**APPLICATION OF TOM M. RAGSDALE TO REVOKE
ORDER NOS. R-20924 & R-20924-A OR, IN THE ALTERNATIVE,
TO DECLARE UNREASONABLE CERTAIN COSTS
IMPOSED BY MEWBOURNE OIL COMPANY**

Case No. _____

APPLICATION

Tom M. Ragsdale (“Applicant”) files this application pursuant to 19.15.4.12(A) NMAC, seeking an order revoking Order Nos. R-20924 and R-20924-A or, in the alternative, declaring certain costs unreasonable as imposed by Mewbourne Oil Company (“Mewbourne”) under the foregoing orders. In support, Applicant states as follows:

1. On or about May 20, 2019, Mewbourne filed an application in Case No. 20580, seeking to pool the Bone Spring formation underlying the E2/E2 of Sections 10 and 15, Township 23 South, Range 34 East, NMPM, in Lea County, New Mexico, for the purpose of drilling the Ibex 10/15 B1AP Fed. Com. Well No. 2H, API# 30-025-46188 (“10/15 2H”) and the Ibex 10/15 B3AP Fed. Com. Well No. 1H, API# 30-025-46189 (“10/15 1H”) (collectively, “10/15 Wells”).
2. On June 6, 2019, Applicant received notice of the application in Case No. 20580.
3. On June 13, 2019, Case No. 20580 was presented by affidavit.
4. On June 27, 2019, after notice by publication was complete, Case No. 20580 was taken under advisement.
5. On July 3, 2019, Mewbourne’s applications for permits to drill (“APD”) the 10/15 Wells were approved.

Exhibit A
Siana Oil and Gas, LLC
NMOCD Case No. 22378
July 7, 2022

6. Sometime in July, Mewbourne spudded the 10/15 2H, had drilling issues and abandoned the operation.

7. On July 24, 2019, Mewbourne received approval from BLM to drill a substitute well, the Ibex 10/15 B1AP Fed Com No. 2Y ("10/15 2Y").

8. On July 29, 2019, Mewbourne plugged and abandoned the 10/15 2H, due to drilling issues.

9. Upon information and belief, Mewbourne subsequently attempted to drill the substitute well 10/15 2Y, again had drilling issues and plugged and abandoned the well.

10. On August 27, 2019, Mewbourne applied for permits to drill the Ibex 15/10 B1PA Fed. Com. Well No. 2H, API# 30-025-47060 ("15/10 2H"), and the Ibex 15/10 B3PA Fed. Com. Well No. 1H, API# 30-025-46948 ("15/10 1H") (collectively, "15/10 Wells").

11. On September 3, 2019, Mewbourne filed its application in Case No. 20809, again seeking to pool the Bone Spring formation underlying the E2/E2 of Sections 10 and 15, Township 23 South, Range 34 East, NMPM, in Lea County, New Mexico, but for the purpose of drilling the 15/10 Wells.

12. On September 17, 2019, Applicant received notice of the application in Case No. 20809. The application did not reference the 10/15 Wells or Case No. 20580. As a result, Applicant assumed that the application in Case No. 20809 was unrelated to Case No. 20580 and the 10/15 Wells.

13. At no time did Mewbourne inform Applicant that Mewbourne intended to incorporate the 10/15 Wells in Case No. 20809, along with the 15/10 Wells.

14. On October 3, 2019, Case No. 20809 was presented by affidavit (“15/10 Hearing”). As explained further below at paragraph 22, Point II, Mewbourne made numerous misrepresentations at the 15/10 Hearing.

15. On October 15, 2019, Order No. R-20924 was entered in Case No. 20580, pooling the proposed unit for the purpose of drilling the 10/15 Wells.

