**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF MEWBOURNE  
OIL COMPANY FOR COMPULSORY  
POOLING, EDDY COUNTY, NEW MEXICO.**

**CASE NO. 24387**

**APPLICATION**

Mewbourne Oil Company (“Mewbourne” or “Applicant”) (OGRID No. 14744), through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral owners in the Bone Spring formation underlying a standard 240-acre horizontal well spacing unit comprised of the S2N2 of Section 2 and the S2NE4 of Section 3, Township 18 South, Range 29 East, NMPM, Eddy County, New Mexico. In support of its application, Mewbourne states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Swanson 3/2 Fed Com 513H** well, to be horizontally drilled from a surface location in the NE4 of Section 2, with a first take point in SE4NE4 (Unit H) of Section 2 and a last take point in the SW4NE4 (Unit G) of Section 3.
3. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.
4. The pooling of uncommitted mineral owners will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on May 2, 2024, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted mineral owners in the horizontal spacing unit;
- B. Designating Applicant as operator of this spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR MEWBOURNE OIL COMPANY

CASE \_\_\_\_\_: **Application of Mewbourne Oil Company for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted mineral owners in the Bone Spring formation underlying a standard 240-acre horizontal well spacing unit comprised of the S2N2 of Section 2 and the S2NE4 of Section 3, Township 18 South, Range 29 East, NMPM, Eddy County, New Mexico. Said unit will be initially dedicated to the proposed **Swanson 3/2 Fed Com 513H** well, to be horizontally drilled from a surface location in the NE4 of Section 2, with a first take point in SE4NE4 (Unit H) of Section 2 and a last take point in the SW4NE4 (Unit G) of Section 3. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Applicant as operator of the well, and a 200% charge for risk involved in drilling said well. The subject area is located approximately 20 miles east of Artesia, New Mexico.

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATIONS OF MEWBOURNE OIL COMPANY  
FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.**

**CASE NOS. 24386 & 24387**

**SELF AFFIRMED STATEMENT OF ADRIANA SALGADO, LANDMAN**

1. My name is Adriana Salgado and I am employed by Mewbourne Oil Company ("Mewbourne") as a Landman. My responsibilities include the Permian Basin of New Mexico. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters and my credentials have been accepted by the Division and made a matter of record.

2. I am familiar with the application filed by Mewbourne in these consolidated matters and the status of the lands in the subject area. The mineral owners to be pooled have not expressed any opposition to this proceeding.

3. In these consolidated cases, Mewbourne seeks orders pooling all uncommitted interests in the Bone Spring formation underlying the NE4 of Section 3 and the N2 of Section 2, Township 18 South, Range 29 East, NMPM, Eddy County, New Mexico as follows:

- Under **Case 24386**, Mewbourne seeks to pool a standard 240--acre horizontal well spacing unit comprised of the N2NE4 of Section 3 and the N2N2 of Section 2 to be initially dedicated to the proposed **Swanson 3/2 Fed Com 511H** well, to be horizontally drilled from a surface location in the NE4 of Section 2, with a first take point in the NE4N4 (Unit A) of Section 2 and a last take point in the NW4NE4 (Unit B) of Section 3; and

- Under **Case 24387**, Mewbourne seeks to pool a standard 240-acre horizontal well spacing unit comprised of the S2NE4 of Section 3 and the S2N2 of Section 2 to be initially dedicated to the proposed **Swanson 3/2 Fed Com 513H** well, to be horizontally drilled from a surface location in the NE4 of Section 2, with a first take point in the SW4NE4 (Unit H) of Section 2 and a last take point in the SW4NE4 (Unit G) of Section 3.

4. There are no ownership depth severances within the Bone Spring formation underlying the subject acreage, and there are no existing Bone Spring spacing units.

5. **Exhibit A-1** contains drafts of the Form C-102s for the proposed initial wells.

6. **Exhibit A-2** identifies the tracts of land comprising the proposed spacing unit, the working interest ownership in each tract, and the consolidated working interest ownership in the proposed horizontal spacing units. Mewbourne has identified the “uncommitted” working interest owners that remain to be pooled in red. This acreage is comprised of federal and state lands.

