| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |              |                                                          |              |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                   |                                        |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                   |                                         |                 |          |            |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                           |              |              |            |               |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                          |              |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                   |                                         |              |       |            |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                           |              |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |  |                         |  |                             |  |                                        |  |              |  |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |  |                         |  |                             |  |                                        |  |              |  |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                           |                                         |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                           |                                        |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well. Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                   |                                        |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                           |                                         |              |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |              |                                                           |                           |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |  |                         |  |                             |  |                                        |  |              |  |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |  |                         |           |                   |           |                                        |           |           |           |       |            |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well. Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |                         |                           |                                         |              |               |  |

| Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements<br>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.<br>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.<br>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith. |  |                         |  |                             |  |                                         |  |              |  |               |  |

| <p>Disclaimer of Cost Estimates; Obligations of Participant; Insurance Requirements</p> <p>The cost estimates set forth in this Authorization for Expenditure ("AFE") are provided for informational purposes only and shall not be interpreted as fixed or maximum amounts for any individual line item or for the aggregate project cost. The installation of tubing, though approved under this AFE, may be deferred for a period of up to twelve (12) months following the completion of the well.</p> <p>By executing this AFE, the Participant agrees to bear its proportionate share of all actual costs incurred in connection with the project. Such costs include, but are not limited to, legal, curative, regulatory, brokerage, and well-related expenses, in accordance with the terms and conditions of the applicable joint operating agreement, regulatory order, or other governing agreement pertaining to the subject well.</p> <p>Unless the Participant provides the Operator, no later than the spud date, with a certificate of insurance evidencing its own coverage in an amount and form acceptable to the Operator, the Participant shall be included under the Operator's well control and general liability insurance policies and shall be billed for its proportionate share of the premiums associated therewith.</p> |                         |                   |                                        |              |               |  |

RE: Letter of Support for Marathon Oil Permian LLC  
Goliath 24 Federal Com Wells  
All of Sections 24, 25 and 36, T26S, R34E, NMPM  
Lea County, New Mexico

Walsh & Watts, Inc. ("Walsh") currently owns a 6.0% working interest in the Bone Spring and Wolfcamp formations in one or more the above-described lands. It is Walsh's belief that the horizontal development proposal by Marathon Oil Permian LLC ("MRO") by virtue of the Goliath 24 Federal Com wells will more effectively develop the above-described lands rather than the competing proposal made by Tumbler Operating Partners, LLC for this area. Walsh believes the MRO plan is the best proposal as it protects correlative rights, prevents waste of reserves, and prevents stranding of acreage. Walsh, therefore, submits this letter in support of MRO's proposed development plan to MRO for its use at a forthcoming hearing before the NMOCD.

If you have any questions my direct phone number is 817-546-4035 and my email address is gfrank@walshwatts.com.

Sincerely,

Garrett S. Frank  
Vice President, Land  
Walsh & Watts, Inc.

**Marathon Oil Permian LLC  
Case No. 25541  
Exhibit A-7**

**Exhibit A-9**

# Goliath Project Timeline

November  
2024

- ConocoPhillips (COP) acquires Marathon Oil Permian LLC (MRO)
- COP working with MRO transition team to monitor existing MRO production on proposed project area

May 2025

- Heritage MRO pooling orders expire for Goliath unit
- MRO systems and documents not yet fully integrated into COP systems
- COP working with MRO transition team to continue to monitor production on existing wells, and to merge Goliath and other heritage MRO projects into existing COP drill schedule

July 2025

- MRO systems fully integrate into COP

Current State

- Currently on drill schedule for 2027 prior to permit expirations

# Communication Timeline

Tumbler Operating Partners, LLC

## January 2025

- Zoom meeting with Tumbler regarding MRO's Goliath project and development timing
- MRO informs Tumbler that Goliath is intended to be drilled prior to APD expiration, exact spud date is TBD to integrate the project into COP's existing drill schedule, and MRO's transition team continues to monitor existing production in the leases in the proposed project area
- Tumbler states desire for the unit to be developed in the immediate future and asks if MRO is willing to divest its interest or cede operatorship, MRO states that it intends to develop this unit prior to permit expiration but not in 2025

## February 2025

- MRO updates Tumbler on existing production on the leases in the proposed project area
- Tumbler restates desire to expedite development

