IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING: *CONTINUED*

IN THE MATTER OF CASE R-402 BEING PROPOSED PURSUANT TO THE PROVISIONS OF ORDER NO. R-4093A, WHICH ORDER ~~CONDITIONED~~ 160-ACRE SPACING UNITS AND ~~IMPOSED~~ A MAXIMUM GAS-OIL RATIO LIMITATION OF 3,000 CUBIC FEET OF GAS FOR EACH BARREL OF OIL PRODUCED FOR THE WARDMAN-STRAHM POOL, EDGY COUNTY, NEW MEXICO, ~~FOR AN ADDITIONAL ONE-YEAR PERIOD.~~

CASE NO. 4482
Order No. R-4091-J

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on January 17, 1975
at Santa Fe, New Mexico, before Examiner Eric R. O'Keefe.

NOW, on this _____ day of _____, 19____, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That by Order No. R-1073-A, dated January 12, 1973, the Temporary Special Rules and Regulations for the Parkway-Strawn Pond, Shelby County, Mississippi, establishing 160-acre spacing units and, a limiting goose ratio of 300:1 or, were continued for a period of one year.

(3) That pursuant to the provisions of Order No. R-40934, this case was reopened to allow the operators in the subject pool to appear and show cause why the Parkway-Strawn Pool should not be developed on 40-acre or 80-acre spacing units and why the limiting gas-oil ratio should not revert to the statewide limit of 2,000 to one.

(4) That the evidence establishes that the well in the Parley Showers Pool can effectively and economically drain and produce 150 acres and that a limiting gas-oil ratio of 3000 cubic feet of gas per barrel of oil produced is a maximum and proper gas-oil ratio limit for such pool.

(5) That the Special Rules and Regulations and other provisions promulgated by Order No. R-4093 have afforded and will afford to the owner of each property in the pool the opportunity to produce his just and equitable share of the oil in the pool.

(6) That in order to prevent the economic loss caused by the drilling of unnecessary wells, to avoid the augmentation of risk arising from the drilling of an excessive number of wells, to prevent reduced recovery which might result from the drilling of too few wells, and to otherwise prevent waste and protect correlative rights, the Special Rules and Regulations and other provisions promulgated by Order No. R-4093 ~~and~~ should be continued in full force and effect ~~for an additional one year.~~ *until further order of the Commission*

IT IS THEREFORE ORDERED:

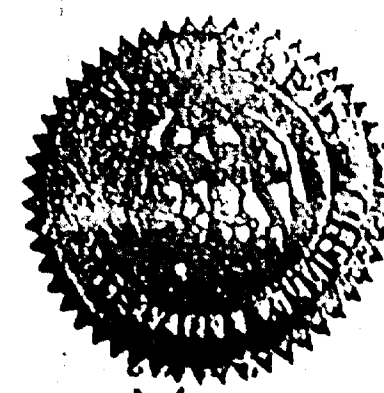

IT IS THEREFORE ORDERED: *that conditions in effect by Order No. R-4093-A,*

(1) That the special Rules and Regulations governing the Parkway-Strawn Pool and the other provisions promulgated by Order No. R-4093, are hereby continued in full force and effect *for an additional one year, until further order of the Commission*

(2) That this case shall be reopened at an examiner hearing in January, 1973, at which time the operators in the subject pool may appear and show cause why the Parkway-Strawn Pool should not be developed on 40-acre or 80-acre spacing units and why the existing gas-oil ratio should not revert to the statewide limit of 2,000 to one.

(8) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary

DONE at Santa Fe, New Mexico, on the day and year herein
above designated.
