Devon has included as **Exhibit A**, a letter explaining why this application is needed. These wells will produce from the WC 20S29E23:WOLFCAMP [Pool Code 98357]. This pool is designated as an oil pool and statewide rules apply.

The non-standard horizontal spacing unit will be comprised of all of Section 31, and the W/2 of Section 32, all in Township 20 South, Range 30 East, NMPM, Eddy County, New Mexico, and therefore notice was provided to affected persons adjoining the non-standard unit, pursuant to 19.15.16.15B(5)(b)(ii) NMAC.

Exhibit B are the three (3) C-102 Forms, which show the location of the Vesuvius 31-32 Fed Com Wells within the proposed non-standard unit and in relation to the offset tracts.

Devon attests that, on or before submission of this application, it provided notice to the affected persons as described herein; said notice described satisfies all provisions of 19.15.16.15B(5)(b) NMAC. Devon has also provided notice to the New Mexico State Land Office and the Bureau of Land Management to the extent that state and federal leases are involved, pursuant to 19.15.16.15B(5)(b)(ii) and 19.15.2.7A(8)(d) NMAC. Copies of the application and required plat maps are furnished. Devon provides herein a sectional map of this area, attached as **Exhibit C**. Proof of mailing, along with a copy of the notice letter sent to listed affected persons and parties, is attached hereto as **Exhibit D**.

Your consideration in this matter is appreciated.

Sincerely,

RE: Application for Non-standard Spacing Unit - Engineering Statement

Devon Energy Production Company, L.P.

- Vesuvius 31-32 Fed Com 623H
- Vesuvius 31-32 Fed Com 625H

All within the Wolfcamp formation; (the “Vesuvius Wells”)
All of Section 31 and the West half of Section 32, being 960.9200508 net acres more or less
Township 20 South, Range 30 East, NMPM (“Unit”); Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. (“Devon”) respectfully requests administrative approval of a non-standard spacing unit for the Vesuvius Wells referenced above. The wells are in the WC 20S29E23:WOLFCAMP Pool (Pool Code 98357).

Devon’s development plans for Sections 31 and the West half of section 32 encompass the entire 960.9200508-acre area, more or less. Due to restricted surface access and our obligation as a prudent operator to develop each formation from limited drill island locations, we must carefully plan wellbore placement and locations to optimize both the geology and production potential across these two contiguous sections. Development will be spaced uniform throughout the proposed unit eliminating any depletion or production timing variations. The BLM Federal Development Area covering these 960.9200508 acres was submitted, reviewed, and approved March 25, 2024.

Devon has a responsibility to be a prudent operator and approval of the non-standard unit would allow Devon to set up facilities and operations in a prudent manner that provides for the efficient development of these sections and avoids waste, pursuant to Section 70-2-3 of the Oil and Gas Act, by eliminating the unnecessary duplication of production facilities, Communitization agreements, and/or any comingle issues, thus bolstering revenue from production and protecting correlative rights.

For the foregoing reasons, Devon is requesting approval of the non-standard unit.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Barnes", written over a horizontal line.