16. Applicant never received a copy of Order No. R-20924.

17. On February 18, 2020, Applicant received a well proposal for the 15/10 Wells for an interest, in addition to their force-pooled interests, which was subject to the joint operating agreement (“Subsequently Acquired Interest”). Applicant timely elected to participate in the 15/10 Wells with respect to the Subsequently Acquired Interest. The AFEs tendered to Applicant for the Subsequently Acquired Interest did not impose the costs of failed attempts to drill the 10/15 Wells.

18. On February 19, 2020, Order No. R-20924-A was entered in Case No. 20809, pooling the proposed unit for the purpose of drilling both the 10/15 Wells and the 15/10 Wells. Order No. R-20924-A expressly superseded Order No. R-20924.

19. On February 27, 2020, Mewbourne received approval of its APD for the 15/10 1H.

20. On March 11, 2020, Applicant received notice of Order No. R-20924-A and AFEs for only 2 of the 4 wells pooled under the Order, being the 15/10 Wells. The AFE for the 15/10 2H included an additional \$3,102,500 attributed to Mewbourne’s failed attempts to drill the 10/15 2H and the 10/15 2Y. The AFE for the 15/10 2H submitted by Mewbourne to the Division at the 15/10 Hearing did not include this additional cost and was not the same AFE Applicant received with the notice of the Order. Applicant received no notice of Mewbourne’s

intent to piggyback the costs of failed drilling attempts for any 10/15 Wells with the costs for the 15/10 Wells.

21. When Applicant brought this improper charge to Mewbourne's attention, Mewbourne relied on Order No. 20924-A in support of its position. Applicant elected to participate in the 15/10 Wells, paying Mewbourne his share of the Estimated Wells Costs for the 15/10 Wells but declining to pay his share of the improper charge for the failed attempts to drill the 10/15 2H and 10/15 2Y. Mewbourne subsequently deemed Applicant non-consent in the 15/10 2H as a result, but has acknowledged Applicant as a pooled working interest owner who has paid its share of the Estimated Well Costs under Order No. 20924-A for the 15/10 1H.

22. Mewbourne's efforts to shoehorn costs for its failed drilling attempts related to the 10/15 2H and 10/15 2Y into the costs for the 15/10 2H are improper for several reasons:

I. Mewbourne failed to provide notice of its intent to force pool all four wells under one order.

The application filed by Mewbourne in Case No. 20809 fails to alert the Division and, consequently, any interest owner in the spacing unit, of Mewbourne's intent to recover costs for the 10/15 2H and 10/15 2Y in Case No. 20809. The notice letter to Applicant similarly failed to adequately inform him as to the nature of the proceeding. *See* 19.15.4.8(A)(4) NMAC (requiring the application to include "the general nature of the order sought"). For this reason alone, Mewbourne's demand under the 15/10 2H AFE, for payment of costs for failed attempts to drill the 10/15 2H and 10/15 2Y, is contrary to New Mexico law, and the Division should reopen Case Nos. 20580 and 20809 to correct this failure of notice. *See, e.g.*, 19.15.4.12(E) NMAC; Order No. R-14877.

II. Mewbourne Misrepresented the Status of the 10/15 Wells in the 15/10 Hearing.

Mewbourne did not reference the 10/15 Wells in the application for the 15/10 Wells. It was not until Mewbourne filed its prehearing statement on September 25, 2019, that it first asked the Division to include the 10/15 Wells in the order for Case No. 20809. Mewbourne provided no explanation to the Division about the basis of this request, other than to state that “[t]his case is related to Case No. 20580, previously heard, in which no order has been issued.” Case No. 20809, Pre-hearing Statement (Sept. 25, 2019). Mewbourne failed to inform the Division at that time, however, that it had already twice attempted to drill the 10/15 2H, and both attempts had failed.