7. **Exhibit A-3** contains a sample of the well proposal letter sent to the working interest owners Mewbourne seeks to pool. The costs reflected in the AFEs provided with this letter are consistent with what Mewbourne and other operators have incurred for drilling similar horizontal wells in the area in this formation.

8. Mewbourne requests overhead and administrative rates of \$8,000 per month for drilling and \$800 per month for a producing well. These rates are consistent with the rates charged by Mewbourne and other operators for similar wells in this area.

9. **Exhibit A-4** contains a chronology of the contacts with the uncommitted working interest owners. Mewbourne has made a good faith effort to obtain voluntary joinder of these owners in the proposed spacing unit and initial wells.

10. I have provided the law firm of Holland & Hart, LLP, with the names and addresses of the mineral owners that remain to be pooled and instructed that they be notified of this hearing.

11. In compiling the addresses of the parties to be pooled, Mewbourne has conducted a diligent search of all public records in the county where the proposed unit is located, reviewed telephone directories, and conducted computer searches. Mewbourne has attempted but has not been able to locate all the parties it seeks to be pooled.

12. Exhibits A-1 through A-4 were either prepared by me or compiled under my direction from company business records.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Dear Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") hereby proposes to drill the referenced horizontal Bone Spring wells. The estimated costs for these wells are as follows:

Well Name	Estimated Cost to Casing Point	Estimated Cost of Producing Well
Swanson 3/2 Fed Com #511H (B2AB)	\$2,981,200	\$7,367,400
Swanson 3/2 Fed Com #513H (B2HG)	\$2,985,300	\$7,373,100

These costs are more fully detailed in the AFEs enclosed herewith. To facilitate the drilling of these wells and the development of this project area, Mewbourne proposed forming a working interest unit by signing an Operating Agreement with a Contract Area comprised of the E2 of Section 3 and All of Section 2. Our Joint Operating Agreement, previously sent to you, contained 100%/300% non-consent penalty, \$8,000.00/\$800 drilling/producing rates, and was limited to the Bone Spring formation with MOC listed as Operator. You did not previously respond to our proposals. **If you do not wish to participate in the wells, Mewbourne is interested in discussing other options for your interest.**

To make your election to participate in the proposed wells, properly execute and return the AFEs. You will also need to provide your "Well Information" requirements. As a reminder, Mewbourne's AFEs provide all participants the opportunity to opt out of the "Extra Expense Well Control Insurance" that Mewbourne purchases for each well it drills. If you do opt out, you must provide evidence that you have adequate "Well Control Insurance".

Regarding the above, please have the AFEs executed and returned to me within 30 days of receipt of proposals.

Feel free to contact me if you have any questions. I can be reached by phone at (432) 682-3715 or via email at [asalgado@mewbourne.com](mailto:asalgado@mewbourne.com).

Sincerely,  
**MEWBOURNE OIL COMPANY**

Insurance procured for the Joint Account by Operator

☐ Opt-in. I elect to be covered by Operator's Extra Expense, Commercial General Liability, Pollution Legal Liability, and Excess/Umbrella Insurance Policies, and will pay my proportionate share of the premiums associated with these insurance coverages through joint account billings.

☐ Opt-out. I elect to purchase my own policies for well control and other insurance requirements, or to self-insure (if applicable). By opting-out, I recognize I will be responsible for my own coverage and will not be afforded protection under operator's policies.

If neither box is checked above, non-operating working interest owner elects to be covered by Operator's insurance.

Joint owner agrees that item 0180-0245 will be provided by operator, if available, at the specified rate. Operator reserves the right to adjust the rate due to a change in market conditions.

**STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION**

**APPLICATIONS OF MEWBOURNE OIL COMPANY  
FOR COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO.**

**CASE NOS. 24386 & 24387**

**SELF AFFIRMMENT STATEMENT OF CHARLES CROSBY, GEOLOGIST**

1. My name is Charles Crosby and I am employed by Mewbourne Oil Company (“Mewbourne”) as a petroleum geologist. My responsibilities include the Permian Basin of New Mexico. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology.

