OIL CONSERVATION DIVISION**

**APPLICATION OF BTA OIL PRODUCERS, LLC
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

Case No. 25505

**SELF-AFFIRMED STATEMENT
OF WILLIS PRICE**

1. I am a Landman with BTA Oil Producers, LLC (“BTA”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in the above-referenced case. Copies of BTA’s Application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit, therefore I do not expect any opposition at hearing.

4. BTA applies for an order pooling all uncommitted interests within the Pennsylvanian Shale formation underlying a 640-acre, more or less, standard horizontal spacing unit comprised of the E/2 SW/4 and W/2 SE/4 of Section 21, the E/2 W/2 and W/2 E/2 of Section 28, and the E/2 NW/4 and W/2 NE/4 of Section 33, Township 17 South, Range 36 East, Lea County, New Mexico (“Unit”).

5. The Unit will be dedicated to the **Vindicator Canyon State Unit Com 417H** well (“Well”), to be drilled from a surface hole location in the SE/4 NW/4 (Unit F) of Section 21 to a bottom hole location in the SE/4 NW/4 (Unit F) of Section 33.

6. The completed interval of the Well will be orthodox.

**BTA Oil Producers, LLC
Case No. 25505
Exhibit A**

7. The completed interval of the Vindicator Canyon State Unit Com 417H well will be located within 330' of the quarter-quarter section line separating the E/2 W/2 and W/2 E/2 of Sections 21, 28 and 33 to allow for the creation of a 640-acre standard, horizontal spacing unit.

8. **Exhibit A-2** contains the C-102 for the Well.

9. **Exhibit A-3** contains a plat that identifies ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests BTA seeks to pool highlighted in yellow.

10. **Exhibit A-4** contains a sample well proposal letter and AFE sent to the working interest owners for the Well. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

11. BTA has conducted a diligent search of all county public records, including phone directories, internet searches, and computer databases, to identify all potential addresses and contact information for each interest owner it seeks to pool.

12. In my opinion, BTA made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

13. BTA requests overhead and administrative rates of \$12,000.00 per month while the Well is being drilled and \$1,200.00 per month while the Well is producing. These rates are fair and are comparable to the rates charged by BTA and other operators in the vicinity.

14. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

15. In my opinion, the granting of BTA's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

16. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

I am sending this to correct the description of the spacing unit for the VCSU #417H in the well proposal dated January 15, 2025 from BTA Oil Producers, LLC to XTO Holdings, LLC (Hilcorp Permian CT TXNM, LLC's predecessor in title). Please acknowledge receipt of the attached scan by return e-mail. Thank you and please call or e-mail me if you have questions.

CHRONOLOGY OF CONTACT
Vindicator Canyon State Unit Com 417H

XTO Energy Inc. / Hilcorp Permian CT TXNM, LLC

- 01/15/2025 Sent a well proposal by email and Federal Express to XTO Energy Inc. ("XTO") that included the Vindicator Canyon State Unit Com 417H ("417H").
- 05/14/2025 Sent email to XTO advising that the election period for the 417H well proposal had passed and that BTA was scheduled to spud the 417H on December 14, 2025. Advised XTO that if there is no voluntary election to participate, BTA will file an application for Compulsory Pooling with the New Mexico Oil Conservation Division ("NMOCD").
- 05/22/2025 XTO emailed that the technical team still needing some answers from BTA regarding the 417H well proposal, and that effective January 1, 2025, XTO divested its interest in the assets to Hilcorp.
- 05/28/2025 Sent email to Hilcorp requesting a copy of the recorded assignment from XTO Holdings, LLC to Hilcorp Energy Corp., and passed along that BTA's estimated spud date for the 417H is December 11, 2025.
- 05/29/2025 Hilcorp emailed copies of the Assignment and Bill of Sale from certain XTO entities to XTO Permian CT TXNM, LLC, and a name change certificate which amended the entity name from XTO Permian CT TXNM, LLC to Hilcorp Permian CT TXNM, LLC ("Hilcorp"). Hilcorp requested the interest BTA is showing for them in the 417H.
- 05/29/2025 Sent email with a spreadsheet showing Hilcorp with 6.25% WI / 5.46875% NRI (assuming an 87.5% NRI on the Hilcorp interest) in the 417H.
- 06/23/2025 Sent email inquiring if Hilcorp needs any additional information regarding the 417H well proposal.
- 06/23/2025 Hilcorp email response stating that the team is still reviewing and hasn't made a decision yet but Hilcorp understands if BTA needs to go ahead and file for compulsory pooling.