Subsequently, at the 15/10 Hearing, Mewbourne asked the Division to include “all four wells, the two 10/15 wells and the two 15/10 wells, because they may still drill the original two wells.” No. 20809, Hearing Transcript 4:1-4 (Oct. 3, 2018); *see* No. 20809, Verified Statement of Mitch Robb ¶ 2(c) (Oct. 2, 2019) (averring that the unit would be dedicated to both the 10/15 Wells and the 15/10 Wells). Mewbourne further represented to the Division that “[t]he AFEs for the wells – actually the south to north wells are cheaper than, slightly cheaper than the original wells.” *Id.* 4:16-18. Notably, neither AFE admitted into the record for the 15/10 Wells at the October 3 hearing included the costs for failed attempts that are now included in the AFE for the 15/10 2H. However, the AFE received by Applicant for the 15/10 2H was *not* the AFE that was entered into the record by the Division at Mewbourne’s request.

Mewbourne led the Division to believe that Mewbourne might drill all four wells and that each well had a separate AFE. *See id.* 5:16-24. At no time did Mewbourne inform the Division that Mewbourne would seek to recover costs incurred under one AFE, for failed attempts to drill the 10/15 2H and the 10/15 2Y, under another AFE for the 15/10 2H. *See generally id.* Indeed,

this would be directly contrary to the Division's understanding that a force-pooled party will have the opportunity to elect under each well. *See* NMSA 1978, § 70-2-17 (1977) (expressly referring to costs of drilling and completing *the* well," i.e. a singular well (emphasis added)); *see* 19.15.13.8 NMAC ("Well costs shall include the reasonable costs of drilling . . . *the* well," i.e. a singular well (emphasis added)); *see also* No. 20468, Hearing Transcript 8:2-16 (May 2, 2019).

III. Mewbourne's Imposition of Costs for Failed Attempts to Drill the 10/15 Wells Is Otherwise Contrary to Law

Mewbourne's efforts to recover costs for its attempts to drill the 10/15 2H and 10/15 2Y are improper for a number of other reasons. **First**, Applicant never had the opportunity to elect to participate in the 10/15 Wells prior to Mewbourne's attempts to drill. Mewbourne thus assumed the risk of drilling the 10/15 2H by drilling before a force-pooling order was entered. *See* Order No. R-11327 at 6, ¶ 28; *cf.* Order No. R-12343-E at 6, ¶ 32.

Second, even if Applicant had had the opportunity to elect, the costs of drilling an abandoned well are not considered to be "well costs." Rule 19.15.13.8(B)(1) NMAC addresses well costs "[i]f . . . a well . . . was previously abandoned without completion":

Well costs as to that well shall mean only the reasonable costs of reentering, reworking, diverting, deepening, plugging back or testing the well; completion in the pooled formation or formations and; if necessary, reequipping the well for production, unless the division determines that allowance of all or some portion of historical costs of drilling is just and reasonable due to particular circumstances.

Third, contrary to Mewbourne's position, it is not entitled to recover these costs on the basis that the 15/10 Wells are substitute wells for the 10/15 Wells. The 15/10 Wells do not satisfy the requirements for a substitute well under Rule 19.15.13.8(B)(4):

Well costs shall also include reasonable costs of drilling, testing, completing and equipping a substitute well *if*, in the drilling of a well pursuant to a compulsory pooling order, the operator loses the hole or encounters mechanical difficulties rendering it impracticable to drill to the objective depth and *the substitute well is*

located within 330 feet of the original well and the operator commences drilling within 10 days of the original well's abandonment.

(Emphasis added.) Mewbourne's 15/10 Wells satisfy neither of the requirements of Rule 19.15.13.8(B)(4) NMAC. Thus, costs of the failed attempts to drill the 10/15 2H and 10/15 2Y cannot be imposed under an AFE for the 15/10 2H.

Fourth, contrary to Mewbourne's position, Order No. R-20924-A does *not* incorporate 19.15.13.8(1)NMAC; nor does it provide that all of the wells proposed in two different force-pooling cases have the same election. Again, this would be directly contrary to the Division's understanding that each force-pooled party will have the opportunity to elect to participate in each separate well.

