**APPLICATION OF TUMBLER OPERATING  
PARTNERS, LLC FOR APPROVAL OF  
NON-STANDARD UNIT AND FOR COMPULSORY  
POOLING, LEA COUNTY, NEW MEXICO.**

**CASE NO. 25466**

**APPLICATION OF TUMBLER OPERATING  
PARTNERS, LLC, FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.**

**CASE NOS. 25462 – 25465**

**SELF-AFFIRMED STATEMENT  
OF SEAN MILLER**

1. I am employed by ConocoPhillips Company (“ConocoPhillips”) as a Supervisor Land Negotiator. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. Marathon Oil Permian LLC (OGRID 372098) (“Marathon”) is a wholly owned subsidiary of ConocoPhillips and will operate the proposed spacing unit and wells included in these applications.

3. I have been directly involved in development of the horizontal spacing units that are the subject of Marathon’s applications, and I am familiar with the objection filed by Tumbler Operating Partners, LLC (“Tumbler”). Tumbler has proposed its own development plan for the

acreage included in Marathon's proposed horizontal spacing units. Copies of Marathons's applications and proposed notices are attached as **Exhibit A-1**.

#### **A. Overview of Competing Proposals**

4. A general location map that depicts the Goliath Project Area is attached as **Exhibit A-2**.

5. In Case No. 25541, Marathon seeks an order: (1) establishing a 1,579.28-acre, more or less, non-standard, horizontal spacing unit comprised of all of Sections 24, 25, and irregular Section 36, Township 26 South, Range 34 East, Lea County, New Mexico; and (2) pooling all uncommitted interests in the Wolfcamp formation underlying the unit.

6. This unit will be dedicated to the following Wolfcamp wells ("Wolfcamp Wells"):

- **Goliath 24 Federal Com #601H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;
- **Goliath 24 Federal Com #602H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;
- **Goliath 24 Federal Com #603H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36;
- **Goliath 24 Federal Com #604H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36;

- **Goliath 24 Federal Com #701H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;
- **Goliath 24 Federal Com #702H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;
- **Goliath 24 Federal Com #703H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; and
- **Goliath 24 Federal Com #704H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36.

7. The Wolfcamp Wells will be completed in the Jabalina; Wolfcamp, Southwest Pool (Code 96776).

8. In Case No. 25542, Marathon seeks an order: (1) establishing a 1,579.28-acre, more or less, non-standard horizontal spacing unit comprised of all of Sections 24, 25, and irregular Section 36, Township 26 South, Range 34 East, Lea County, New Mexico; and (2) pooling all uncommitted interests in the Bone Spring formation underlying the Unit.

9. This unit will be dedicated to the following wells (“Bone Spring Wells”):

- **Goliath 24 Federal Com #303H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;

- **Goliath 24 Federal Com #301H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;
- **Goliath 24 Federal Com #302H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;
- **Goliath 24 Federal Com #304H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36;
- **Goliath 24 Federal Com #305H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36;
- **Goliath 24 Federal Com #306H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36;
- **Goliath 24 Federal Com #503H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;
- **Goliath 24 Federal Com #505H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; and

- **Goliath 24 Federal Com #506H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36.

10. The Bone Spring Wells will be completed in the WC-025 G-08 S263412K; Bone Spring Pool (Code 96672).

11. The C-102s for the Goliath Wells are attached as **Exhibit A-3**.

12. Thus, Marathon proposes to fully develop the Bone Spring and Wolfcamp formations underlying three sections of land (1,579.28-acres) by drilling two and a half mile laterals.

13. In contrast, Tumbler proposes to drill twenty Bone Spring and eleven Wolfcamp wells to develop Sections 24, 25, and 36, Township 26 South, Range 34 East. A copy of Tumbler's proposal and AFEs are attached as **Exhibit A-4**.

14. Tumbler has never drilled any wells in New Mexico, does not hold any approved well permits in the state, and has only been an operator in New Mexico since 2025.

15. In contrast, Marathon and ConocoPhillips have drilled approximately 920 horizontal wells in Lea County, New Mexico alone. Of those wells, approximately 430 have been greater than 2 miles in length.

16. Maps that compare Marathon's and Tumbler's proposed developments are attached as **Exhibit A-5**.

17. Tumbler has a minimal interest in the lands it proposes to develop, holding approximately 9% of the total working interest.

18. ConocoPhillips acquired Marathon in November of 2024. Following the acquisition, a transition period commenced where ConocoPhillips worked with Marathon to merge

Marathon projects, including these Goliath wells, into the ConocoPhillips drill schedule. At this point, the transition period has concluded and ConocoPhillips is prepared to move forward with the Goliath project.

**B. Marathon holds the majority of the working interest in this acreage.**

19. Plats of the tracts that identify the ownership interests in each tract, as well as the parties Marathon seeks to pool, are attached as **Exhibit A-6**.