## March 2025

- MRO connects Tumbler with the production engineer over the existing wells holding the leases in the proposed project area
- Tumbler expresses disappointment that Goliath is not part of the 2025 drill schedule, and suggests Tumbler operate the wells with MRO's involvement if rig availability is an issue
- MRO states rig availability is not an issue, that MRO intends to develop this unit and doesn't need external assistance, and that the heritage MRO projects are being integrated into COP's existing drill schedule
- Tumbler states that it has a couple of ideas regarding trades and avenues to increase MRO's interest
- MRO states that it recognizes the importance of the unit, that MRO's plan is to develop, and that because of COP's acquisition of MRO the existing MRO projects are being integrated into COP's existing drill schedule which is why Goliath will not be developed in 2025

# Communication Timeline

Tumbler Operating Partners, LLC

## April 2025

- Tumbler states it aims to ensure the leases remain intact and is interested in discussing trades
- MRO responds stating it would evaluate a trade possibility if Tumbler sent a specific deal proposal
- Tumbler responds stating it would be most prudent for Tumbler to pursue operatorship and that well proposals are incoming

## May 2025

- Tumbler proposes to operate 31 wells
- MRO asks Tumbler if it would consider a deal in this unit while evaluations are run
- Tumbler sends a correction to the initial proposals

## June 2025

- Tumbler follows up with MRO asking if there are any updates, and states that pooling applications will be filed shortly
- Tumbler asks MRO to share a preferred structure to divest its interest to Tumbler, MRO states it will also continue to pursue operatorship and has no plans to divest any interest

## July 2025

- Tumbler confirms receipt of MRO's counterproposals

# Communication Timeline

Tumbler Operating Partners, LLC

## August 2025

- MRO and Tumbler representatives continue communications, Tumbler demands that MRO spud the wells that have approved APDs no later than Q1 2026 and spud the remaining development no later than Q3 2026

## September 2025

- Tumbler calls MRO asking why Goliath won't be moved up on the drill schedule, asks for assurances that the unit will be developed, MRO expresses that the project is integrated into COP's existing schedule and is on schedule to be developed prior to APD expiration

**Re: Updated Spacing Notification – Goliath Federal Com  
Township 26 South – Range 34 East, N.M.P.M.  
ALL Sections 24, 25 and 36  
Lea County, New Mexico**

Dear Interest Owner,

On July 9, 2025, Marathon Oil Permian LLC (“Marathon”), as Operator, proposed to drill the following wells in Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico:

Goliath Federal Com #101H, Goliath Federal Com #102H, Goliath Federal Com #111H, Goliath Federal Com #112H, Goliath Federal Com #113H, Goliath Federal Com #114H, Goliath Federal Com #122H, Goliath Federal Com #123H, Goliath Federal Com #124H, Goliath Federal Com #135H, Goliath Federal Com #136H, Goliath Federal Com #137H, Goliath Federal Com #138H, Goliath Federal Com #221H, Goliath Federal Com #222H, Goliath Federal Com #223H, Goliath Federal Com #224H.

This letter is to notify you of the well name change from the names listed above, to those names listed below. Attached to this letter are AFEs updated to reflect the correct well names. The AFE values have not changed from the original.

Goliath 24 Federal Com 104H (Bone Spring)  
Goliath 24 Federal Com 301H (Bone Spring)  
Goliath 24 Federal Com 302H (Bone Spring)  
Goliath 24 Federal Com 304H (Bone Spring)  
Goliath 24 Federal Com 305H (Bone Spring)  
Goliath 24 Federal Com 306H (Bone Spring)  
Goliath 24 Federal Com 504H (Bone Spring)  
Goliath 24 Federal Com 505H (Bone Spring)  
Goliath 24 Federal Com 506H (Bone Spring)  
Goliath 24 Federal Com 601H (Wolfcamp)  
Goliath 24 Federal Com 602H (Wolfcamp)  
Goliath 24 Federal Com 603H (Wolfcamp)  
Goliath 24 Federal Com 604H (Wolfcamp)  
Goliath 24 Federal Com 701H (Wolfcamp)