Fifth, contrary to Mewbourne's position, Paragraph 27 of Order No. R-20924-A does *not* provide that the only election available to a pooled working interest is to elect and render payment of the estimated well cost for all three attempts to drill the First Bone Spring well, along with the Third Bone Spring test. Paragraph 27 of the Order simply states the unremarkable proposition that an owner of a pooled working interest has the opportunity to elect to pay costs "for *the* well." (Emphasis added.) Thus, paragraph 27 of the Order specifically recognizes that a force-pooled party has the opportunity to elect whether it will participate in *each* well. The Order does not provide that an election for one well is an election for all or that somehow Mewbourne's novel request to include all four wells in one Order would allow it to impose costs for one well through an AFE for another well. *See* Hearing Transcript 6:15-16 ("And, by the way, that's the first time I've ever asked for that type of Order in 37 years.").

WHEREFORE, Applicant respectfully requests (1) that this matter be heard before the Division on the July 9, 2020, docket; (2) that the Division reopen Case Nos. 20580 and 20809, for Mewbourne's failure to provide notice, *see, e.g.*, 19.15.4.12(E) NMAC; Order No. R-14877;

(3) that, after notice and hearing, the Division enter an order revoking or substantially modifying Order Nos. 20934 and 20934-A or, in the alternative, declaring that Mewbourne cannot recover costs for failed attempts to drill the 10/15 Wells by including them in costs for the 15/10 Wells; and (4) that the Division require Mewbourne to allow Applicant to participate without being charged for the improper costs.

Respectfully submitted,

**APPLICATION FOR AN ACCOUNTING FROM
MEWBOURNE OIL COMPANY UNDER ORDER
NOS. R- 21292 AND R-21293 AND TO DECLARE
CERTAIN ACCOUNTING PRACTICES IMPROPER**

Case No: 22378

DIRECT TESTIMONY OF TOM M. RAGSDALE

Q: Please state your full name for the record.

A: My name is Tom M. Ragsdale.

Q: What is your occupation?

A: I have a background in petroleum engineering. I have been managing oil and gas interests since 1992.

Q: Please describe your relationship with the applicant in this case, Siana Oil & Gas Co. ("Siana").

A: I am the President and 100% owner of Siana.

Q: As the President of Siana, are you familiar with the issues that have been raised by the application at issue?

A: Yes, I am.

Q: Do you seek to have your testimony in this matter admitted as an expert witness and as a fact witness?

A: Yes, I do.

Q: Please describe your education and work experience.

A: I received a degree in petroleum engineering from Texas A&M in 1985. My work experience since that time is as follows: I worked for a Louisiana drilling company, Grey Wolf Drilling Co., in 1985-86, and a Louisiana production company, Petroleum Engineers, Inc., in 1987. I then worked for IP Petroleum, a wholly owned subsidiary of International Paper, for approximately three years. Thereafter, I worked for Meridian Oil for approximately one year. I then worked for Costilla Petroleum Company for several years. Beginning in 1992, I worked as an independent consultant for two years. I started Siana Oil & Gas in 1994. In 1996, Siana began contract operating in NM. In 1998, I started acquiring and managing minerals in NM. I have managed minerals in New Mexico since that time.

Exhibit B
Siana Oil and Gas, LLC
NMOCD Case No. 22378
July 7, 2022

Q: What are you seeking in this case?

A: I am asking the Commission to require Mewbourne to provide an accounting for its drilling, completion, and operating costs incurred under compulsory pooling orders No. R-21292 and R-21293, which were issued on April 28, 2020.

Q: What are the case numbers associated with these two orders?

A: Order No. R-21292 was issued in Case No. 21156; Order No. R-21293 was issued in Case No. 21157.

Q: Can you please describe the lands and wells at issue in this application?

