RE: Submission to Hearing Examiners – Hearing September 18, 2025  
Sections 4, 5, 8 & 9 T20S-R34E

To Whom it May Concern,

HOG Partnership, LP is a present working interest owner in Sections 4, 5, 8 & 9-T20S-R34E, Lea County, NM (the “Subject Lands”). Whereas HOG Partnership, LP has patiently observed the contested hearing between Cimarex Energy Co./Coterra Energy Operating Co. (“Coterra”) and Read & Stevens, Inc., a wholly owned subsidiary of Permian Resources Operating, LLC (“Permian”) which took place in August 2023 and resulted in the Oil Conservation Division (the “OCD”) issuing order R-23089-A on April 1, 2025 (the “Order”).

The purpose of this letter is to provide a statement of support for Permian as the operator of the Subject Lands and put this long drawn-out hearing to bed. In light of Cimarex’s request for de novo and their motion for a stay of the Order, HOG Partnership, LP hereby opposing Coterra’s actions, arguments, and positions in this de novo proceeding and supports Permian’s proposed development plan. HOG Partnership, LP considers the OCD’s interpretation and issuance of the Order as the correct decision and development plan for the respective Bone Spring and Wolfcamp formations to best protect correlative rights and prevent waste. HOG Partnership, LP respectfully requests the Oil Conservation Commission accept this letter of support for Permian in this matter and take it into consideration in its decisions moving forward.

Sincerely,

A handwritten signature in black ink, appearing to read 'Will C Beecher', written over a horizontal line.

Will C Beecher
