CASE NO. 25537

**SELF-AFFIRMED STATEMENT
OF WILLIS PRICE**

1. I am a Landman with BTA Oil Producers, LLC (“BTA”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. I am familiar with the land matters involved in the above-referenced case. Copies of BTA’s Application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit, therefore I do not expect any opposition at hearing.

4. BTA applies for an order pooling all uncommitted interests within the Pennsylvanian Shale formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the W/2 SW/4 of Section 21, the W/2 W/2 of Section 28, and the W/2 NW/4 of Section 33, Township 17 South, Range 36 East, Lea County, New Mexico (“Unit”).

5. The Unit will be dedicated to the **Vindicator Canyon State Unit Com 419H** well (“Well”), to be drilled from a surface hole location in the SE/4 NW/4 (Unit F) of Section 21 to a bottom hole location in the SW/4 NW/4 (Unit E) of Section 33.

6. The completed interval of the Well will be orthodox.

7. **Exhibit A-2** contains the C-102 for the Well.

**BTA Oil Producers, LLC
Case No. 25537
Exhibit A**

8. **Exhibit A-3** contains a plat that identifies ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests BTA seeks to pool highlighted in yellow.

9. **Exhibit A-4** contains a sample well proposal letter and AFE sent to the working interest owners for the Well. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

10. BTA has conducted a diligent search of all county public records, including phone directories, internet searches, and computer databases, to identify all potential addresses and contact information for each interest owner it seeks to pool.

11. In my opinion, BTA made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.

12. BTA requests overhead and administrative rates of \$12,000.00 per month while the Well is being drilled and \$1,200.00 per month while the Well is producing. These rates are fair and are comparable to the rates charged by BTA and other operators in the vicinity.

13. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

14. In my opinion, the granting of BTA's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

15. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury

under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

XTO Energy Inc. / Hilcorp Permian CT TXNM, LLC

- 01/15/2025 Sent a well proposal by email and Federal Express to XTO Energy Inc. ("XTO") that included the Vindicator Canyon State Unit Com 419H ("419H").
- 05/14/2025 Sent email to XTO advising that the election period for the 419H well proposal had passed and that BTA was scheduled to spud the 419H on December 14, 2025. Advised XTO that if there is no voluntary election to participate, BTA will file an application for Compulsory Pooling with the New Mexico Oil Conservation Division ("NMOCD").
- 05/22/2025 XTO emailed that the technical team still needing some answers from BTA regarding the 419H well proposal, and that effective January 1, 2025, XTO divested its interest in the assets to Hilcorp.
- 05/28/2025 Sent email to Hilcorp requesting a copy of the recorded assignment from XTO Holdings, LLC to Hilcorp Energy Corp., and passed along that BTA's estimated spud date for the 419H is December 11, 2025.
- 05/29/2025 Hilcorp emailed copies of the Assignment and Bill of Sale from certain XTO entities to XTO Permian CT TXNM, LLC, and a name change certificate which amended the entity name from XTO Permian CT TXNM, LLC to Hilcorp Permian CT TXNM, LLC ("Hilcorp"). Hilcorp requested the interest BTA is showing for them in the 419H.
- 05/29/2025 Sent email with a spreadsheet showing Hilcorp with 12.5% WI / 10.9375% NRI (assuming an 87.5% NRI on the Hilcorp interest) in the 419H.
- 06/23/2025 Sent email inquiring if Hilcorp needs any additional information regarding the 419H well proposal.
- 06/23/2025 Hilcorp email response stating that the team is still reviewing and hasn't made a decision yet but Hilcorp understands if BTA needs to go ahead and file for compulsory pooling.