20. As shown on Exhibit A-6, Marathon, and its affiliated entities collectively hold a 43.43% interest in its proposed spacing units.

21. Marathon has received the support of Cimarex and Walsh & Watts, other working interest owners in the proposed spacing unit. Cimarex holds 3.63% working interest in the proposed spacing unit. Walsh & Watts holds 4.86% working interest in the proposed spacing unit. When this support is included, 51.92% of the working interest in its proposed spacing units is dedicated to Marathon's development. Wash & Watt's letter of support is attached as **Exhibit A-7**.

22. Marathon intends to develop all Sections 24, 25 and irregular Section 36 of Township 26 South, Range 34 East, in Lea County, New Mexico.

23. Tumbler does not have a working interest in, or the right to drill, in Section 36 of Township 26 South, Range 34 East, Lea County, New Mexico.

24. As mentioned above, Tumbler only holds a 9% working interest in the lands it seeks to develop.

25. Because the majority of the working interest is dedicated to Marathon's development plan, Marathon should be permitted to proceed.

**C. Marathon's proposal will minimize surface impacts.**

26. Marathon's proposal to utilize a non-standard spacing unit reduces surface facilities and impacts because it only requires 1 central tank battery, while developing the acreage with standard spacing units may require up to 4 central tank batteries. As a result, Marathon's request for approval of a non-standard spacing unit is necessary to prevent surface, environmental, and economic waste.

27. **Exhibit A-8** identifies the interest owners in the tracts surrounding Marathon's proposed non-standard spacing unit, who were provided notice of Marathon's application.

28. ConocoPhillips and Marathon currently have production in the area surrounding the proposed Goliath development, which will allow them to use existing surface facilities and minimize surface impacts.

29. Tumbler has no production in the area and, consequently, does not have available surface facilities.

**D. Marathon is prepared to commence surface operations.**

30. Because ConocoPhillips and Marathon operate numerous other wells in this area, they have oil, gas, and water takeaway facilities in place and are prepared to commence surface operations.

31. In contrast, Tumbler has no production or surface facilities in the area.

**E. Marathon has diligently pursued its development plan.**

32. Marathon has approved permits to drill for all seventeen Goliath wells.

33. Several of the Goliath permits to drill are set to expire in 2026. Six of the permits expire in 2026 and eleven permits will expire in 2027. Marathon intends to extend the permits that are set to expire in 2026 and drill the wells prior to the 2027 expirations.

34. Tumbler does not have any approved permits for its proposed David Wells.

35. A timeline that demonstrates Marathon's diligence in developing the Unit is attached as **Exhibit A-9**. Marathon originally applied for pooling of its Goliath development in 2023, prior to ConocoPhillips' acquisition. Due to transition and integration of Marathon's projects into ConocoPhillips' drill schedule, the project was delayed and Marathon's original pooling orders expired in May of 2025.

36. Marathon re-proposed the Goliath wells to Tumbler on July 9, 2025. A copy of the well proposal letter and AFEs are attached as **Exhibit A-10**.

37. As mentioned above, Marathon has permits for the Goliath wells and is prepared to commence drilling once it receives an order from the Division.

**F. Marathon has engaged in good faith negotiations.**

38. A summary of Marathon's communications with Tumbler and the other pooled parties is attached as **Exhibit A-11**.

39. Marathon has made multiple attempts to engage in trade discussions with Tumbler. Tumbler has instead insisted that Marathon and ConocoPhillips commit to drilling and completing all of the proposed Goliath Wells in 2026. Tumbler's demand is not reasonable, especially considering that adopting Tumbler's proposal would delay development due to its lack of permits.

40. In my opinion, the various communications between the parties show that Marathon has engaged in good faith negotiations trying to reach a resolution with Tumbler.

41. The estimated costs of Marathon's proposed Wells are fair and reasonable and are comparable to the cost of other wells of similar depth and length drilled in Lea County.

42. Marathon requests overhead and administrative rates of \$12,000.00 per month while the Wells are being drilled and \$1,200.00 per month while the Wells are producing. These

rates are fair and are comparable to the rates charged by Marathon and by other operators in the vicinity. Marathon further requests that the rates be adjusted periodically in accordance with the COPAS Accounting Procedure.

43. Marathon requests that a 200% risk charge be assessed against the uncommitted interests if they are non-consenting working interest owners.

## **F. Conclusion**

44. For the reasons set out above, it is my opinion that granting Marathon's application and approval of non-standard spacing units would best prevent waste, protect correlative rights, and allow for prudent and timely development of wells in the Unit. Marathon should be permitted to proceed with its development plan.

45. The attached exhibits attached were either prepared by me or under my supervision or were compiled from company business records.

46. I understand this Self-Affirmed Statement will be used as written testimony in the subject cases. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my signature below.

