CASE 810: Phillips Petroleum Company
non-standard gas proration unit, Jalmat
Gas Pool

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE NO. 810
Order No. R-582

THE APPLICATION OF PHILLIPS PETROLEUM
COMPANY FOR AN ORDER AUTHORIZING THE
FORMATION AND ESTABLISHMENT OF A NON-
STANDARD GAS PRORATION UNIT OF 160 CONTI-
GUOUS ACRES CONSISTING OF THE SW/4 NW/4,
NW/4 SW/4 AND S/2 SW/4 OF SECTION 6, TOWN-
SHIP 25 SOUTH, RANGE 37 EAST, NMPM, LEA
COUNTY, NEW MEXICO, IN THE JALMAT GAS
POOL, AND FOR THE ASSIGNMENT OF THE
ACREAGE IN SUCH UNIT TO THE PHILLIPS
PETROLEUM COMPANY'S C. D. WOOLWORTH
GROUP 3, WELL NO. 1, FOR GAS PRORATION
PURPOSES IN THE JALMAT GAS POOL.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a. m., on January 13, 1955, at Santa Fe, New Mexico, before the Oil Conservation Commission, hereinafter referred to as the "Commission".

NOW, on this 9th day of February, 1955, the Commission, a quorum being present, having considered the records and the testimony adduced, and being fully advised in the premises,

FINDS:

1. That due notice of the time and place of hearing and the purpose thereof having been given as required by law, the Commission has jurisdiction of this case and the subject matter thereof.
2. That pursuant to provisions of Rule 5 (a) of the Special Rules and Regulations for the Jalmat Gas Pool of Order No. R-520, the Commission has power and authority to permit the formation of a gas proration unit consisting of other than a legal section after notice and hearing by the Commission.
3. That applicant, Phillips Petroleum Company, is the owner of an oil and gas lease in Lea County, New Mexico, the land consisting of other than a legal section and described as follows:

TOWNSHIP 25 SOUTH, RANGE 37 EAST, NMPM
SW/4 NW/4, NW/4 SW/4, and S/2 SW/4 of Sec. 6

comprising 160 acres, more or less.

4. That applicant, Phillips Petroleum Company, has a producing gas well on the aforesaid lease known as the C. D. Woolwerth, Group 3, Well No. 1, located 660' from the south line and 647' from the west line of Section 6, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico.

5. That the aforesaid well is located within the horizontal limits of the pool heretofore delineated and designated as the Jalmat Gas Pool.

6. That the aforesaid well was completed prior to August, 1954, in conformance with existing pool rules, as an oil well in the lower Seven Rivers formation, and was recompleted after the above date as a gas well in the Yates and Upper Seven Rivers gas zones, which are within the vertical limits of the Jalmat Gas Pool.

7. That it is impractical to pool applicant's said lease with adjoining acreage and that the owners of adjoining acreage have offered no objection at the hearing to the formation of the proposed proration unit.

8. That all of the acreage in the proposed unit is reasonably presumed to be productive of gas from the Jalmat Gas Pool, and unless a proration unit consisting of applicant's aforesaid acreage is approved and authorized and assigned to Phillips Petroleum Company's C. D. Woolwerth Group 3, Well No. 1, for the purpose of gas proration in said pool, applicant will be deprived of the opportunity to recover its just and equitable share of natural gas in the Jalmat Gas Pool.

9. That creation of a proration unit consisting of the aforesaid acreage will not cause but will prevent waste, and will protect correlative rights.

IT IS THEREFORE ORDERED:

1. That the application of Phillips Petroleum Company for approval of a non-standard gas proration unit consisting of the following described acreage:

TOWNSHIP 25 SOUTH, RANGE 37 EAST, NMPM
SW/4 NW/4, NW/4 SW/4, and S/2 SW/4 of Sec. 6

is hereby approved and a gas proration unit consisting of the aforesaid acreage is hereby created in the Jalmat Gas Pool.

2. That for the purpose of gas proration in the Jalmat Gas Pool, the acreage included in said unit is hereby assigned to the Phillips Petroleum Company C. D. Woolwerth, Group 3, Well No. 1, which is located in the SW/4 SW/4 of Section 6, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico; that said well shall be granted an allowable in the proportion that the above-described 160-acre unit bears to the standard or orthodox proration unit for the Jalmat Pool, and that said well shall be granted an allowable from the 1st day of March, 1955, all until further order of the Commission.