**Marathon Oil Permian LLC**

**Exhibit A-10**

*Marathon Oil Permian LLC is a wholly owned subsidiary of ConocoPhillips*

Goliath 24 Federal Com 702H (Wolfcamp)  
Goliath 24 Federal Com 703H (Wolfcamp)  
Goliath 24 Federal Com 704H (Wolfcamp)

This letter is also to notify you of the updated spacing of the following wells:

**Goliath 24 Federal Com 104H**, to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 10,800 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 660' FWL of Section 24, and the last take point is at approximately 100' FSL, 660' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 660' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 301H**, to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 10,800 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,518' FWL of Section 24, and the last take point is at approximately 100' FSL, 1,518' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 1,518' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 302H**, to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 10,800 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 2,376' FWL of Section 24, and the last take point is at approximately 100' FSL, 2,376' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 2,376' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 304H**, to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 10,800 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 2,046' FEL of Section 24, and the last take point is at approximately 100' FSL, 2,046' FEL of Section 36. The bottom hole location is approximated to be 50' FSL, 2,046' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 305H**, to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 10,800 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,188' FEL of Section 24, and the last take point is at approximately 100' FSL, 1,188' FEL of Section 36. The

bottom hole location is approximated to be 50' FSL, 1,188' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 306H:** No spacing change, originally was named the Goliath Federal Com #114H.

**Goliath 24 Federal Com 504H,** to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 11,200 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,089' FWL of Section 24, and the last take point is at approximately 100' FSL, 1,089' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 1,089' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 505H,** to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 11,200 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 2,475' FEL of Section 24, and the last take point is at approximately 100' FSL, 2,475' FEL of Section 36. The bottom hole location is approximated to be 50' FSL, 2,475' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 506H,** to be drilled to a depth sufficient to test the Bone Spring formation at an approximate total vertical depth of 11,200 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 759' FEL of Section 24, and the last take point is at approximately 100' FSL, 759' FEL of Section 36. The bottom hole location is approximated to be 50' FSL, 759' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico.

**Goliath 24 Federal Com 601H:** No spacing change, originally was named the Goliath Federal Com #135H.

**Goliath 24 Federal Com 602H:** No spacing change, originally was named the Goliath Federal Com #136H.

**Goliath 24 Federal Com 603H:** No spacing change, originally was named the Goliath Federal Com #137H.

**Goliath 24 Federal Com 604H:** No spacing change, originally was named the Goliath Federal Com #138H.

**Goliath 24 Federal Com 701H:** No spacing change, originally was named the Goliath Federal Com #221H.

**Goliath 24 Federal Com 702H:** No spacing change, originally was named the Goliath Federal Com #222H.

**Goliath 24 Federal Com 703H:** No spacing change, originally was named the Goliath Federal Com #223H.

**Goliath 24 Federal Com 704H:** No spacing change, originally was named the Goliath Federal Com #224H.

**Re: Updated Spacing Notification – Goliath Federal Com  
Township 26 South – Range 34 East, N.M.P.M.  
ALL Sections 24, 25 and 36  
Lea County, New Mexico**

Dear Interest Owner,

On July 24, 2025, Marathon Oil Permian LLC (“Marathon”), as Operator, notified all interest owners of updated name change and spacing for the following wells in Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico:

Goliath 24 Federal Com 104H (Bone Spring)  
Goliath 24 Federal Com 301H (Bone Spring)  
Goliath 24 Federal Com 302H (Bone Spring)  
Goliath 24 Federal Com 304H (Bone Spring)  
Goliath 24 Federal Com 305H (Bone Spring)  
Goliath 24 Federal Com 306H (Bone Spring)  
Goliath 24 Federal Com 504H (Bone Spring)  
Goliath 24 Federal Com 505H (Bone Spring)  
Goliath 24 Federal Com 506H (Bone Spring)  
Goliath 24 Federal Com 601H (Wolfcamp)  
Goliath 24 Federal Com 602H (Wolfcamp)  
Goliath 24 Federal Com 603H (Wolfcamp)  
Goliath 24 Federal Com 604H (Wolfcamp)  
Goliath 24 Federal Com 701H (Wolfcamp)  
Goliath 24 Federal Com 702H (Wolfcamp)  
Goliath 24 Federal Com 703H (Wolfcamp)  
Goliath 24 Federal Com 704H (Wolfcamp)

This letter is to notify you of the well name or spacing change from the names listed above, to the following:

**Goliath 24 Federal Com 303H:** No spacing change, originally was named the Goliath Federal Com #104H.

**Goliath 24 Federal Com 503H:** No spacing change, originally was named the Goliath Federal Com #504H.

*Marathon Oil Permian LLC is a wholly owned subsidiary of ConocoPhillips*

**Goliath 24 Federal Com 601H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 13,100 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 330' FWL of Section 24, and the last take point is at approximately 100' FSL, 330' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 330' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure ("AFE").