BTA Oil Producers, LLC
Case No. 25537
Exhibit A-5

- 07/17/2025 BTA checks Lea County records online in preparation for the August 7, 2025 compulsory pooling hearing and finds a Term Assignment of Oil and Gas Lease from Hilcorp to Texas Standard Oil LLC ("Texas Standard") dated effective April 16, 2025, assigning, among other lands, the N/2NW/4 of Section 33, T17S-R36E, Lea County, New Mexico, as to the Pennsylvanian shale rights. The assignment includes leasehold in the NW/4 NW/4 of Section 33 that is included in the 419H well proposal.
- 07/18/2025 Sent email to Texas Standard with the well proposal dated January 15, 2025 covering the 419H. The email references the upcoming compulsory pooling hearing before the NMOCD on August 7, 2025 on the 417H. In lieu of compulsory pooling, BTA offers to enter into a mutually acceptable Operating Agreement including the N/2NW/4 of Section 33, or a Term Assignment covering the N/2NW/4 of Section 33 on mutually acceptable terms.
- 07/22/2025 Matt Roberson with Texas Standard stated in our telephone conversation that the Term Assignment from Hilcorp to Texas Standard was not intended to include the W/2SE/4 of Section 32 and N/2NW/4 of Section 33, and suggested that an amendment will be filed to restore ownership of those two tracts to Hilcorp.
- 07/22/2025 Matt Roberson with Texas Standard emailed that he had corresponded with Alyssa at Hilcorp and that she would prepare a correction of the Term Assignment covering the referenced tracts in Sections 32 and 33 and have it recorded soon.
- 07/24/2025 Confirmed by email with Alyssa Hume with Hilcorp that Texas Standard and Hilcorp will amend the Term Assignment to restore the ownership of the W/2SE/4 of Section 32 and N/2NW/4 of Section 33 to Hilcorp Permian CT TXNM LLC.
- 08/12/2025 Received e-mail from Matt Roberson with Texas Standard with the recorded amendment restoring ownership of the N/2NW/4 of Section 33 to Hilcorp Permian CT TXNM LLC. Alyssa Hume with Hilcorp is copied on the e-mail.
- 08/28/2025 Sent JOA to Alyssa Hume with Hilcorp covering participation in the 417H and 419H for her review. We agreed if Hilcorp signs the JOA they can elect under the JOA, otherwise we have the compulsory pooling hearing on September 11, 2025.

CASE NO. 25537

SELF-AFFIRMED STATEMENT OF J.T. TRUONG

1. I am employed by BTA Oil Producers, LLC ("BTA") as a geologist. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division") and my credentials as an expert in geology were accepted and made a matter of record.

2. I am familiar with the geological matters that pertain to the above-referenced case.

3. **Exhibit B-1** is a project location map that shows the location of the proposed **Vindicator Canyon State Unit Com 419H** well ("Well").

4. BTA is targeting the Pennsylvanian Shale formation. **Exhibit B-2** is a subsea structure map that I prepared for this interval with 100-foot contours. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a black dashed line. Existing producing wells are represented by solid orange lines. The structure map shows the Pennsylvanian Shale formation. The structure appears consistent across the proposed spacing unit and I do not observe any faulting, pinch outs, or other geologic impediments to drilling horizontal wells in this area.

5. **Exhibit B-2** also shows a cross-section line in blue running North to South reflecting three wells penetrating the Pennsylvanian Shale formation that I used to construct a stratigraphic cross-section from A to A'. These wells contain good logs and I consider them representative of the geology in the subject area.

**BTA Oil Producers, LLC
Case No. 25537
Exhibit B**

6. **Exhibit B-3** is a stratigraphic cross-section that I prepared using the logs from the three wells noted on Exhibit B-2. Each well in the cross-section contains the gamma ray in the first track and resistivity in the second track. The initial target interval is labeled and marked. The cross-section demonstrates that the targeted interval is continuous across the proposed spacing unit.

7. **Exhibit B-4** is a Gross Isopach map of the Pennsylvanian Shale formation interval. The proposed horizontal well spacing unit is highlighted in red and the initial well is depicted with a black dashed line. Existing producing wells are represented by solid orange lines. The anticipated gross thickness of the Pennsylvanian Shale interval is 350 to 475 feet. The gross isopach map demonstrates that the Pennsylvanian Shale interval is present across the proposed spacing unit. The location of the previous cross-section from A-A' in Exhibit B-2 is also shown as a blue line on this map.

8. In my opinion, a stand-up orientation for the wells is appropriate to properly develop the subject acreage because of an established directional pattern and the known fracture orientation in this portion of the trend. Stand-up is also supported by a study of the production of stand-up vs laydown orientation in the area, with stand-up well results being significantly better.

9. Based on my geologic study, the Pennsylvanian Shale formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing unit will be productive and contribute proportionately to the production from the wells.

