758' FWL, Section 32, Township 26 South, Range 34 East

The completed interval of the wells will be unorthodox because the well is located in a gas pool and will be located less than the Division's required setbacks from the offsetting spacing units to the north and south, for the Bradley; Wolfcamp (Gas) Pool (Code 72860). As explained in the engineering statement, included as **Exhibit A**, approval of the unorthodox, completed interval is necessary to allow Devon to maximize lateral length, which will maximize reserves, prevent waste, and protect correlative rights.

Exhibit B is a Form C-102 showing the location of the Green Wave 17-32 Federal Com 801H well in relation to the offset tracts.

Exhibit C is a plat that shows the Green Wave 17-32 Federal Com 801H well in relation to the adjoining tracts. Notice was provided to the operators, mineral owners, and record title owners in the offset tracts. The notice list attached as Exhibit D identifies all affected persons who were provided notice of this application.

Exhibit D is a list that identifies all affected persons who were sent a copy of this application and attachments by certified mail, advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application, along with the date notice was sent, and a copy of the notice letter to affected persons.

Thank you for your attention to this matter. Please let me know if you require additional information.

Very truly yours,

HARDY MCLEAN LLC

Sante Fe, New Mexico 87505

RE: Application for Non-Standard Location
Engineering Statement
Devon Energy Production Company, L.P.
Green Wave 17-32 Federal Com 801H
Sections 17, 20, 29 and 32-T26S-R34E
Lea County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. ("Devon") respectfully requests administrative approval of non-standard location for the Green Wave 17-32 Federal Com 801H well (the "New Well"). The New Well was assigned the Bradley; Wolfcamp (Gas) Pool (Pool Code 72860) by the NMOCD. Devon has drilled multiple Green Wave Wolfcamp wells ("Existing Wells") in the same sections as the New Well. The Existing Wells were assigned an oil pool and produce with gas-oil ratios (GOR) below the NMOCD's definition of a gas well, therefore the Existing Wells were able to maximize GPI by utilizing oil pool setbacks at the heel and toe.

Devon expects the New Well to produce with a GOR similar to the Existing Wells; therefore Devon proposes to decrease the first and last take points from 660 feet to 100 feet, which will increase the completed horizontal lateral and the ultimate recovery of reserves. Therefore, approval of this non-standard location is necessary to avoid causing wasted resources and reducing production from current and future well development in the area.

Respectfully,

Devon Energy Production Company, L.P.

A handwritten signature in red ink, reading "Donovan Armistead". The signature is stylized with a long, sweeping horizontal line extending to the left.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Devon Energy Production Company, L.P.
Requests for Administrative Approval of Unorthodox Well Locations

Enclosed are copies of administrative applications requesting approval of non-standard well locations for the following wells:

- Green Wave 17-32 Federal Com 800H
- Green Wave 17-32 Federal Com 801H
- Green Wave 17-32 Federal Com 820H
- Green Wave 17-32 Federal Com 821H
- Green Wave 17-32 Federal Com 840H
- Green Wave 17-32 Federal Com 841H

Administrative applications for the above-referenced non-standard locations were filed with the New Mexico Oil Conservation Division on this date. Any objection to these applications must be filed in writing within twenty (20) days from the date these applications are received by the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. If no objection is received within this twenty-day period, the applications may be approved administratively by the Division.

Please consider this letter for notification purposes only. We do not need anything signed or returned to us. If you have any questions about this application, please contact Amber Cooke, Advising Landman at Devon Energy – Amber.Cooke@dvn.com.

Sincerely,

HARDY MCLEAN LLC
