APPLICANT'S STATEMENT OF THE CASE

In Case No. 25375, Chase seeks to amend Order No. R-23184 ("Order") to allow for an extension of time for drilling the proposed initial well under the Order. Division Order No. R-23184, entered on May 1, 2024 in Case No. 24214, pooled the uncommitted interest owners in the San Andres formation (WC 16S27E32; San Andres [98371]) and created a standard 160-acre, more or less, horizontal spacing unit comprised of the W/2 W/2 of Section 29, Township 16 South, Range 27 East, NMPM, Eddy County, New Mexico. The Order designated Mack Energy Corporation (OGRID 13837) as the operator and dedicated the pooled spacing unit to the proposed initial **Anchorage Fed Com #1H** (API No. 30-015-55366), to be horizontally drilled from a

surface location in the NW/4 NW/4 of Section 32, to a bottom hole location in the NW/4 NW/4 of Section 29.

Under the Order, Applicant would be required to commence drilling the wells by May 2, 2025, and therefore, asks for the deadline to commence drilling the wells be extended for a year, to May 2, 2026.

There is good cause for Applicant’s request for an extension of time to drill. Chase is actively working with the State Land Office for approval of a saltwater disposal easement that is required for the development.