**Goliath 24 Federal Com 602H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 13,100 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,510' FWL of Section 24, and the last take point is at approximately 100' FSL, 1,510' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 1,510' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure ("AFE").

**Goliath 24 Federal Com #603H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 13,100 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,271' FEL of Section 24, and the last take point is at approximately 100' FSL, 1,271' FEL of Section 36. The bottom hole location is approximated to be 50' FSL, 1,271' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure ("AFE").

**Goliath 24 Federal Com #604H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 13,100 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 1,410' FEL of Section 24, and the last take point is at approximately 100' FSL, 1,410' FEL of Section 36. The bottom hole location is approximated to be 50' FSL, 1,410' FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure ("AFE").

**Goliath 24 Federal Com #701H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 12,900 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100' FNL, 920' FWL of Section 24, and the last take point is at approximately 100' FSL, 920' FWL of Section 36. The bottom hole location is approximated to be 50' FSL, 920' FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E,

Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure (“AFE”).

**Goliath 24 Federal Com #702H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 12,900 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100’ FNL, 2,100’ FWL of Section 24, and the last take point is at approximately 100’ FSL, 2,100’ FWL of Section 36. The bottom hole location is approximated to be 50’ FSL, 2,100’ FWL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure (“AFE”).

**Goliath 24 Federal Com #703H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 12,900 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100’ FNL, 2,000’ FEL of Section 24, and the last take point is at approximately 100’ FSL, 2,000’ FEL of Section 36. The bottom hole location is approximated to be 50’ FSL, 2,000’ FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure (“AFE”).

**Goliath 24 Federal Com #704H**, to be drilled to a depth sufficient to test the Wolfcamp formation at an approximate total vertical depth of 12,900 feet. The surface hole location for this well will be located in the N2 of Section 24, T26S-R34E. The first take point for this well is at approximately 100’ FNL, 820’ FEL of Section 24, and the last take point is at approximately 100’ FSL, 820’ FEL of Section 36. The bottom hole location is approximated to be 50’ FSL, 820’ FEL of Section 36. The dedicated horizontal spacing unit will be All of Sections 24, 25 and 36, T26S-R34E, Lea County, New Mexico. The total estimated cost to drill and complete said well is \$11,266,215.41, as shown on the attached Authority for Expenditure (“AFE”).

Attached to this letter are AFEs updated to reflect the correct well names for the 303H and 503H. The AFE values have not changed from the original.

| EOG RESOURCES, INC.                              | WI, RT   | JOA, CAs, AFE | 5509 CHAMPIONS DRIVE<br>MIDLAND, TX 79706                  | 7/9/2025  |           | 4/28/2025 MRO reached out to Laci Stretcher (laci_stretcher@eogresources.com) and Ellarie Sutton (ellarie_sutton@eogresources.com) regarding the Goliath unit and Tumbler's competing proposals.<br>5/30/2025 Laci reached out asking if MRO would be interested in trading out of its acreage in the Goliath unit, MRO responded letting her know that MRO has this unit in its 5-year plan and intends to develop, but would consider an alternative deal depending on the terms.<br>7/2/2025 Laci reached out notifying MRO that EOG wants to protect its acreage from Tumbler's proposed development, and that it would be sending out counterproposals in the next few days. EOG said that they would like to avoid a contested situation with MRO and will send offers for a deal. MRO responded stating that MRO would also like to avoid a contested hearing with EOG and that MRO would consider an offer, but that MRO also needs to defend its position and will be sending proposals for the Goliath unit.<br>7/11/2025 MRO continued email communication with Laci regarding potential deals.<br>7/21/2025 MRO met with EOG, they stated they would withdraw their proposals since MRO is serious about developing this unit and defending the acreage since EOGs goal is to defend the acreage from Tumbler being designated operator. EOG shortly withdrew their proposals.<br>7/24/2025 NMOCD status conference, EOG stated they are only monitoring the case and will not be filing competing applications.<br>8/25/2025 MRO emailed Laci asking if EOG would consider providing a letter of support for MROs cases. Laci responded stating that EOG is going to stick with their general policy of remaining neutral in contested cases.<br>6/25/2025 MRO spoke with Garrett Frank (gfrank@walshwatts.com) regarding MRO's development plan, Garrett stated that W&W is in support of MRO operating.<br>8/25/2025 MRO emailed Garrett to notify of the contested hearing date and ask if Walsh & Watts, FHW, JR - Oil LTD, and FHW, JR - Drilling LTD would consider providing a letter of support for MROs cases. Garrett responded asking for a draft letter of support, MRO responded with a sample letter. |