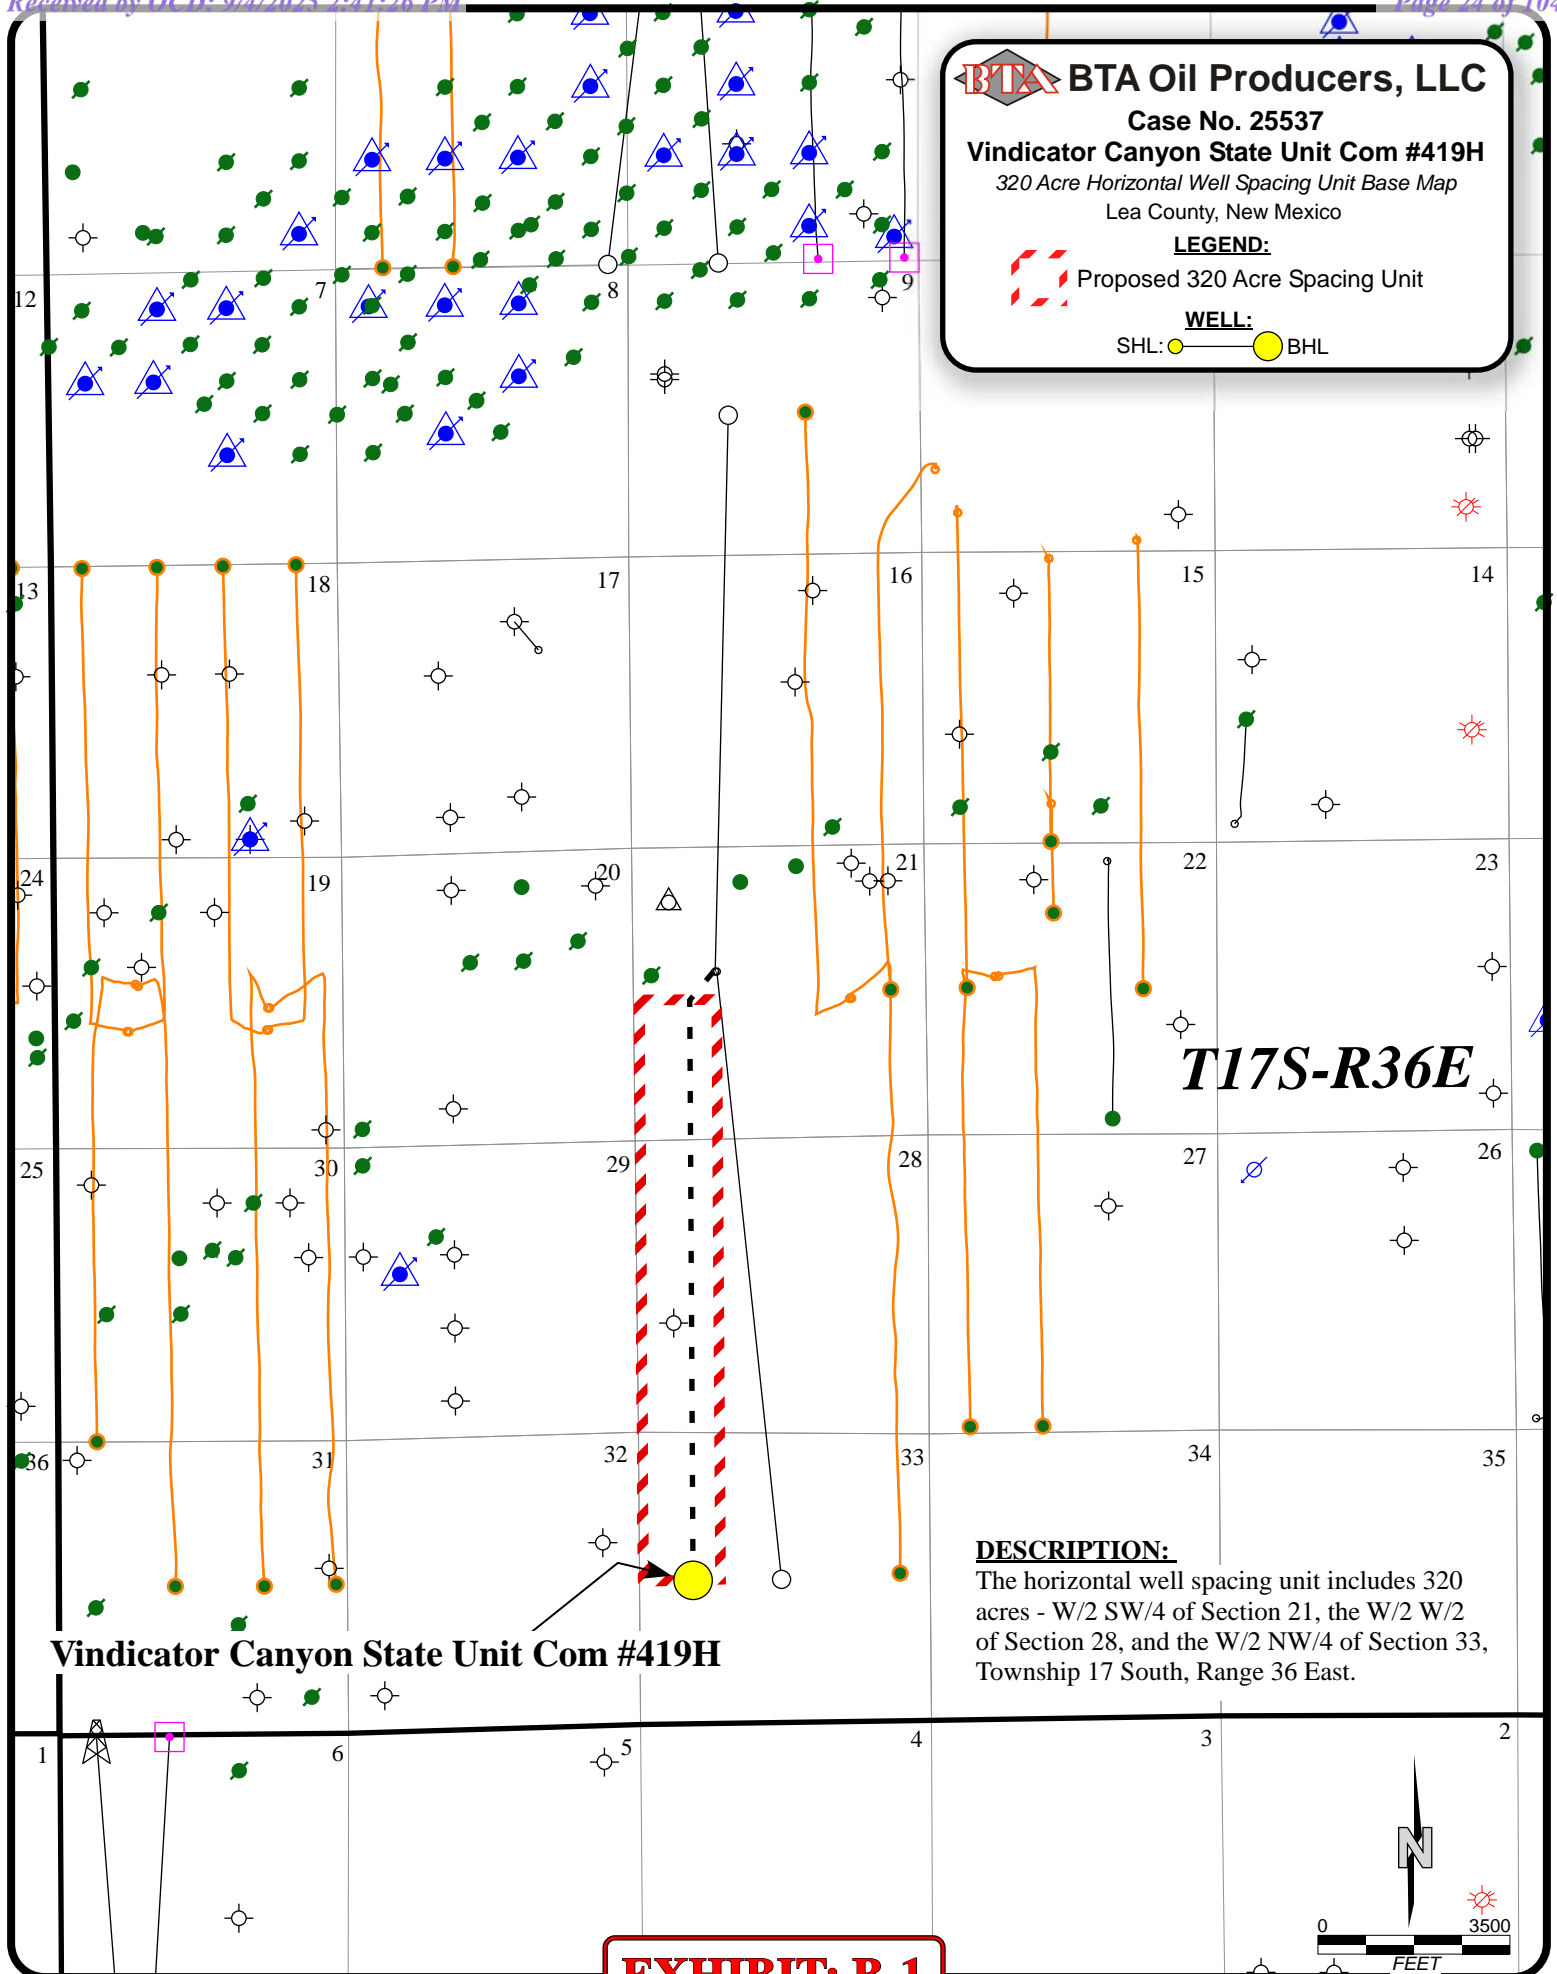

10. In my opinion, the granting of BTA's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

11. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.

<https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by these applications, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days prior to the scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. If you are not registered with the OCD's E-Permitting system, you must submit the statement via e-mail to oed.hearings@emnrd.nm.gov and should include: the names of the parties; whether or not the parties are represented by counsel; a concise statement of the case; the names of witnesses anticipated to be called to testify at the hearing; the approximate amount of time needed to present the case; and an identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about these applications, please contact Willis Price, Landman for BTA Oil Producers, LLC at wprice@btaoil.com.

Sincerely,
/s/ Jaclyn M. McLean