2. I am familiar with the applications filed by Mewbourne in these consolidated cases and I have conducted a geologic study of the lands in the subject area.

3. The target interval for the proposed initial wells is the 2<sup>nd</sup> Bone Spring Sand interval of the Bone Spring formation.

4. **Exhibit B-1** is a general location map showing the proposed spacing units outlined in red, with the approximate location and orientation of the initial wells noted with dashed green arrows.

5. **Exhibit B-2** is a subsea structure map that I prepared for the base of the 2<sup>nd</sup> Bone Spring Sand formation. The contour intervals are 100 feet. The area comprising the proposed spacing units is outlined dashed black boxes. The structure map shows the base of the 2<sup>nd</sup> Bone Spring sand formation dipping south-southeast. The structure appears consistent across the proposed spacing units, and I do not observe any faulting, pinch outs, or other geologic impediments to drilling horizontal wells.

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Exhibit No. B  
Submitted by: Mewbourne Oil Company  
Hearing Date: May 2, 2024  
Case No. 24387**

6. Exhibit B-2 also shows a line of cross section through the proposed horizontal spacing units from A to A'. I chose the logs from these wells to create the cross section because they penetrate the targeted interval, are of good quality and have been subjected to petrophysical analysis of the targeted interval. In my opinion, these well logs are representative of the geology in the subject area.

7. **Exhibit B-3** is a stratigraphic cross-section that I prepared using the logs from the representative wells shown on Exhibit B-1. Each well on the cross-section contains gamma ray, resistivity, and porosity logs. The target interval for the proposed wells is marked on the cross section with green arrows. The cross-section demonstrates that the targeted interval is continuous across the proposed spacing unit.

8. My geologic study indicates the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed horizontal spacing unit will be productive and contribute proportionately to the production from the wells.

9. Exhibit B-2 also shows the existing Bone Spring development in this area. In my opinion, the laydown orientation of the proposed wells is appropriate because of the geologic stress in this area.

10. In my opinion, approval of these applications is in the best interests of conservation, the prevention of waste, and protection of correlative rights.

