Comes now Pierce & Dehlinger, a partnership, by its attorneys, and applies to the New Mexico Oil Conservation Commission for compulsory pooling, Vada-Pennsylvanian Pool, Lea County, New Mexico, and in support of its application states:

1. King Resources is the operator of the Sheridan Well No. 1-A, located 660 feet from the North and 1,980 feet from the West lines of Section 24, Township 9 South, Range 33 East, Lea County, New Mexico, which well is completed in the Vada-Pennsylvanian Pool.

2. Applicant seeks an order of the Commission pooling all mineral interests in the NW 1/4 of said Section 24 to form a standard oil proration unit in the Vada-Pennsylvanian Pool, which proration unit would be dedicated to the said Sheridan Well No. 1-A. Applicant has been unable to agree with the other mineral interest owners in the NW 1/4 of Section 24 as to voluntary communitization agreements covering those lands. Applicant requests that it be designated as the operator of the said unit and of the well located thereon, and that the Commission make appropriate provisions for charges of supervision and for the risk involved in the operation of the well in the NW 1/4 of said Section 24, which charge for risk should be established at 200% of any non-consenting working interest owner's prorata share of well costs.