**APPLICATION OF MARATHON OIL  
PERMIAN, LLC FOR COMPULSORY  
POOLING AND APPROVAL OF  
NON-STANDARD SPACING UNIT,  
LEA COUNTY, NEW MEXICO.**

**CASE NO. 25541**

**AMENDED APPLICATION**

Pursuant to NMSA 1978, Section 70-2-17, Marathon Oil Permian LLC (OGRID No. 372098) (“Marathon” or “Applicant”) applies for an order pooling all uncommitted interests in the Wolfcamp formation underlying a 1,579.28-acre, more or less, non-standard, horizontal spacing unit comprised of all of Sections 24, 25, and irregular Section 36, Township 26 South, Range 34 East, Lea County, New Mexico (“Unit”). In support of this application, Marathon states the following.

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. The Unit will be dedicated to the following wells (“Wells”):
  - a. **Goliath 24 Federal Com #601H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;
  - b. **Goliath 24 Federal Com #602H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;

**Marathon Oil Permian LLC  
Case No. 25541  
Exhibit A-1**

- c. **Goliath 24 Federal Com #603H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36;
  - d. **Goliath 24 Federal Com #604H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36;
  - e. **Goliath 24 Federal Com #701H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36;
  - f. **Goliath 24 Federal Com #702H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36;
  - g. **Goliath 24 Federal Com #703H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; and
  - h. **Goliath 24 Federal Com #704H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36.
- 3. The completed intervals of the Wells will be orthodox.
  - 4. Marathon requests approval of a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste, and protect correlative rights.

5. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.

6. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated as the operator of the Wells and Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on September 11, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Approving the non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC;
- D. Designating Applicant as operator of the Unit and the Wells to be drilled thereon;
- E. Authorizing Applicant to recover its costs of drilling, equipping and completing the Wells;
- F. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- G. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

**Marathon Oil Permian LLC**  
**Case No. 25541 - Exhibit A-3**

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

(the “Wells”)  
Participation Proposal  
All of Sections 24, 25, & 36, Township 26 South, Range 34 East, N.M.P.M., Lea County, New Mexico, limited to all depths from surface to base of Wolfcamp

Dear Sir/Madam:

Tumbler Energy Partners, LLC (“TOP”) proposes the drilling of Tumbler Operating Partners, LLC’s David 36-24 Fed Com #101H, #102H, #103H, #104H, #111H, #112H, #113H, #114H, #121H, #122H, #123H, #124H, #135H, #136H, #137H, #138H, #131H, #132H, #133H, #134H, #201H, #202H, #203H, #204H, #205H, #206H, #221H, #222H, #223H, #224H, #225H located in All of Sections 24, 25, & 36, Township 26 South, Range 34 East Lea County, New Mexico.

In connection with the above, please note the following:

The estimated cost of drilling, testing, completing, and equipping of each Well is itemized on the thirty-one (31) enclosed Authority for Expenditures (“AFE”) dated April 25, 2025.

In the event you/your firm elects to participate in the proposed wells, please execute the enclosed extra set of JOA signature/notary pages and the AFEs before mailing them back to my attention to the address on the letterhead above within thirty (30) days.

TOP reserves the right to modify the locations and drilling plans described above to address topography, cultural, or environmental concerns, among other reasons. TOP will advise you of any modifications.

TOP requests that you indicate your election to participate in the drilling and completion of the Wells in the space provided below, sign and return one (1) copy of this letter to the undersigned.

TOP is proposing to drill the Wells under the terms of the modified 1989 AAPL form of Operating Agreement Horizontal Modifications, which is enclosed for your review. The proposed Operating Agreement dated April 1, 2025, by and between Tumbler Operating Partners, LLC, as Operator and Tumbler Operating Partners, LLC et al as Non-Operators, covers certain depths in All of Sections 24, 25, & 36, Township 26 South, Range 34 East Lea County, New Mexico, and has the following general provisions:

- 100% / 300% / 300% Non-consenting penalty
- \$10,000/\$1,000 Drilling and Producing rate
- Tumbler Operating Partners, LLC named as Operator
- Contract Area of All of Sections 24, 25, & 36, Township 26 South, Range 34 East Lea County, New Mexico, limited to all depths from surface to base of Wolfcamp

If your election is to participate in the drilling and completion of the Wells, please sign and return a copy of the enclosed AFEs within thirty (30) days of receipt of this notice. If we do not reach an agreement within 30 days of the delivered date of this letter, TOP will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed wells.

Please be aware that the enclosed AFEs are only an estimate of costs to be incurred and by electing to participate in the Wells, each working interest owner shall be responsible for its proportionate share of all costs incurred.

Thank you for your consideration of this proposal. Please don't hesitate to contact me if you have any questions.

Sincerely,  
**Tumbler Operating Partners, LLC**

Kristin Wilpitz  
Landman

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |              |                                                          |              |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                           |              |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |              |                                                           |              |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                           |                                         |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                          |              |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well. Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                   |                                        |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                           |                                         |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |              |                                                           |              |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p>