A: In Case No. 21156, Order No. R-21292 pooled a 240-acre horizontal spacing unit ("HSU") located in the W2 E2 of Section 26 and the W2 SE4 of Section 23, all in Township 21 South, Range 34 East, dedicated to the Inland 26/23 B2OJ State Com Well No. 1H, API# 30-025-46931("OJ Well").

In Case No. 21157, Order No. R-21293 pooled a 240-acre HSU in the E2 E2 of Section 26 and the E2 SE4 of Section 23, all in Township 21S, Range 34 East, dedicated to the Inland 26/23 B2PI State Com Well No. 1H, 30-025-45283 ("PI Well"). The OJ Well and PI Well will be referred to collectively as the "Wells."

Q: If I refer to the "Wells" in your testimony, is it understood that I am referring to both the OJ Well and the PI Well?

A: Yes.

Q: Does Siana own a mineral interest at issue in this proceeding?

A: Yes, it does.

Q: What is the nature of that interest?

A: Siana is the record title owner of 10% working interest in the spacing units and wells at issue in this proceeding.

Q: And Siana elected to participate in both wells, paid the estimated drilling and completion costs, and was deemed a participating working interest owner in the Wells, correct?

A: That is correct.

Q: What are the issues in this proceeding?

A: There are two overarching issues in this proceeding. First, Mewbourne is improperly accounting for its costs incurred to drill, complete, and operate the Wells and for the related revenues. Second, Mewbourne has violated several provisions in the Division's orders, which has adversely impacted Siana and its mineral interest.

Q: Let's talk about the accounting issue first. What types of accounting issues has Siana experienced?

A: There are a number of accounting issues, some of which relate to Mewbourne's violations of the orders. For example, Mewbourne has failed to submit to OCD or to Siana an itemized schedule of the actual well costs, as required by paragraph 24 of the orders.

Q: How has this failure affected Siana?

A: Among other things, it precluded Siana from challenging the reasonableness of the actual well costs, as provided by paragraph 24 of the orders. Moreover, Mewbourne failed to pay Siana its share of the estimated drilling and completion costs that exceeded the reasonable well costs ("Overage"), as required by paragraph 25 of the orders. Mewbourne circumvented the deadline for paying the Overage when it failed to submit the required schedule of actual well costs.

Q: How else has the failure to submit actual well costs affected Siana?

A: Siana's accounting folks were forced to closely examine the joint interest billings, revenue statements, and daily drilling reports in an effort to determine what costs had been charged for drilling and completion, as opposed to costs for operating the wells, and whether the costs were properly attributed to the correct category and to the correct wells. It was a difficult process and we cannot confirm that we had all of the information necessary to determine the extent of Mewbourne's improper accounting practices. Only Mewbourne has the capacity to accurately produce an accounting.

Q: Can you tell me how much time Siana's accounting department had to spend in order to identify the accounting problems at issue?

A: Three people worked a total of approximately 140-145 hours to identify the accounting problems and prepare the spreadsheets for this proceeding.

Q: And your accountant will be testifying shortly about the specifics of the improper accounting practices in this hearing later today, correct?

A: That is correct.

Q: Have you reviewed the daily drilling reports that Mewbourne provided Siana for the PI and OJ wells?

A: Yes, I have.

Q: Turning to Exhibit J, is this the daily drilling report for the PI well?

A: Yes it is.

Q: What did you learn from your review of the daily drilling report for the PI well?

A: Siana determined that the cumulative total well costs for drilling and completion were estimated, after completion and fracing were finished, to be approximately 56.1% of the estimated costs demanded by Mewbourne in its AFE. The AFE had been overestimated by approximately 43.9%, due to changes in the market.

Q: And you reviewed the daily drilling report for the OJ well, Exhibit K, did you not?

A: Yes, I did.

Q: Did you identify similar facts and reach similar conclusions?

