APPLICATION OF MRC PERMIAN COMPANY
FOR APPROVAL OF AN OVERLAPPING HORIZONTAL
WELL SPACING UNIT AND COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.

CASE NO. 23751

APPLICATION

MRC Permian Company (“MRC” or “Applicant”), through undersigned attorneys, files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (a) approving a standard 240-acre, more or less, overlapping horizontal well spacing unit in the Wolfcamp formation underlying the S2N2 of Section 33 and the S2NE4 of Section 32, Township 20 South, Range 30 East, NMPM, Eddy County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. In support of its application, MRC states:

1. Applicant is a working interest owner in the proposed horizontal well spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Matador Production Company (OGRID No. 228937) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced horizontal well spacing unit to the proposed **Alyson 3332 Fed Com 202H** well to be horizontally drilled from a surface hole location in the NE4NE4 (Unit A) of Section 33, with a first take point in the SE4NE4 (Unit H) and a last take point in the SW4NE4 (Unit G) of Section 32.

GUbHJ: YZBYk `A YI jVc
91\]V]hBc"6
Gi Va]HXY`Vm`AF7 `DYfa]Ub`7 ca dUbm
<YUF]b[`8 UHY. `GYdhYa VYf`+z&\$&`
7 UgY`Bc" &`+) %

4. This proposed horizontal well spacing unit will overlap a 40-acre spacing unit comprised of the SW4NE4 (Unit G) of Section 32 that is currently dedicated to the Eddy BD State #3 (30-015-38144), a vertical well completed in the Wolfcamp formation.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

6. Approval of this overlapping horizontal well spacing unit and the pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 7, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving this overlapping horizontal well spacing unit and pooling all uncommitted interest owners therein;
- B. Designating Matador Production Company as operator of this horizontal well spacing unit and the wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- E. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR MRC PERMIAN COMPANY

CASE _____:

Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving a standard 240-acre overlapping horizontal well spacing unit in the Wolfcamp formation underlying the S2N2 of Section 33 and the S2NE4 of Section 32, Township 20 South, Range 30 East, NMPM, Eddy County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. Said unit will be initially dedicated to the proposed **Alyson 3332 Fed Com 202H** well to be horizontally drilled from a surface hole location in the NE4NE4 (Unit A) of Section 33, with a first take point in the SE4NE4 (Unit H) and a last take point in the SW4NE4 (Unit G) of Section 32. This proposed horizontal well spacing unit will overlap a 40-acre spacing unit comprised of the SW4NE4 (Unit G) of Section 32 that is currently dedicated to the Eddy BD State #3 (30-015-38144), a vertical well completed in the Wolfcamp formation. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 16 miles northeast of Carlsbad, New Mexico.

**APPLICATION OF MRC PERMIAN
COMPANY FOR APPROVAL OF AN
OVERLAPPING HORIZONTAL WELL SPACING
UNIT AND COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 23751

AFFIDAVIT OF HAWKS HOLDER

Hawks Holder, of lawful age and being first duly sworn, states the following:

1. My name is Hawks Holder and I am employed by MRC Energy Company, an affiliate of Matador Production Company (“Matador”), as a Landman.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.
3. I am familiar with the application filed by Matador in this case and the status of the lands in the subject area.
4. In this case, Matador seeks an order (a) approving the proposed standard overlapping spacing units and (b) pooling all uncommitted interests in the Wolfcamp formation underlying the S/2 N/2 of Section 33 and the S/2 NE/4 of Section 32, Township 20 South, Range 30 East, NMPM, Eddy County, New Mexico. Matador proposes to dedicate the above-referenced spacing unit to the proposed initial **Alyson 3332 Fed Com 202H** well to be horizontally drilled from a surface hole location in the NE/4 NE/4 (Unit A) of Section 33, with first take point in the SE/4 NE/4 (Unit H) of Section 33 and a last take point SW/4 NE/4 (Unit G) of Section 32.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C
Submitted by: MRC Permian Company
Hearing Date: September 7, 2023
Case No. 23751**

5. This proposed horizontal well spacing unit will overlap a 40-acre spacing unit comprised of the SW/4 NE/4 (Unit G) of Section 32 that is currently dedicated to the Eddy BD State #3 (30-015-38144), a vertical well completed in the Wolfcamp formation.

6. **Matador Exhibit C-1** is a diagram depicting the newly proposed spacing unit in relation to the existing spacing unit.

7. **Matador Exhibit C-2** contains a draft Form C-102 for the initial well in the horizontal spacing unit. This form demonstrates that the completed internal for the well will meet the standard setback requirements for horizontal oil wells.

8. Matador understands that this Wolfcamp well will be placed in the WC-015 G-07 S203032G; WOLFCAMP [97963] pool.

9. **Matador Exhibit C-3** identifies the tracts of land comprising the proposed horizontal spacing unit. The subject acreage is comprised of state and federal acreage.