- 07/17/2025 Emailed Hilcorp with a letter attached to correct the description of the spacing unit for the 417H in the well proposal dated January 15, 2025 from BTA to XTO (Hilcorp's predecessor in title). The proposal letter mistakenly described a 320 acre spacing unit instead of a 640 acre spacing unit, and the correct 640 acre spacing unit was described.
- 07/17/2025 Hilcorp confirms receipt of the correction letter.
- 07/17/2025 BTA checks Lea County records online in preparation for the August 7, 2025 compulsory pooling hearing and finds a Term Assignment of Oil and Gas Lease from Hilcorp to Texas Standard Oil LLC ("Texas Standard") dated effective April 16, 2025, assigning, among other lands, the N/2NW/4 of Section 33, T17S-R36E, Lea County, New Mexico, as to the Pennsylvanian shale rights. The assignment includes leasehold in the NE/4 NW/4 of Section 33 that is included in the 417H well proposal.
- 07/18/2025 Sent email to Texas Standard with the well proposal dated January 15, 2025 covering the 417H and the e-mail and correction letter to Hilcorp both dated July 17, 2025. The email references the upcoming compulsory pooling hearing before the NMOCD on August 7, 2025. In lieu of compulsory pooling, BTA offers to enter into a mutually acceptable Operating Agreement including the N/2NW/4 of Section 33, or a Term Assignment covering the N/2NW/4 of Section 33 on mutually acceptable terms.
- 07/22/2025 Matt Roberson with Texas Standard stated in our telephone conversation that the Term Assignment from Hilcorp to Texas Standard was not intended to include the W/2SE/4 of Section 32 and N/2NW/4 of Section 33, and suggested that an amendment will be filed to restore ownership of those two tracts to Hilcorp.
- 07/22/2025 Matt Roberson with Texas Standard emailed that he had corresponded with Alyssa at Hilcorp and that she would prepare a correction of the Term Assignment covering the referenced tracts in Sections 32 and 33 and have it recorded soon.
- 07/24/2025 Confirmed by email with Alyssa Hume with Hilcorp that Texas Standard and Hilcorp will amend the Term Assignment to restore the ownership of the W/2SE/4 of Section 32 and N/2NW/4 of Section 33 to Hilcorp Permian CT TXNM LLC.

Case No. 25505

SELF-AFFIRMED STATEMENT OF J.T. TRUONG

1. I am employed by BTA Oil Producers, LLC ("BTA") as a geologist. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division") and my credentials as an expert in geology were accepted and made a matter of record.

2. I am familiar with the geological matters that pertain to the above-referenced case.

3. **Exhibit B-1** is a project location map that shows the location of the proposed **Vindicator Canyon State Unit Com 417H** well ("Well").

4. BTA is targeting the Pennsylvanian Shale formation. **Exhibit B-2** is a subsea structure map that I prepared for this interval with 100-foot contours. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a black dashed line. Existing producing wells in the Pennsylvanian Shale Formation interval are represented by solid orange lines. The structure map shows the Pennsylvanian Formation. The structure appears consistent across the proposed spacing unit and I do not observe any faulting, pinch outs, or other geologic impediments to drilling horizontal wells in this area.

5. **Exhibit B-2** also shows a cross-section line in blue running North to South reflecting three wells penetrating the Pennsylvanian Shale formation that I used to construct a stratigraphic cross-section from A to A'. These wells contain good logs and I consider them representative of the geology in the subject area.

**BTA Oil Producers, LLC
Case No. 25505
Exhibit B**

6. **Exhibit B-3** is a stratigraphic cross-section that I prepared using the logs from the three wells noted on Exhibit B-2. Each well in the cross-section contains the gamma ray in the first track and resistivity in the second track. The initial target interval is labeled and marked. The cross-section demonstrates that the targeted interval is continuous across the proposed spacing unit.

7. **Exhibit B-4** is a Gross Isopach map of the Pennsylvanian Shale formation interval. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a black dashed line. Existing producing wells are represented by solid orange lines. The anticipated gross thickness of the Pennsylvanian Shale interval is 350 to 500 feet. The gross isopach map demonstrates that the Pennsylvanian Shale interval is present across the proposed spacing unit. The location of the previous cross-section from A-A' in Exhibit B-2 is also shown as a blue line on this map.

8. In my opinion, a stand-up orientation for the wells is appropriate to properly develop the subject acreage because of an established directional pattern and the known fracture orientation in this portion of the trend. Stand-up is also supported by a study of the production of stand-up vs laydown orientation in the area, with stand-up well results being significantly better.

9. Based on my geologic study, the Pennsylvanian Shale formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will be productive and contribute proportionately to the production from the wells.