A: Yes, I did. I determined that the cumulative total well costs for drilling and completion were estimated, after completion and fracing were finished, to be approximately 55.3% of the estimated costs demanded by Mewbourne in its AFE. The AFE had been overestimated by approximately 44.7%. Previously, I sent Mewbourne a letter requesting that they adjust the AFEs, which were obviously overestimated in light of the circumstances at the time they requested the cash call, but Mewbourne refused.

Q: You also reviewed the drilling report for the OJ battery, Exhibit L, did you not?

A: Yes, I did. However, I have not been able to determine the propriety of those costs without obtaining additional information from Mewbourne.

Q: And Mewbourne kept the overage that you paid in estimated costs, did it not?

A: Yes, it did. As explained further below, Mewbourne did not return the overage, but instead improperly deducted other costs from the overage paid for the drilling and completion costs.

Q: Let's take a look at the express language in the orders. Turning to page 3 of Exhibit M, what does paragraph 24 provide?

A: Paragraph 24 requires the operator, in this case Mewbourne, to "submit to OCD and each owner of a pooled working interest an itemized schedule of the Actual Well Costs."

Q: Did Siana ever receive an itemized schedule of actual well costs for the PI or OJ wells?

A: It did not.

Q: To your knowledge, did Mewbourne ever provide the OCD with an itemized schedule of actual well costs for the PI or OJ wells?

A: Not that I know of.

Q: How does Mewbourne's failure to comply with paragraph 24 affect Siana?

A: The time period for objecting to costs as reasonable is tied to Mewbourne's deadline for submitting the itemized schedule of Actual Well Costs. In addition, the time for Siana to reimburse non-operators for their share of estimated well costs that exceed actual well

costs is tied to Mewbourne's deadline for submitting Actual Well Costs. By failing to comply with paragraph 24, Mewbourne deprived Siana of its right to timely challenge the actual well costs as reasonable and its right to timely receive the overages paid for estimated well costs.

Q: Are there any other provisions of the orders that Mewbourne has failed to comply with?

A: Yes. Mewbourne has failed to provide an itemized schedule of the reasonable charges for operating and maintaining the wells, which is required by paragraph 27.

Q: What does paragraph 27 say?

A: Paragraph 27 requires the operator, again in this case Mewbourne, to submit to OCD and each non-operator an itemized schedule of the reasonable charges for operating and maintaining the wells, within 90 days after filing the form C-105. These charges are defined as the "Operating Charges," which "shall not include the Reasonable Well Costs or Supervision Charges."

Q: How does Mewbourne's failure to comply with paragraph 27 affect Siana?

A: The time period for objecting to operating charges as reasonable is tied to Mewbourne's deadline for submitting the itemized schedule of operating charges. By failing to comply with paragraph 27, Mewbourne deprived Siana of its right to timely challenge the operating charges.

Q: What other accounting issues were identified by Siana?

A: Mewbourne has been holding in suspense 100% of Siana's revenues while, at the same time, demanding that Siana pay 100% of its share of the costs.

Q: When did Mewbourne notify Siana that it was holding Siana's revenues in suspense?

A: Mewbourne never notified Siana that it was holding its revenues in suspense.

Q: Do you know why Siana's revenues are being held in suspense?

A: I believe it is due to certain parties claiming in interest in a portion of Siana's record title interest.

Q: And is Mewbourne holding in suspense only that portion of Siana's record title interest that has been challenged by these other parties?

A: No. They are withholding 100% of Siana's revenues, while demanding that Siana pay 100% of the costs.

Q: In your experience, has any operator ever withheld 100% of a working interest owner's revenues but required that owner to pay 100% of the costs?

A: Never.

