4. The David 36-24 Fed Com 223H is proposed to be drilled on the boundary of the East Half and the West Half of the sections to be pooled. In addition, Tumbler intends to use common facilities for the proposed wells, which will result in less impact to the surface.

5. Tumbler has in good faith sought and been unable to obtain voluntary agreement for the development of these lands from all of the mineral interest owners in the HSU.

6. Approval of the HSU as a non-standard unit and the pooling of all mineral interest owners in the Wolfcamp formation underlying the HSU will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to permit Tumbler to obtain its just and fair share of the oil and gas underlying the subject lands, the non-standard unit should be approved, all uncommitted interests in this HSU should be pooled, and Tumbler should be designated the operator of the HSU.

WHEREFORE, Tumbler requests that this application be set for hearing before an examiner of the Oil Conservation Division on July 10, 2025, and that, after notice and hearing as required by law, the Division enter an order:

A. Approving a non-standard 1579.28-acre, more or less, HSU comprised of Sections 24 and 25 and irregular Section 36, Township 26 South, Range 34 East in Lea County, New Mexico;

B. Pooling all mineral interests in the Wolfcamp formation underlying the HSU;

C. Allowing the drilling of the following 11 ~2.5-mile wells in the proposed HSU: David 36-24 Federal Com 201H, David 36-24 Federal Com 202H, David 36-24 Federal Com 203H, David 36-24 Federal Com 204H, David 36-24 Federal Com 205H, David 36-24 Federal Com 206H, David 36-24 Federal Com 221H, David 36-24 Federal Com 222H, David 36-24 Federal Com 223H, David 36-24 Federal Com 224H, and David 36-24 Federal Com 225H;

D. Designating Tumbler as operator of the HSU and the wells to be drilled thereon;

E. Authorizing Tumbler to recover its costs of drilling, equipping, and completing the wells;

F. Approving the operating charges and costs of supervision while drilling of \$10,000/month and, after completion, \$1000/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

G. Imposing a 200% penalty for the risk assumed by Tumbler in drilling and completing the well against any interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,