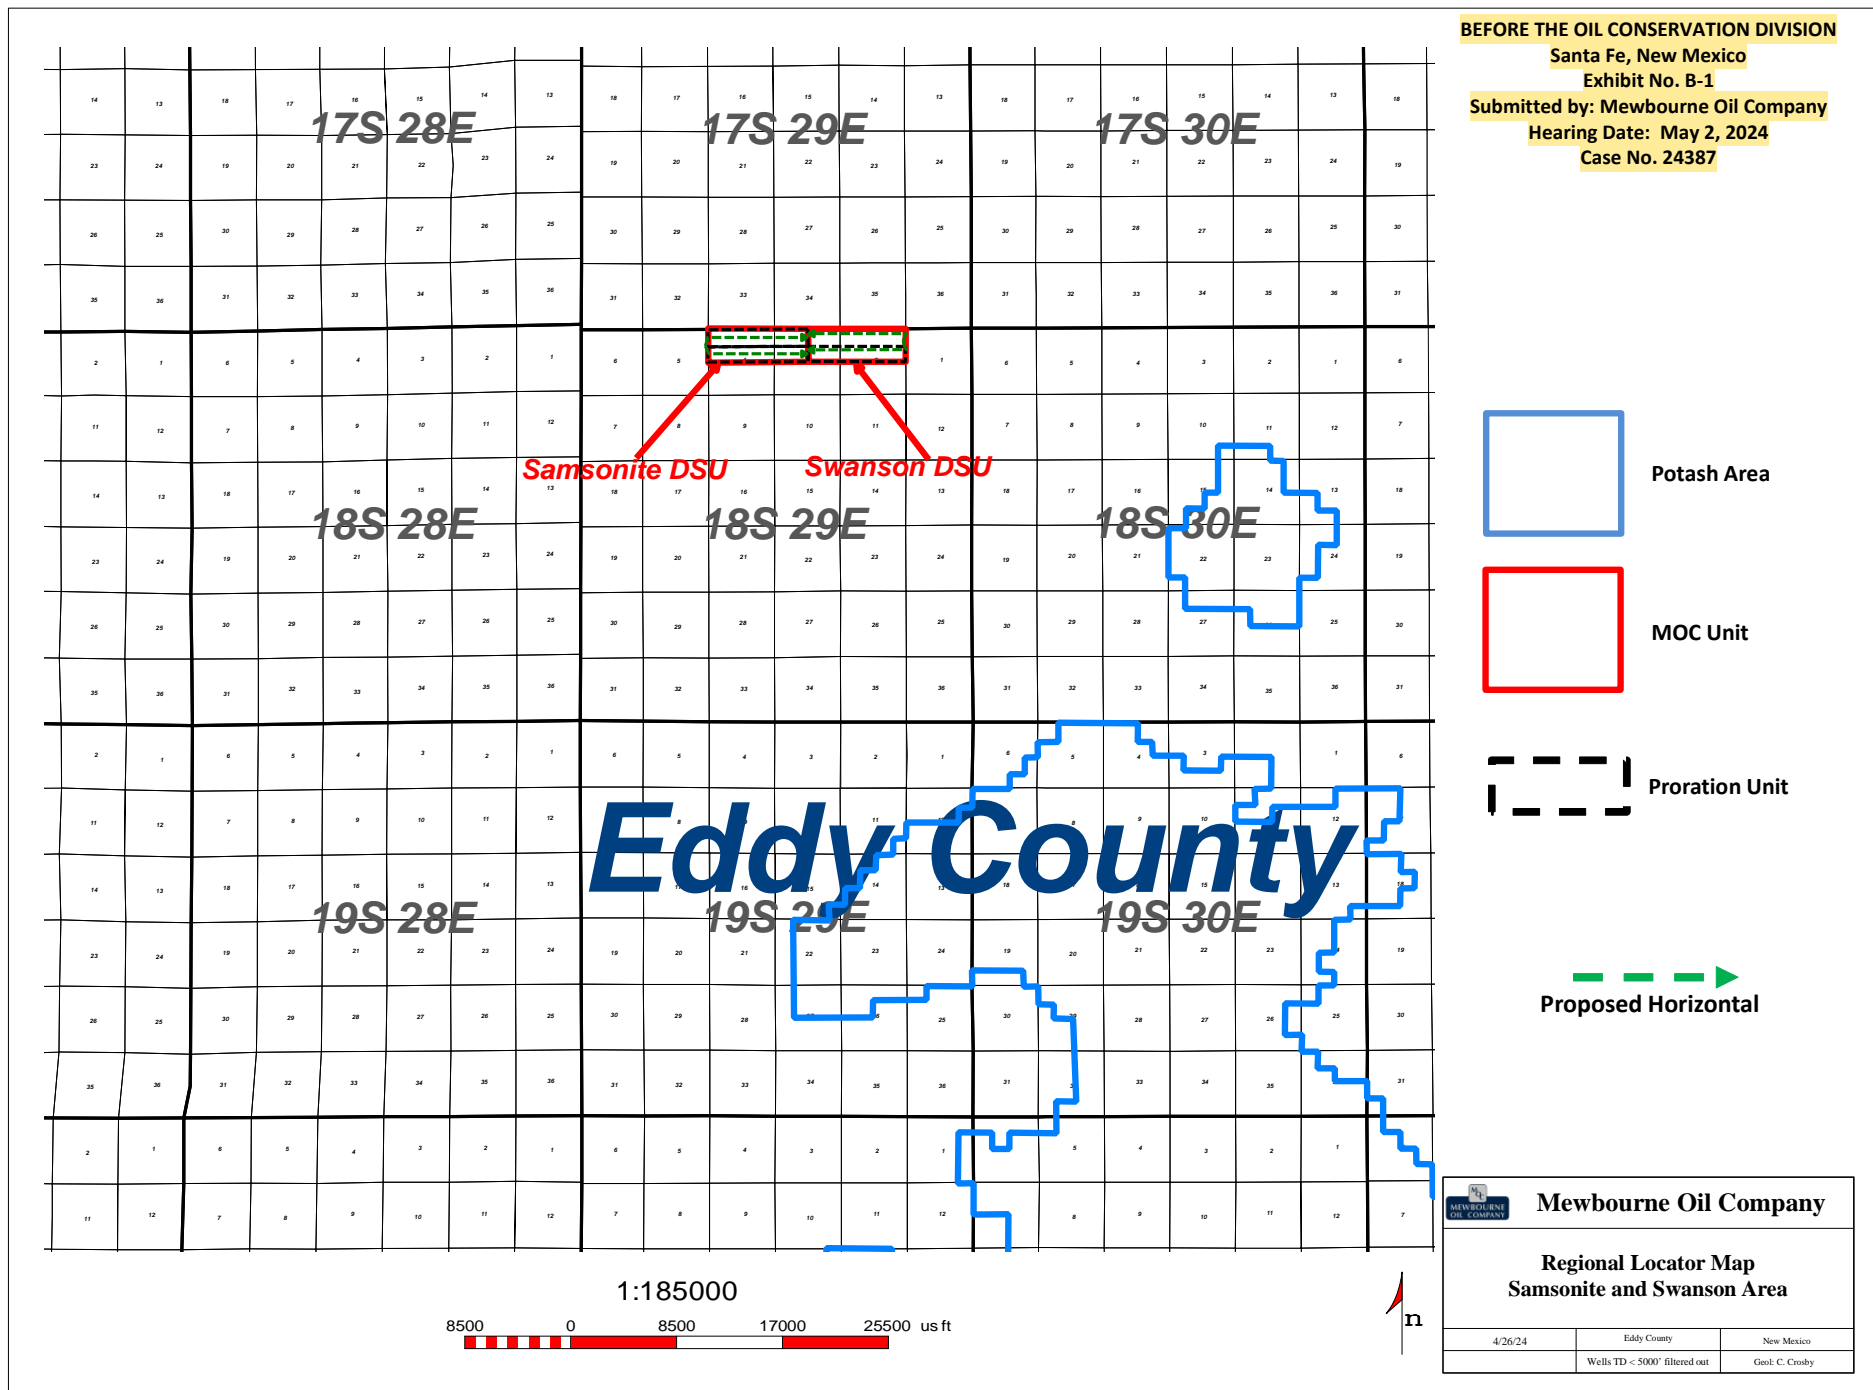

11. Exhibits B-1 through B-3 were either prepared by me or compiled under my direction and supervision.

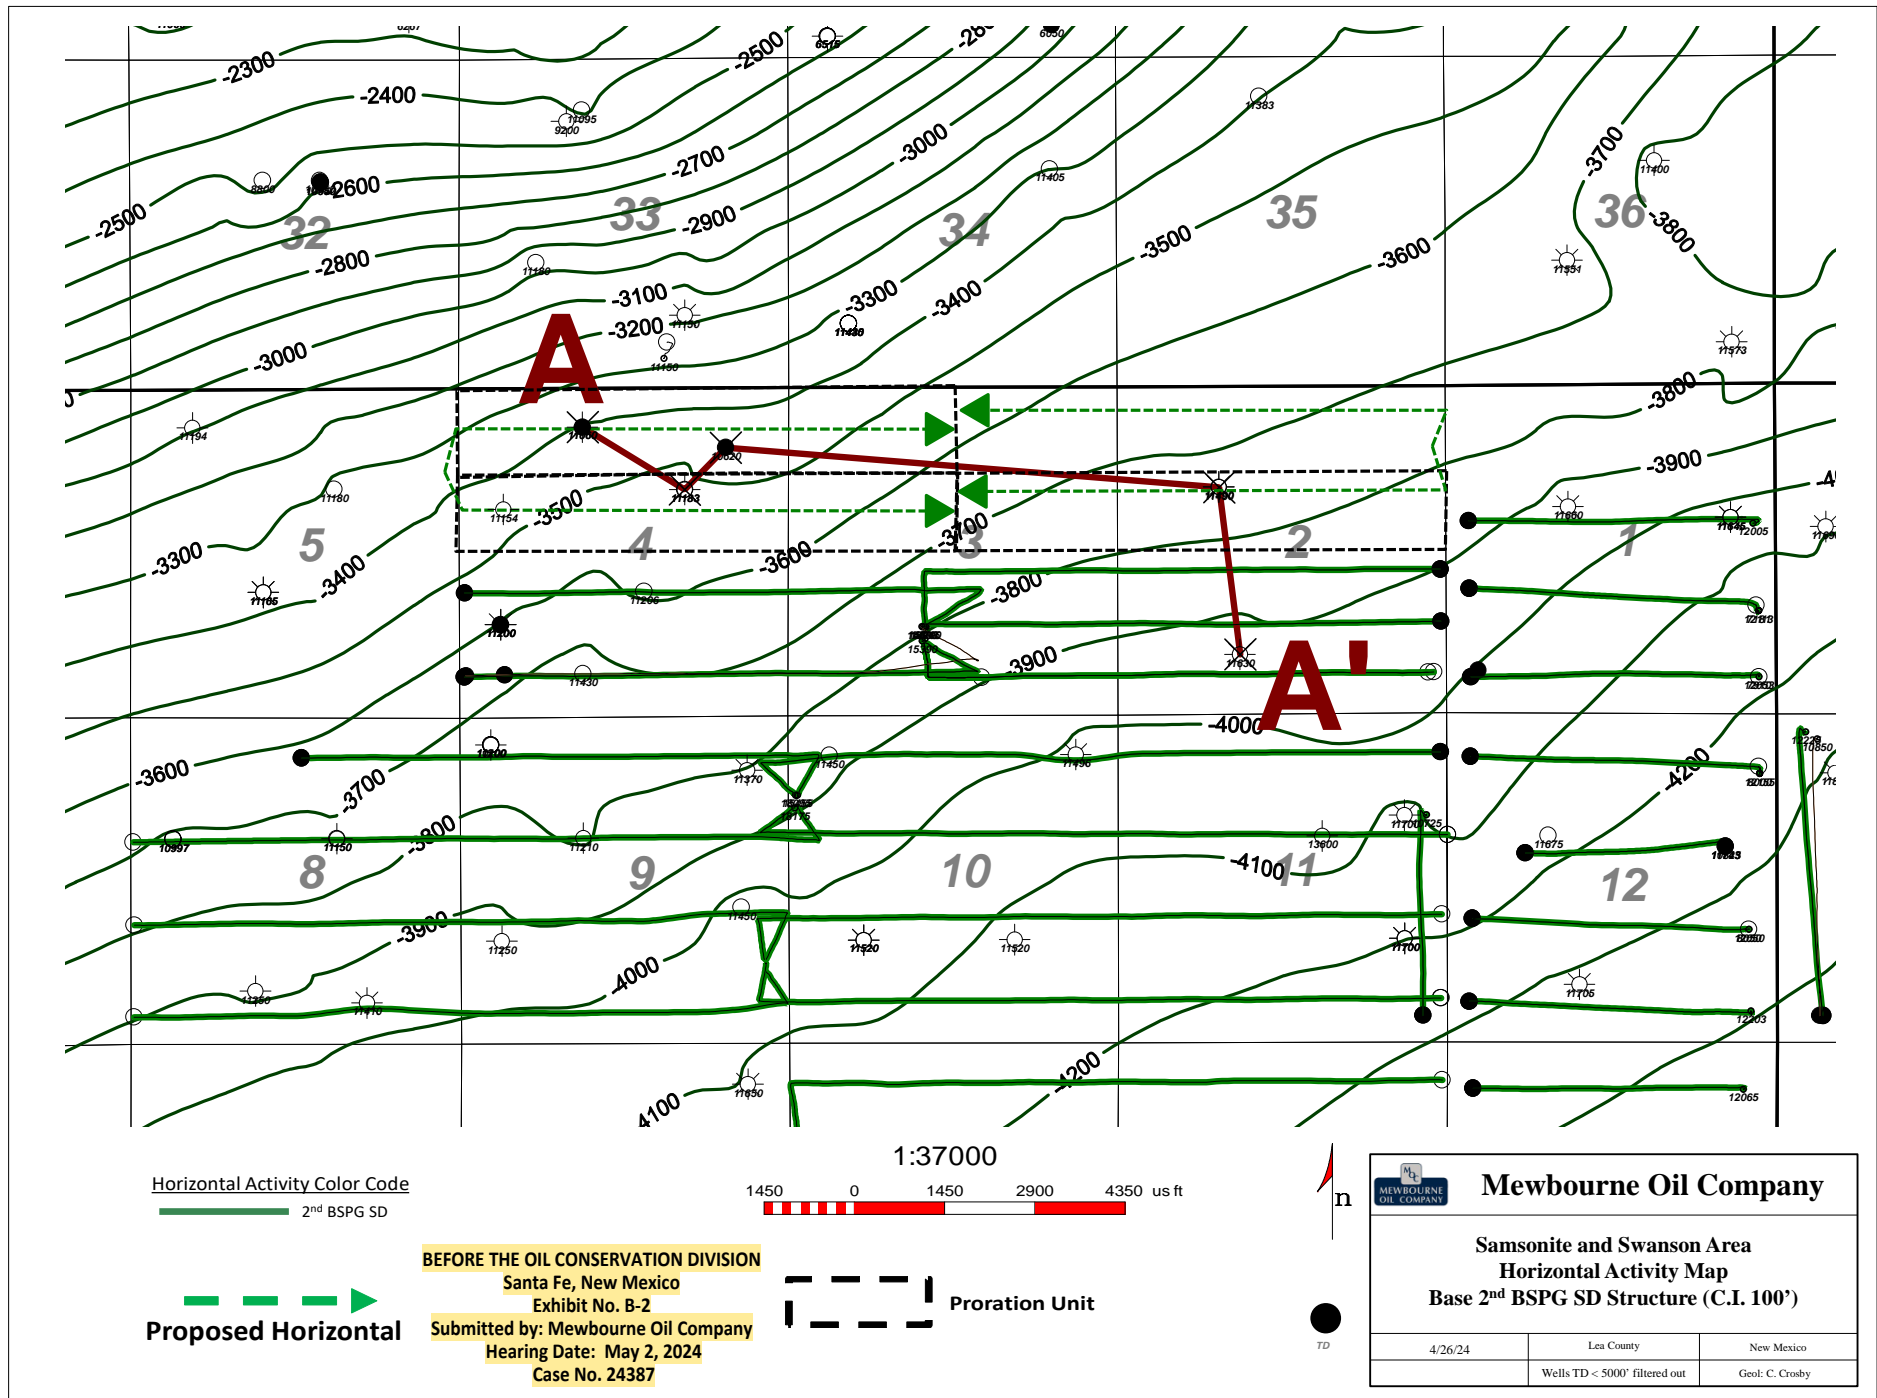

12. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed

statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

New Mexico: Swanson 3/2 Fed Com 513H well**

Ladies & Gentlemen:

This letter is to advise you that Mewbourne Oil Company has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on May 2, 2024, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

**It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.**

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Adriana Salgado at (432) 682-3715, or at [asalgado@mewbourne.com](mailto:asalgado@mewbourne.com).

Sincerely,

A handwritten signature in blue ink, appearing to read 'Michael H. Feldewert'.

Case No. 24387: Application of Mewbourne Oil Company for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted mineral owners in the Bone Spring formation underlying a standard 240-acre horizontal well spacing unit comprised of the S2N2 of Section 2 and the S2NE4 of Section 3, Township 18 South, Range 29 East, NMPM, Eddy County, New Mexico. Said unit will be initially dedicated to the proposed Swanson 3/2 Fed Com 513H well, to be horizontally drilled from a surface location in the NE4 of Section 2, with a first take point in SE4NE4 (Unit H) of Section 2 and a last take point in the SW4NE4 (Unit G) of Section 3. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Applicant as operator of the well, and a 200% charge for risk involved in drilling said well. The subject area is located approximately 20 miles east of Artesia, New Mexico.
