The figure consists of two vertically stacked line graphs sharing a common x-axis. The x-axis is labeled with values from 4800 to 6500 in increments of 100. The top graph, labeled 'T1' in the upper right, shows a highly variable time series. It starts around 0.5 at x=4800, rises to a peak of approximately 1.5 at x=5300, and then fluctuates between 0.5 and 1.5 until x=6500. The bottom graph, labeled 'T2' in the lower right, shows a time series that fluctuates rapidly but remains relatively stable around a mean value of 0.5. The y-axis for both graphs has major grid lines every 0.5 units, with labels 0.5, 1.0, and 1.5 visible on the right side of the top graph.
