STATEMENT OF CASES

The above captioned cases involve competing development plans for the Bone Spring and Wolfcamp formations underlying Section 36, Township 18 South, Range 34 East, and Section 1, Township 19 South, Range 34 East. N.M.P.M., Lea County, New Mexico, designated by FME3

as its Cross State Development Area, which is part of a larger comprehensive development plan in the area planned by FME3.

MR Permian, LLC (“MRC”) has filed competing applications for its Mongoose Fee wells, to create Bone Spring and Wolfcamp spacing units underlying Sections 36 and 1. MRC does not any working interest in Section 36, and to FME3’s knowledge, does not have the support of any working interest owner in Section 36. FME3 has higher working interest control and higher working interest than MRC across the proposed units. MRC’s working interest in the Wolfcamp is less than 4% and its working interest in the Bone Spring is less than 13%, yet it seeks to preclude FME3 from developing acreage where FME3 has substantially higher working interest and working interest control. As the Oil Conservation Commission has held, working interest control is the controlling factor in determining to whom operatorship should be awarded. *See* Order No. R-10731-B, ¶ 24 (“In the absence of compelling factors such as geologic and prospect differences, ability to operator prudently, or any reason why one operator would economically recover more oil or gas by virtue of being awarded operations than the other, “working interest control”...should be the controlling factor in awarding operations.”). Even beyond having the higher working interest and working interest control, FME3 will demonstrate at the contested hearing in these matters that FME3’s development plan is superior to MRC’s development plan. FME3’s development plan protects correlative rights, prevents waste by reducing surface impacts while at the same time allowing FME3 to access additional reserves, and is a more effective development plan.

The issue to be resolved at the contested hearing in these matters is who should be designated operator of the acreage and units at issue. FME3 believes that the following facts are undisputed and are material to the issue presented in these consolidated cases:

1. FME3 has higher working interest and higher working interest control than MRC across all of the proposed units.
2. MRC does not own any interest in Section 36.
3. Franklin has interests in Section 36 and Section 1.
4. There are no faults, pinch outs or other geologic impediments to developing the Bone Spring and Wolfcamp formations.
5. FME3 is proposing a wine racked (or offset) development plan, whereas MRC is proposing a stacked development plan.
6. FME3's development plan will reduce surface impacts by reducing the number of surface facilities required.

The testimony and evidence at the hearing will address disputed facts and issues relating to the Division's evaluation of competing applications.

SUMMARY OF FME3 CASES

In **Case No. 23833**, Franklin Mountain Energy 3 seeks an order from the Division pooling all uncommitted mineral interests within a 323.59-acre, more or less, Wolfcamp horizontal spacing unit comprising the W/2E/2 of Section 36, Township 18 South, Range 34 East, and Lot 2, the SW/NE, and W/2SE of Section 1, Township 19 South, Range 34 East, N.M.P.M., Lea County, New Mexico. This spacing unit will be dedicated to the **Cross State Com 703H and Cross State Com 803H wells**, to be horizontally drilled. The producing area for the wells is expected to be orthodox. The spacing unit proposed in this application will partially overlap a spacing unit in Section 36, Township 18 South, Range 34 East, N.M.P.M. Lea County, New Mexico. Also to be considered will be the cost of drilling and completing said wells, the allocation of these costs as well as the actual operating costs and charges for supervision, designation of Franklin Mountain Energy 3, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 24 miles west of Hobbs, New Mexico.

In **Case No. 23835**, Franklin Mountain Energy 3 seeks an order from the Division pooling all uncommitted mineral interests within a 323.73-acre, more or less, Wolfcamp horizontal spacing unit comprising the W/2W/2 of Section 36, Township 18 South, Range 34 East, and Lot 4, the SW/NW, and W/2SW of Section 1, Township 19 South, Range 34 East, N.M.P.M., Lea County,
