CASE NO. 25136

NOTICE OF REVISED EXHIBIT

Permian Resources Operating, LLC (collectively "Permian"), applicant in the above-referenced case, gives notice that it is filing the attached revised exhibit for acceptance into the record.

Revised Exhibit A is a corrected compulsory pooling checklist with the request for overhead and administrative costs for producing the well at \$1,000 per month.

Respectfully submitted,

HOLLAND & HART LLP

CASE NO. 25136

APPLICATION

Permian Resources Operating, LLC (“Permian” or “Applicant”) (OGRID No. 372165) through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 642.24-acre, more or less, horizontal well spacing unit comprised of Lots 1-4 and the S/2 N/2 (N/2 equivalent) of irregular Sections 1 and 2, Township 22 South, Range 26 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Water Buffalo #131H** well, to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of irregular Section 3, with a first take point in Lot 4 (NW/4 NW/4 equivalent) of irregular Section 2, and a last take point in Lot 1 (NE/4 NE/4 equivalent) of irregular Section 1.
3. The completed interval of the **Water Buffalo #131H** is expected to remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed horizontal spacing unit under 19.15.16.15.B(1)(b) NMAC.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B**

**Submitted by: Permian Resources Operating, LLC
Hearing Date: February 13, 2025
Case No. 25136**

4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

5. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 13, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the proposed horizontal well spacing unit;
- B. Designating Applicant as operator of this horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

**ATTORNEYS FOR PERMIAN RESOURCES
OPERATING, LLC**

CASE _____: **Application of Permian Resources Operating, LLC for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Bone Spring formation, from the top of the Bone Spring formation underlying a standard 642.24-acre, more or less, horizontal well spacing unit comprised of Lots 1-4 and the S/2 N/2 (N/2 equivalent) of irregular Sections 1 and 2, Township 22 South, Range 26 East, NMPM, Eddy County, New Mexico . Said unit will be initially dedicated to the proposed **Water Buffalo #131H** well, to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of irregular Section 3, with a first take point in Lot 4 (NW/4 NW/4 equivalent) of irregular Section 2, and a last take point in Lot 1 (NE/4 NE/4 equivalent) of irregular Section 1. The completed interval of the **Water Buffalo #131H** is expected to remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed horizontal spacing unit under 19.15.16.15.B(1)(b) NMAC. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Applicant as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 4.5 miles northeast of Carlsbad, New Mexico.

OIL CONSERVATION DIVISION**

**APPLICATION OF PERMIAN
RESOURCES OPERATING, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 25136

SELF-AFFIRMED STATEMENT OF COLLIN CHRISTIAN

1. My name is Collin Christian. I work for Permian Resources Operating, LLC (“Permian”) as a Landman.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by Permian in this case, and I am familiar with the status of the lands in the subject area.

4. In **Case No. 25136**, Permian seeks to pool the uncommitted interests in the Bone Spring formation underlying a standard 642.24-acre, more or less, horizontal well spacing unit comprised of Lots 1-4 and the S/2 N/2 (N/2 equivalent) of irregular Sections 1 and 2, Township 22 South, Range 26 East, NMPM, Eddy County, New Mexico and initially dedicate the unit to the proposed **Water Buffalo #131H** well, to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of irregular Section 3, with a first take point in Lot 4 (NW/4 NW/4 equivalent) of irregular Section 2, and a last take point in Lot 1 (NE/4 NE/4 equivalent) of irregular Section 1.

5. The completed interval for the well is expected to remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed horizontal spacing units under 19.15.16.15.B(1)(b) NMAC.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C

Submitted by: Permian Resources Operating, LLC

Hearing Date: February 13, 2025

Case No. 25136

6. **Permian Exhibit C-1** contains a C-102 for the proposed well. This form demonstrates that the completed interval for the well will comply with statewide setbacks for oil wells. The exhibit shows that the well will be assigned to the Esperanza; Bone Spring [97755].

7. **Permian Exhibit C-2** identifies the tracts of land comprising the horizontal spacing unit, the ownership interests in each tract, and a recapitulation of the ownership. The interest owners that Permian seeks to pool are highlighted in yellow. Permian Exhibit C-2 also includes unleased mineral interest owners and record title interest owners that Permian seeks to pool. The subject acreage is comprised of state and fee lands.

8. **Permian Exhibit C-3** contains a sample of the well proposal letter and AFE for the well that was sent to owners with a working interest. The costs reflected in the AFE are consistent with what Permian and other operators have incurred for drilling similar horizontal wells in the area in this formation.

