13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

API Lease Name / Well Number
 30-025-42799 SD EA 19 FEDERAL P6 7H

Chevron requests to place SD EA 19 FEDERAL P6 7H (30-025-42799) into service to receive injection as part of the CLGC pilot project approved in ORDER NO. R-21336-A. A successful MIT was conducted on 09/11/2024, during which 1650psi was held for 30 minutes and the results for which was submitted to the Division in action ID: 384682.

A CBL is on record with the Division which demonstrates an adequate placement of cement, and that the production casing is tied back into the prior casing string. Equipment is installed to limit the injection pressure to less than or equal to 1,250psi which is less than or equal to the MASP. Equipment is installed to monitor the injection rate into the well and the annulus pressure for each casing string.