|                                                                                            |          |               |                                                           |           |           | 1/21/2025 MRO had zoom meeting with Chris Villarreal (chris.villarreal@strongholdim.com) regarding MROs development plan for Goliath, informed him that MRO plans to drill before expiration of the permits and that spud date is TBD because the project needed to be integrated into COP's existing drill schedule.<br>1/22/2025 Chris inquired via email about production on the existing MRO wells on Sections 24 and 36, MRO let him know that the MRO transition team was handling those wells and that the OCD showed continued production. He stated that Tumbler wants to ensure that the unit is developed in the immediate future, and asked if MRO is willing to divest its interest or cede operatorship. MRO stated MRO intends to develop the unit in the near future, just not in 2025, and also stated that she was coordinating with the MRO transition team to monitor production on the existing wells and ensure the leases were maintained.<br>2/10/2025 MRO emailed Chris stating that the existing MRO wells were still producing and holding the leases. Chris responded asking which wells as he had previously only been referencing one specific well, MRO clarified which specific wells were on Sections 24 and 36.<br>2/12/2025 Chris responded stating that Tumbler hopes MRO is working diligently to spud new wells in the immediate future, and that they are exploring all possible avenues to expedite development. Chris listed specific questions about production on the existing wells.<br>3/3/2025 MRO connected Chris with the production engineer over the existing MRO wells.<br>3/9/2025 Chris responded stating he spoke with the production engineer and is glad to hear that MRO is monitoring the wells. Chris stated that they are disappointed to hear that Goliath was not part of the 2025 drill schedule, and suggested an arrangement where Tumbler operates the wells with MRO's involvement if rig availability was an issue. MRO responded letting him know that rig availability was not an issue, that MRO intends to drill this project and that MRO won't need external assistance. MRO asked what's driving the urgency around this project for Tumbler. Chris responded asking when the current permits would be drilled, and stated he had a couple ideas regarding trades and avenues to increase MRO's interest.<br>3/28/2025 Chris emailed MRO stating that the Goliath unit needed to be developed in the very near term, and asked to have a discussion on the unit. MRO responded stating that MRO recognizes the importance of the project and that it is MRO's plan to develop, and that because of COP's acquisition of MRO, the existing MRO projects were being integrated into COP's existing drill schedule which is why Goliath would not be drilled in 2025.<br>4/3/2025 Chris responded stating that Tumbler aims to ensure the lease remains intact and get development started in the unit, and that Tumbler is interested in discussing trades, MRO asked if Tumbler had tracts in mind for trade possibilities. Chris responded naming a few general areas that Tumbler would consider trading for, MRO responded stating that COP would evaluate a trade possibility if Tumbler sent a trade proposal with specifics.<br>4/28/2025 Chris responded stating that it would be most prudent for Tumbler to pursue operatorship and that they were sending 31 well proposals.<br>5/12/2025 MRO emailed Kristin Wilpitz (kristin.wilpitz@strongholdim.com) asking if Tumbler would consider a deal in this unit, and that MRO was currently evaluating their proposals. 5/15/2025 Kristin sent a correction to proposals. 6/6/2025 Kristin emailed asking if MRO had any updates regarding their proposals, and that Tumbler would be filing pooling applications shortly. 7/10/2025 Kristin emailed confirming receipt of MROs proposals.<br>6/11/2025 Chris emailed MRO stating that Tumbler filed for pooling and will continue to pursue operatorship, and asked that MRO share a preferred structure for divesting its interest to Tumbler. MRO responded that MRO would also continue to pursue operatorship and that MRO has no plans to divest its interest in this project. |

