Oil Conservation Commission  
Box 2088  
Santa Fe, New Mexico 87501

Comes Monsanto Company, acting by and through the undersigned attorneys, and hereby makes application for compulsory pooling, Eddy County, New Mexico. Applicant seeks an order pooling all mineral interests in the Pennsylvanian formation underlying the E½ Section 16, Township 19 South, Range 25 East, N.M.P.M. to be dedicated to a well to be drilled by applicant at an orthodox location in said section 16; also to be considered will be the cost of drilling and completing said well, the allocation of such costs, as well as operating costs and charges for supervision, together with a charge for the risk involved in drilling said well and the designation of applicant as operator, and in support thereof respectfully shows:

1. There is attached hereto, made a part hereof and for purposes of identification marked Exhibit "A", a plat showing the proposed spacing and drilling unit and the location of the proposed well. Said plat also shows the ownership of all leasehold interests within the proposed drilling and spacing unit. The test well will be projected to test the Strawn and Morrow formations of Pennsylvanian age.

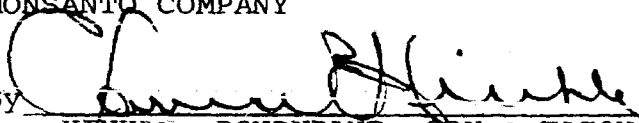

2. Applicant believes that the entire E $\frac{1}{2}$  Section 16 will prove productive of gas in paying quantities in the Pennsylvanian formation and that the pooling of the leasehold interests covering the E $\frac{1}{2}$  of said section will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights. Applicant seeks compulsory pooling to form a standard spacing and proration unit as provided by Section 65-3-14 N.M.S.A. 1953 Comp. In connection with said pooling, consideration should be given to the following: cost of drilling said well, charges for operating and supervisions and the risk involved. It is also requested that applicant be designated as operator.

3. Applicant requests that this matter be set down for hearing on the examiner's docket for February 13.

Respectfully submitted,
