V.A.R.C.F. MICROFILMS

NOT AVAILABLE COPY

The main image is a topographic map of a coastal area, likely a bay or inlet, with a grid overlay. The map shows various features such as land, water, and possibly some structures or landmarks. The grid is composed of horizontal and vertical lines, creating a series of squares. The map is oriented with North at the top. In the bottom right corner, there is a small inset map of the United States, showing the location of the study area in the Pacific Northwest, near the border of Washington and Oregon.

[illegible]

This image shows a vertical strip of a document, possibly a page from a book or manuscript. On the left side, there is a large, dark, irregular shape that appears to be a stain or a large, bold letter. The right side of the strip contains a grid of small, illegible text or symbols, which could be a table or a list of items. The overall appearance is that of an old, possibly damaged, document.