10. In my opinion, the granting of BTA's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

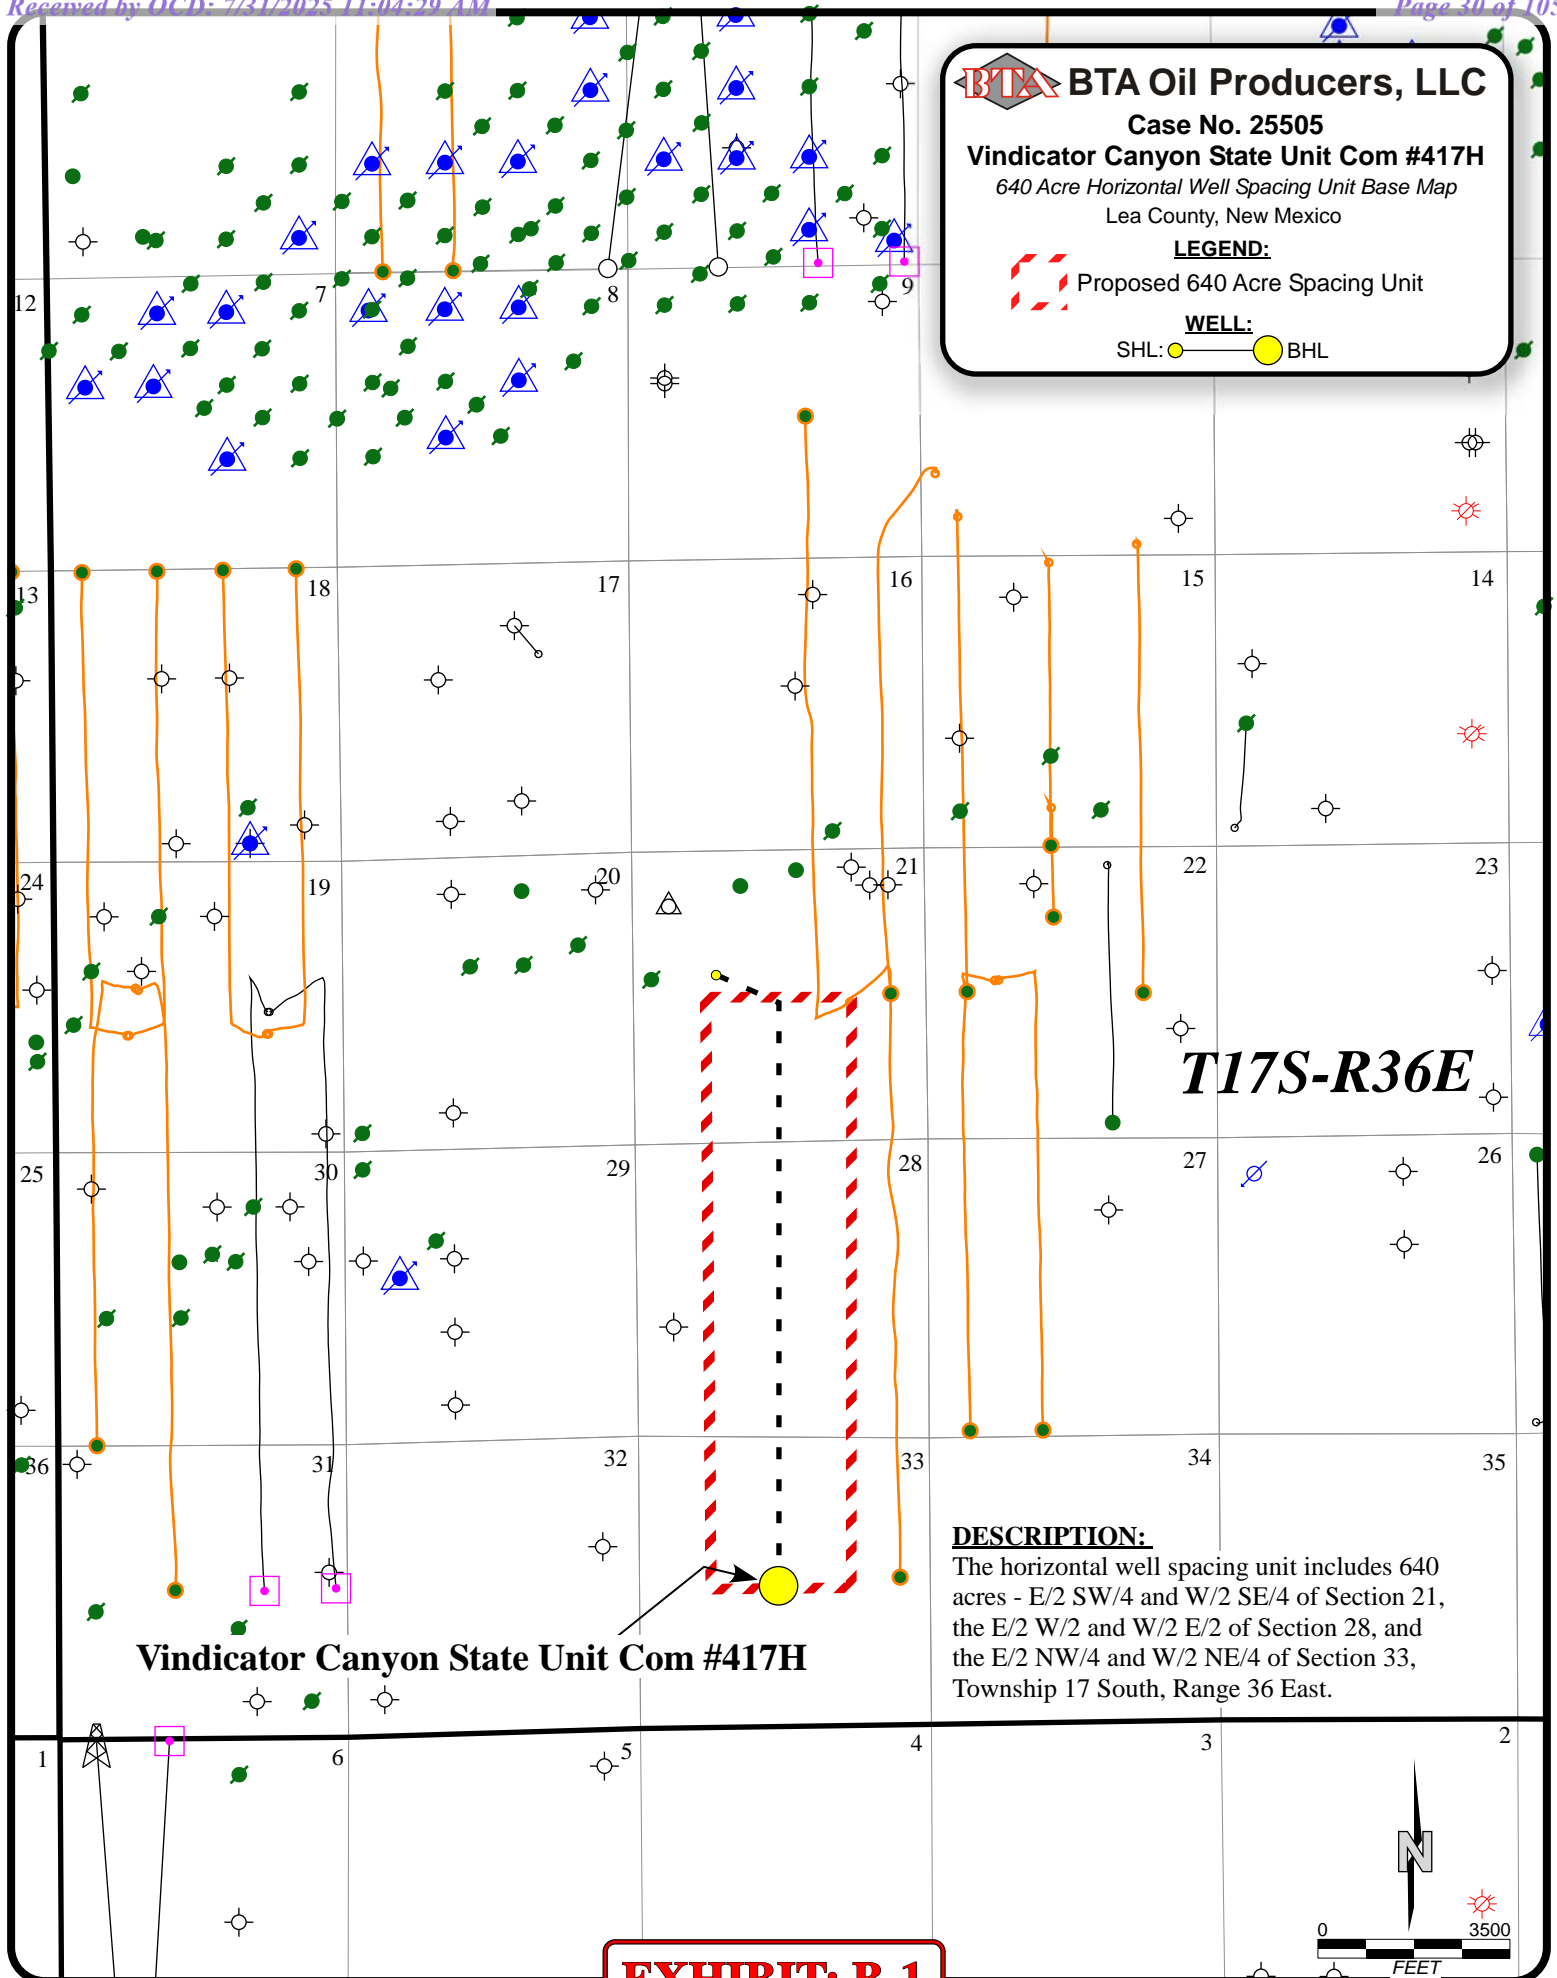

11. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws

of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