POOLING, LEA COUNTY, NEW MEXICO.**

**CASE NO. 25466**

**APPLICATION OF TUMBLER OPERATING  
PARTNERS, LLC, FOR COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.**

**CASE NOS. 25462 – 25465**

**SELF-AFFIRMED STATEMENT  
OF TYLER PATRICK**

1. I am employed by ConocoPhillips Company (“ConocoPhillips”) as a Staff Geologist. I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum geology matters were accepted and made a matter of record.

2. Marathon Oil Permian, LLC (OGRID 372098) (“Marathon”) is a wholly owned subsidiary of ConocoPhillips and will be the operator of the proposed spacing unit and wells in this application.

3. I am familiar with the geological matters that pertain to the above-referenced case.

4. **Exhibit B-1** is a location map of the proposed Wolfcamp horizontal spacing unit (“Unit”). The approximate wellbore paths for the proposed **Goliath 24 Fed Com 601H, Goliath 24 Fed Com 602H, Goliath 24 Fed Com 603H, Goliath 24 Fed Com 604H, Goliath 24 Fed**

**Marathon Oil Permian, LLC  
Case No. 25541  
Exhibit B**

**Com 701H, Goliath 24 Fed Com 702H, Goliath 24 Fed Com 703H, and Goliath 24 Fed Com 704H** wells (“Wells”) are represented by dashed lines. Existing producing wells in the targeted interval are represented by solid lines.

5. **Exhibit B-2** is a subsea structure map for the Wolfcamp formation that is representative of the targeted interval. The data points are indicated by circles. The approximate wellbore paths of the wells are depicted by dashed lines. The map demonstrates the formation is gently dipping to the West in this area. I do not observe any faulting, pinch-outs, or geologic impediments to developing the targeted intervals with horizontal wells.

6. **Exhibit B-3** is a cross section map that identifies wells penetrating the targeted intervals used to construct a structural cross-section from A to A'. I used these well logs because they penetrate the targeted intervals, are of good quality, and are representative of the geology in the area.

7. **Exhibit B-4** is a stratigraphic cross-section using the representative wells identified on Exhibit B-3. It contains gamma ray, resistivity and porosity logs. The proposed landing zone for the wells are labeled on the exhibit. This cross-section demonstrates the target intervals are continuous across the Unit.

8. In my opinion, a standup orientation for the wells is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and the lack of preferred fracture orientation in this portion of the trend.

9. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the wells.

10. In my opinion, the granting of Marathon's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

11. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.

**Re: Case Nos. 25541 & 25542 – Applications of Marathon Oil Permian, LLC for  
Compulsory Pooling and Approval of Non-Standard Spacing Unit, Lea County,  
New Mexico.**

To whom it may concern:

This letter is to advise you that the enclosed applications were filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **September 11, 2025**, beginning at 9:00 a.m.

The hearing will be conducted in a hybrid fashion, both virtually and in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1<sup>st</sup> Floor, Santa Fe, NM 87505. The hearing may be held only virtually at the discretion of the Division. To confirm the manner in which the hearing will be held, and to participate virtually, please visit the OCD Hearings website at the following link:

<https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days prior to the scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. If you are not registered with the OCD's E-Permitting system, you must submit the statement via e-mail to [ocd.hearings@emnrd.nm.gov](mailto:ocd.hearings@emnrd.nm.gov) and should include: the names of the parties; whether or not the parties are represented by counsel; a concise statement of the case; the names of witnesses anticipated to be called to testify at the hearing; the approximate amount of time needed to present the case; and an identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about these applications, please contact Caroline Frederick, Landman for Marathon Oil Permian, LLC, at [caroline.frederick@conocophillips.com](mailto:caroline.frederick@conocophillips.com) or 432-222-4721.