10. There are no depth severances within the Wolfcamp formation underlying this acreage.

11. **Matador Exhibit C-4** identifies the overriding royalty interest owners that Matador is seeking to pool in the proposed horizontal spacing unit.

12. Matador is only seeking to pool overriding royalty interest owners. Because these are non-cost bearing interests, Matador has not included a sample well proposal, AFE, or a chronology of contacts, and is not requesting overhead and administrative penalty costs. Matador owns 100% of the working interest in the proposed spacing unit.

13. Matador has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Matador seeks to pool and instructed that they be notified of this hearing.

14. **Matador Exhibits C-1 through C-4** were either prepared by me or compiled under my direction and supervision.

**APPLICATION OF MRC PERMIAN
COMPANY FOR APPROVAL OF AN
OVERLAPPING HORIZONTAL WELL SPACING
UNIT AND COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 23751

SELF-AFFIRMED STATEMENT OF ANDREW PARKER

1. My name is Andrew Parker. I work for MRC Energy Company, an affiliate of Matador Production Company ("Matador"), as a Senior Vice President of Geoscience.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the applications filed by Matador in these cases, and I have conducted a geologic study of the lands in the subject area.
4. **Matador Exhibit D-1** is a locator map outlining the horizontal spacing units with a black box shaded in yellow, with the larger area identified in a red box.
5. In these cases, Matador intends to develop the Upper Wolfcamp of the Wolfcamp formation.
6. **Matador Exhibit D-2** is a subsea structure map prepared off the top of the Wolfcamp formation. The contour interval is 50 feet. The structure map shows the Wolfcamp formation gently dipping to the southeast. The structure appears consistent across the proposed

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. D
Submitted by: MRC Permian Company
Hearing Date: September 7, 2023
Case Nos. 23750-23753

wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

7. Also included on Matador Exhibit D-2 is a line of cross section from A to A'.

8. **Matador Exhibit D-3** is a structural cross-section prepared displaying open-hole logs run over the Wolfcamp formation from the three representative wells denoted from A to A'. For each well in the cross-section, the following logs are included: gamma ray, caliper, porosity, and resistivity, where available. The proposed target intervals for each of the respective proposed wells is labeled and marked with a yellow shaded area. The logs in the cross-section demonstrate that the targeted intervals, within the Wolfcamp formation, are consistent in thickness, across the entirety of the proposed spacing units.

9. In my opinion, the lay-down orientation is the preferred orientation for development in this area for Wolfcamp wells because the maximum horizontal stress is north-south in this area.

10. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells within the Wolfcamp formation in the area of the spacing units proposed in these cases.

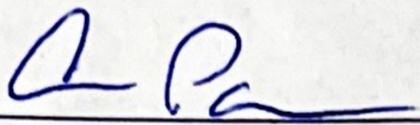

11. In my opinion, each quarter-quarter section will be productive and contribute more-or-less equally to production from each horizontal spacing unit.

12. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.

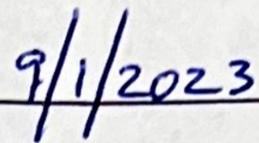

13. Approving Matador's applications will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. **Matador Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

15. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Re: Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Eddy County, New Mexico: Alyson 3332 Fed Com 202H

Ladies & Gentlemen:

This letter is to advise you that MRC Permian Company has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on September 7, 2023, and the status of the hearing can be monitored through the Division’s website at <https://www.emnrd.nm.gov/ocd/>.

Due to the remodeling of the state building where the New Mexico Oil Conservation Division is located, hearings will be conducted remotely beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Hawks Holder at (972) 619-4336 or at hawks.holder@matadorresources.com.

Sincerely,

Michael H. Feldewert

Case No. 23751: Application of MRC Permian Company for Approval of an Overlap-

ping Horizontal Well Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving a standard 240-acre overlapping horizontal well spacing unit in the Wolfcamp formation underlying the S2N2 of Section 33 and the S2NE4 of Section 32, Township 20 South, Range 30 East, NMPM, Eddy County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. Said unit will be initially dedicated to the proposed Alyson 3332 Fed Com 202H well to be horizontally drilled from a surface hole location in the NE4NE4 (Unit A) of Section 33, with a first take point in the SE4NE4 (Unit H) and a last take point in the SW4NE4 (Unit G) of Section 32. This proposed horizontal well spacing unit will overlap a 40-acre spacing unit comprised of the SW4NE4 (Unit G) of Section 32 that is currently dedicated to the Eddy BD State #3 (30-015-38144), a vertical well completed in the Wolfcamp formation. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 16 miles northeast of Carlsbad, New Mexico.