- Q:** Has Siana identified any other accounting issues?
- A:** Yes. Mewbourne has netted operating costs for the OJ and PI Wells from the Overages on the estimated costs paid by Siana.
- Q:** Is it your understanding that netting operating costs from estimated costs overage is also a violation of the orders?
- A:** Yes. Mewbourne's practice in netting operating costs from the Overages violates paragraphs 22-25 of the orders.
- Q:** Does paragraph 28 expressly state the costs and charges that may be withheld from a participating non-operator's share of production?
- A:** Yes, it does. It expressly provides that an operator, in this case Mewbourne, may withhold from the non-operator's share of production only two costs: (a) the proportionate share of supervision charges for the particular well with production, and (b) the proportionate share of operating charges for the particular well with production.
- Q:** And, again, Siana's accounting witness will testify as to the specifics of Mewbourne's improper accounting practices later in this hearing, correct?
- A:** Yes, she will.
- Q:** Have you requested to take Siana's production in kind?
- A:** Yes, I have, numerous times in writing.
- Q:** And how did Mewbourne respond to that request?
- A:** Mewbourne repeatedly refuses to allow Siana to take its production in kind. Mewbourne takes the position that the compulsory pooling orders do not allow Siana to take its production in kind.
- Q:** Turning to Exhibits M and N, have you reviewed the orders for language that precludes a non-operator from taking in kind?
- A:** Yes, I have. In my opinion, no language in the orders preclude a non-operator from taking in kind. Rather, it is just the opposite—the language of the orders indicates that a non-operator is entitled to a "share of production"; the non-operator is not limited to a share of the revenues that the operator received for that production. See, for example, the first line in paragraphs 28 and 29 of the orders.
- Q:** What relief do you seek from the Division in this proceeding?
- A:** Siana asks the Division to require that Mewbourne provide an accounting for drilling and completion and for operating expenses for the Wells. Siana also asks the Division to order that Mewbourne cease the improper accounting practices Siana identified in its

analysis of the JIBs, revenue statements, and daily drilling reports. Siana also asks the Division to require that Mewbourne return the Overages, including interest as allowed under NMSA 1978, § 56-8-3 (1983) (allowing up to 15% interest “on money received to the use of another and retained without the owner’s consent”). Finally, Siana requests that the Division require Mewbourne to allow Siana to take its production in kind.

Q: Does this conclude your testimony at this time?

A: Yes, it does. However, I may provide additional direct testimony at hearing in this matter.

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION FOR AN ACCOUNTING FROM
MEWBOURNE OIL COMPANY UNDER ORDER
NOS. R- 21292 AND R-21293 AND TO DECLARE
CERTAIN ACCOUNTING PRACTICES IMPROPER**

Case No: 22378

DIRECT TESTIMONY OF DANIELLE CALDWELL

Q: Please state your full name for the record.

A: My name is Danielle Susan Caldwell.

Q: Where are you employed, for how long, and in what capacity?

A: I am employed by Siana Oil & Gas Co. in Houston, Texas ("Siana"). I have been an accountant at Siana since October 2021.

Q: Do you seek to have your testimony in this matter admitted as an expert witness and as a fact witness?

A: Yes, I do.

Q: Please describe your education and experience prior to your work at Siana.

A: I have a BBA in accounting from Sam Houston State University in 1996. I worked for Pennzoil Energy as a revenue accountant for approximately three years. I was at Burlington Resources for approximately 15 years, as a marketing, volume, and revenue accountant. I worked at EAG Services as an accounting consultant for a few years before working for Linn Energy as an accounting consultant for production and revenue for nine years. I then moved to Talisman/Repsol where I worked as a systems implementation coordinator for the accounting group for two years. I then returned to Linn Energy, which was purchased by Riviera Resources, to work a revenue consultant for almost two years. At that time, I began working for Siana.

Q: In your work for Siana, did you become familiar with Siana's interests relating to this matter and the circumstances relating to the same?

A: Yes, I did.

Q: What will be the focus of your testimony in this matter.?

A: My testimony will focus on my review of the accounting records identified as exhibits in this matter and the conclusions that I reached in light of that review.