Sincerely,  
/s/ Jaclyn M. McLean

**VIA CERTIFIED MAIL**  
**RETURN RECEIPT REQUESTED**

**TO: ALL PARTIES ENTITLED TO NOTICE**

**Re: Case Nos. 25541 & 25542 – Applications of Marathon Oil Permian, LLC for Compulsory Pooling and Approval of Non-Standard Spacing Unit, Lea County, New Mexico.**

To whom it may concern:

This letter is to advise you that the enclosed applications were filed with the New Mexico Oil Conservation Division. You are receiving this letter as an offset interest owner of the non-standard spacing unit. The hearing will be conducted on **September 11, 2025**, beginning at 9:00 a.m.

The hearing will be conducted in a hybrid fashion, both virtually and in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1<sup>st</sup> Floor, Santa Fe, NM 87505. The hearing may be held only virtually at the discretion of the Division. To confirm the manner in which the hearing will be held, and to participate virtually, please visit the OCD Hearings website at the following link: <https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days prior to the scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. If you are not registered with the OCD's E-Permitting system, you must submit the statement via e-mail to [oed.hearings@emnrd.nm.gov](mailto:oed.hearings@emnrd.nm.gov) and should include: the names of the parties; whether or not the parties are represented by counsel; a concise statement of the case; the names of witnesses anticipated to be called to testify at the hearing; the approximate amount of time needed to present the case; and an identification of any procedural matters that are to be resolved prior to the hearing.

Hamblin, Sole Successor Trustee of the Hamblin Living Trust U/A Dated 10-2-2019; Standard Energy; Wellbark Resources, LLC; and their successors and assign that the New Mexico Oil Conservation Division will conduct a hearing on the applications submitted to Marathon Oil Permian ("Applicant") for Case Nos. 25541 & 25542. The hearing will be conducted on September 11, 2025, in a hybrid fashion, both virtually and in person at the Energy, Minerals, Natural Resources Department, 1st Floor, Santa Fe, NM 87505. To participate virtually, see the instructions posted on the OCD website: <https://www.emnrd.nm.gov/oed/hearing-info/>. In Case No. 25541, Applicant seeks an order pooling all uncommitted interests in the Wolfcamp formation underlying a 1,579.28-acre, more or less non-standard, horizontal spacing unit comprised of all of Sections 24, 25, and irregular Section 36, Township 26 South, Range 24 East, Lea County, New Mexico. The unit will be dedicated to the following wells: **Goliath 24 Federal Com #601H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36; **Goliath 24 Federal Com #602H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36; **Goliath 24 Federal Com #603H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; **Goliath 24 Federal Com #604H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; **Goliath 24 Federal Com #701H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36; **Goliath 24 Federal Com #702H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36; **Goliath 24 Federal Com #703H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; and **Goliath 24 Federal Com #704H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36. The complete intervals of the wells will be orthodox. Marathon Oil Permian requests approval of a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste and protect correlative rights. In Case No. 25542, Applicant seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a 1,579.28-acre, more or less, non-standard, horizontal spacing unit comprised of all of Sections 24, 25, and 36, Township 26 South, Range 34 East, Lea County, New Mexico. The unit will be dedicated to the following wells: **Goliath 24 Federal Com #303H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36; **Goliath 24 Federal Com #301H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36; **Goliath 24 Federal Com #302H**, which will produce from a first take point located in the NE/4 NW/4 (Unit C) of Section 24 to a last take point located in Lot 3 of Section 36; **Goliath 24 Federal Com #304H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; **Goliath 24 Federal Com #305H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36; **Goliath 24 Federal Com #306H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36; **Goliath 24 Federal Com #503H**, which will produce from a first take point located in the NW/4 NW/4 (Unit D) of Section 24 to a last take point located in Lot 4 of Section 36; **Goliath 24 Federal Com #505H**, which will produce from a first take point located in the NW/4 NE/4 (Unit B) of Section 24 to a last take point located in Lot 2 of Section 36; and **Goliath 24 Federal Com #506H**, which will produce from a first take point located in the NE/4 NE/4 (Unit A) of Section 24 to a last take point located in Lot 1 of Section 36. The complete intervals of the wells will be orthodox. Marathon also requests approval of a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste, and protect correlative rights. Also to be considered will be the cost of drilling and completing the Goliath wells and the allocation of the cost, the designation of Applicant as operator of the Goliath wells, and a 200% charge for the risk involved in drilling and completing the Goliath wells. The Goliath wells are located approximately 1.5 miles Southwest of Jal, New Mexico.