9. Permian requests that the overhead and administrative costs for drilling and producing the proposed well be set at \$10,000 per month while drilling and \$1,000 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

10. **Permian Exhibit C-4** contains a general summary of the contacts with the uncommitted interest owners. As indicated in the exhibit, Permian has made a good faith effort to locate and has had communications with the majority of the parties that it seeks to pool in this case in an effort to reach voluntary joinder. In my opinion, Permian has undertaken good faith efforts to reach an agreement with the uncommitted interest owners.

11. Permian has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Permian seeks to pool and instructed that they be notified of this

hearing. Permian has conducted a diligent search of all public records in the county where the property is located, reviewed telephone directories, and conducted computer searches to locate contact information for each interest owner.

12. **Permian Exhibits C-1 through C-4** were either prepared by me or compiled under my direction and supervision.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Collin Christian

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

RE: Water Buffalo 131H – Well Proposal
N2 of Sections 1 & 2
Eddy County, New Mexico

To Whom It May Concern:

Permian Resources Operating, LLC ("Permian"), acquired SPC Resources, LLC ("SPC Resources") in December of 2023 with an effective date of September 1, 2023. As such, SPC Resources is now a wholly owned subsidiary of Permian. Permian hereby proposes the drilling and completion of the following well, at the following approximate location within the North half of Section 1, Township 22 South, Range 26 East and the North half of Section 2, Township 22 South, Range 26 East:

1. Water Buffalo 131H

SHL: 226' FEL & 2,356' FSL of Section 3
BHL: 100' FEL & 1,000' FNL of Section 1
FTP: 100' FWL & 1,000' FNL of Section 2
LTP: 100' FEL & 1,000' FNL of Section 1
TVD: Approximately 8,640'
TMD: Approximately 18,925'
Targeted Interval: TBSG
Total Cost: See attached AFE

The locations, TVDs, and targets are approximate and subject to change dependent on surface or subsurface issues encountered. Permian is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement and a form of said Operating Agreement will be provided upon request. The Operating Agreement has the following general provisions:

- 100%/300%/300% non-consent provisions
- \$10,000/\$1,000 drilling and producing rates
- Permian Resources Operating, LLC named as Operator

Please indicate your election to participate in the drilling and completion of the proposed well(s) in the space provided below. Please sign and return this letter, a signed copy of the proposed AFE, and your geologic well requirements.

In the interest of time, should we not reach an agreement within thirty (30) days of the date of your receipt of this letter, Permian will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well. If you do not wish to participate, Permian would be interested in acquiring your interest in the subject lands which is subject to further mutually agreeable negotiation.

BEFORE THE OIL CONSERVATION DIVISION

Santa Fe, New Mexico

Exhibit No. C-3

Submitted by: Permian Resources Operating, LLC

Hearing Date: February 13, 2025

Case No. 25136

Thank you for your time and consideration, if you have any questions at all, please don't hesitate to contact David Williams at 337-232-1122 or davidw@segland.com.

Respectfully,

PERMIAN RESOURCES OPERATING, LLC

Participate / Rejection Declaration

Please return this page to Permian Resources Operating, LLC ("Permian") by the date specified in the letter, signed indicating your election to either participate in or reject this insurance program. If you reject the insurance coverage arranged by Permian, then, to the extent that Permian has an obligation to secure any such insurance on your behalf under any applicable agreements or otherwise, Permian will be relieved of such obligation, and Permian will assume that you maintain appropriate levels of insurance and will provide a current Certificate of Insurance upon request. If you fail to make an election within 30 days from receipt of this notice, you will be deemed a participant in the program as detailed on the attached and billed for your percentage participation as such.

- ☐ I hereby elect to participate in the insurance coverage arranged by Permian Resources Operating, LLC and understand that I will be charged for such participation.
- ☐ I hereby elect to reject the insurance coverage arranged by Permian Resources Operating, LLC.

The costs on this AFE are estimates only and may not be construed as ceilings on any specific item or the total cost of the project. Tubing installation approved under the AFE may be delayed up to a year after the well has been completed. In executing this AFE, the Participant agrees to pay its proportionate share of actual costs incurred, including, legal, curative, regulatory, brokerage and well costs under the terms of the applicable joint operating agreement, regulatory order or other agreement covering this well. Participants shall be covered by and billed proportionately for Operator's well control and general liability insurance unless participant provides Operator a certificate evidencing its own insurance in an amount acceptable to the Operator by the date of spud.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF PERMIAN RESOURCES
OPERATING, LLC FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 25136

SELF-AFFIRMED STATEMENT OF TYLER CHESWORTH

1. My name is Tyler Chesworth I work for Permian Resources Operating, LLC (“Permian”) as a Geologist.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in geology matters. My credentials as a geologist have been accepted by the Division and made a matter of record.

