**APPLICATION**

Spur Energy Partners, LLC (“Spur” or “Applicant”) (OGRID No. 328947) through its undersigned attorneys, hereby files this application with the Oil Conservation Division to amend Order No. R-21580 (the “Order”) to allow for a one year extension for drilling the proposed initial well under the Order. In support of its application, Spur states:

1. Order No. R-21580, entered on January 19, 2021, in Case No. 21587, created a standard 160-acre horizontal spacing unit in the Yeso formation, from a depth of 3,001 feet to the base of the Yeso formation, underlying the N/2 S/2 of Section 18, Township 18 South, Range 27 East, NMPM, Eddy County, New Mexico (the “Unit”), and designated Applicant as the operator of the Unit.
2. The Unit was designated to the proposed initial (1) the Smashing Pumpkins #10H well, (2) the Smashing Pumpkins #50H well, and (3) the Smashing Pumpkins #70H well.
3. Order No. R-21580 required the drilling of the initial well by January 19, 2022.
4. There is good cause for Spur’s request that the Order be re-opened and amended to allow Spur additional time to commence drilling the well under the Order.
5. The decline in commodity prices in 2020 caused by the global COVID pandemic and other economic factors led Spur to reduce its rig count, thereby causing

Spur to delay its intended plans to develop the acreage subject to the Order. Spur anticipates being able to drill the initial well required by the Order within the next year.

6. Therefore, Spur requests a one-year extension of time to drill the initial well under the Order, until January 19, 2023.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on January 6, 2022, and, after notice and hearing as required by law, the Division enter an order granting this application.