Exhibit C
Siana Oil and Gas, LLC
NMOCD Case No. 22378
July 7, 2022

Q: Please tell the hearing examiners the documents that you reviewed in preparation for the hearing.

A: I reviewed the joint interest billing statements (“JIBs”), Exhibits D, E, F, and I, and the revenue statements received from Mewbourne in 2020, 2021, and 2022, Exhibits G and H.

Q: Did you also create spreadsheets with the data that is in these documents?

A: Yes, I did. The spreadsheets are identified as Exhibits P, Q, and R.

Q: And how did you import the data when you created the spreadsheets?

A: I electronically accessed from Energy Link all of the data that is in the JIBs and revenue statements. By downloading the same information from Energy Link, I was able to incorporate the data in the spreadsheets without input errors.

Q: How did you use all of this information?

A: I compared the information in each JIB to the information in each revenue statement in an effort to determine Mewbourne’s accounting for drilling and completion of the Inland wells and for lease operating expenses or LOE relating to the Inland wells.

Q: Let’s turn now to Exhibit P. Please explain the data in each tab of the spreadsheet.

A: In Tab 1, I summarized all of the data contained in the joint interest billings. Tab 2 is a detail of the type of costs within each JIB such as drilling, completion, and LOE. Tab 3 is summarizes all of the data contained in the revenue statements. Tab 4 is a breakdown of the JIB detail costs for the Inland OJ well. Tab 5 is a breakdown of the JIB detail costs for the Inland PI well. Tab 6 is a summary of Tabs 4 and 5.

Q: Let’s turn now to the second spreadsheet, Exhibit Q. Please explain the data in this spreadsheet.

A: The data in Exhibit Q supports the data in Exhibit P. The first two tabs, which are green, support the green tab in Exhibit P. Tabs 3-5 support the orange tabs in Exhibit P. Similarly, the yellow tabs in Exhibit Q support the yellow tabs in Exhibit P. Each of the tabs in Exhibits Q and R include increasingly more data supporting the previous tabs in each spreadsheet.

Q: Turning now to Exhibit R, please explain this spreadsheet.

A: Exhibit R is all of the raw data that was downloaded from Energy Link. It supports the first and second spreadsheets.

Q: What did you determine from your comparison of the data in the JIBs and in the revenue statements?

A: I determined that there was a significant overpayment made by Siana for the estimated costs drilling and completion costs in Mewbourne's AFEs for the Inland PI and OJ wells and that the overpayment had not been refunded to Siana.

Q: Were you able to determine how Mewbourne was treating the overpayment?

A: Yes. I determined that Mewbourne was deducting LOE for the PI and OJ wells from the overpayments made by Siana for drilling and completion costs.

Q: In your experience, is it proper to net LOE from estimated costs paid for drilling and completion?

A: No, it is not.

Q: Were you able to determine how much Siana is owed by Mewbourne for the overpayments for drilling and completion costs related to the PI and OJ wells?

A: Yes, Tabs 4 and 5 of Exhibit P and Tabs 3, 4, and 5 of Exhibit Q provide the information regarding overpayments and differentiate between the cash call amounts and the LOE. I was able to estimate that Mewbourne has wrongfully retained approximately \$406,136.31.

Q: Did your review of the JIB statements reveal any other improper netting practices?

A: Yes. It revealed that Mewbourne was netting LOE from the Inland wells from the overpayments for estimated drilling and completion costs.

Q: In your experience, is it proper to net LOE from estimated costs paid for drilling and completion?

A: No, it is not.

Q: Did you make any other determinations as a result of your review?

A: Yes. I determined that after Mewbourne exhausted the overpayments due Siana by netting LOE for the Inland wells, it began to deduct LOE from production related to other wells.

Q: In your experience, is it proper to net LOE for one well from production related to other wells?

A: No, it is not.

Q: Does this conclude your testimony?

A: Yes, it does. However, I may have additional testimony to offer after the testimony of Mewbourne's witnesses.