3. I am familiar with the application filed by Permian in this case, and I have conducted a geologic study of the lands in the subject area.

4. Permian has targeted the Bone Spring formation in this case.

5. **Permian Exhibit D-1** is a regional locator map that identifies the Water Buffalo project area, in proximity to the Capitan Reef within the Delaware Basin, for the Bone Spring horizontal spacing unit that is the subject of this application.

6. **Permian Exhibit D-2** is a cross-section location map for the proposed horizontal spacing unit within the Bone Spring formation. The approximate location of the proposed unit is outlined in blue. Existing producing wells in the targeted interval are represented by solid lines. This map identifies the cross-section running from A-A’ with the cross-section well names and a black line in proximity to the proposed well.

**BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. D
Submitted by: Permian Resources Operating, LLC
Hearing Date: February 13, 2025
Case No. 25136**

7. **Permian Exhibit D-3** is a subsea structure map that I prepared for the interval within the Bone Spring formation, with a contour interval of 100 feet. The structure map shows the Bone Spring gently dipping to the East-Southeast. The Bone Spring structure appears consistent across the wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments in the spacing unit. This map also shows the relative location of the proposed well as a dashed green line, as well as the offset producers as solid green lines.

8. **Permian Exhibit D-4** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Bone Spring from the representative wells denoted from A to A'. For each well in the cross-section, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The interval is labeled and marked. The logs in the cross-section demonstrate that the interval is continuous across the entire spacing unit.

9. In my opinion, laydown orientation of the proposed well is the appropriate orientation for horizontal well development in this area because it is near perpendicular to the maximum horizontal stress of the area .

10. Based on my geologic study, the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will contribute more-or-less equally to the production from the wellbore. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing unit proposed.

11. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery, and that approving Permian's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

12. **Permian Exhibits D-1 through D-4** were either prepared by me or compiled under my direction and supervision.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

A handwritten signature in black ink, appearing to read 'Tyler Chesworth', written over a horizontal line.

CASE NO. 25136

**SELF-AFFIRMED STATEMENT OF
PAULA M. VANCE**

1. I am attorney in fact and authorized representative of Permian Resources Operating, LLC ("Permian"), the Applicant herein. I have personal knowledge of the matter addressed herein and am competent to provide this self-affirmed statement.

2. The above-referenced application and notice of the hearing on this application was sent by certified mail to the locatable affected parties on the date set forth in the letter attached hereto.

3. The spreadsheet attached hereto contains the names of the parties to whom notice was provided.

4. The spreadsheet attached hereto contains the information provided by the United States Postal Service on the status of the delivery of this notice as of January 31, 2025.

5. I caused a notice to be published to all parties subject to this compulsory pooling proceeding and to the vertical offset owners. An affidavit of publication from the publication's legal clerk with a copy of the notice of publication is attached herein.

6. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

**Re: Application of Permian Resources Operating, LLC for Compulsory Pooling,
Eddy County, New Mexico: *Water Buffalo #131H well***

Ladies & Gentlemen:

This letter is to advise you that Permian Resources Operating, LLC has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on February 13, 2025, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact David Williams at (337) 232-1122 or davidw@segland.com.

Sincerely,

A handwritten signature in blue ink that reads "Paula M. Vance".

Paula M. Vance

The hearing will be conducted in a hybrid fashion, both in-person at the Building, Pecos Hall, 1220 South St. Francis Drive, First Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the hearings electronically, see the instructions posted concerning the request for the hearing date: [https://www.nm.gov/electronic-hearing](#). Applicants are advised that they must appear by video conference or teleconference if applicable as above-styled cause seeks an order pooling all uncommitted interests in the Bone Spring formation, from the top of the Bone Spring formation underlying a standard 642±-acre, more or less, horizontal well spacing unit comprised of Lots 1-4 and the S2/N2 (N/2 equivalent) of irregular Sections 1 and 2, Township 22° North, Range 26 East, NMPM, Esdu County, New Mexico . Said unit will be initially dedicated, in the proposed Unit Well Plan, to be completed after drilling to the surface location in the NE¼ SE¼ (Unit IV) of irregular Section 3, with a first lake point in Lot 1 (NE¼ NW¼ equivalent) of irregular Section 1, and a last lake point in Lot 1 (NE¼ NW¼ equivalent) of irregular Section 1. The completed interval of the Water Buffalo #131H is expected to remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracks to allow inclusion of these proximity strata within the proposed horizontal spacing unit. The cost of drilling and completing the well shall be considered part of the costs thereof, actual operating costs and charges for supervision, designation of Applicant as operator of the well, and a 20% charge fee risk involved in drilling said well. Said area is located approximately 4.5 miles northeast of Carlsbad, New Mexico.