DONE at Santa Fe, New Mexico on the day and year hereinabove designated.

Attention: Mr. L. E. Fitzjarrald

Dear Sir:

Reference is made to your application for approval of a non-standard gas proration unit in the Jalmat Gas Pool on your C. D. Woolworth Group 3, Well No. 1, located in the SW/4 of the SW/4 of Section 6, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico.

This is to inform you that this office is in receipt of an objection to the formation of the above described gas unit from the First National Bank in Dallas, trustee for Paul P. Scott (Kam-Mex Corporation).

I regret that we are unable to give executive approval of your application, due to this objection; however, we will be glad to have this application placed before the Commission at the next regular hearing, January 13, 1955. If you wish to have your request advertised by legal publication for the January 13 hearing, please advise this office within the next week.

Very truly yours,

W. B. MACEY, Secretary-Director

AFTERNOON SESSION

IN THE MATTER OF:

Application of Phillips Petroleum Company
for approval of a non-standard gas pro-
duction unit (in the Jalmat Gas Pool) con-
sisting of SW/4 NW/4, NW/4 SW/4 and S/2
SW/4 of 6-25S-37E, Lea County.

Case No. 810

BEFORE:

Honorable John F. Simms
Mr. E. S. (Johnny) Walker
MR. W. B. Macey, Secretary

TRANSCRIPT OF PROCEEDINGS

MR. MACEY: The next case on the docket is Case 810. Judge
Foster.

MR. FOSTER: Yes, sir. Thank you. Mr. Harold White.

H. T. WHITE

called as a witness, having been first duly sworn, testified as
follows:

DIRECT EXAMINATION

By MR. FOSTER:

Q Will you state your name, please?

A H. T. White.

Q By whom are you employed, Mr. White?

A Phillips Petroleum Company.

Q In what capacity?

A Gas Engineer.

Q You have heretofore testified before the Commission and stated

your qualifications?

A Yes, sir, I have.

Q Mr. White, I want to refer to the application of Phillips Petroleum Company for approval of the non-standard gas proration unit, being the C. D. Woodworth Group 3, Well No. 1, in the Jalmat Pool, Lea County, New Mexico. Will you give the Commission a description of the land that you desire to have included in that unit?

A It consists of the Southwest quarter of the Northwest quarter, and Northwest quarter of the Southwest quarter of the Northwest quarter, the Southwest quarter of Section 6, Township 25, South, Range 37, East, Lea County, New Mexico.

Q You have heretofore filed a plat with the Commission, have you, showing the location?

A Location of the tract and the well.

Q Of the tract and the well, and the offset operators?

A That is correct.

Q Have you secured waivers from all of the offset operators?

A With the exception of one, Mr. Paul P. Scott, representative of the Campbell Corporation.

Q Will you state why you were unable to secure a waiver from him, if you know?

A I thought I had a letter here, that stated his reasons, but I saw one at the Commission yesterday, stating that in his opinion, part of the acreage was too far from the well. I don't seem to have Mr. Scott's letter.

MR. MACEY: I believe this is the letter you are referring to.

Q What is the furthest point of the acreage from the well?

A The dimensions of the tract, the maximum dimensions of the

tract are three-quarters of a mile by one-half a mile in length. It is an "L" shaped tract in which the well is located, 660 from the corner. That would leave about 2600 feet from the furthest point of the tract.

Q How many acres do you seek to have allocated in a well like that?

A Wait a minute. I was wrong in this distance; 3300.

Q Let me ask you this, when was the well drilled on the acreage?

A The well itself was drilled several years ago, and is now being recompleted as a gas well.

Q Now, if all of the acreage of the tract was not allocated to that well, would it require the drilling of another well?

A Yes, sir, because this is the only well that we own, that is on this particular tract.

Q Is it your opinion that the well on the tract is sufficient to drain all the acreage that we propose to allocate to it?

A Yes, sir, I believe that it is.

Q Does the proposed unit consist of contiguous quarter sections of land?

A Yes, sir, it does.

Q And all of these tracts of land lie wholly within single governmental sections?

A Yes, sir, they do.

Q In your opinion, is the entire acreage proposed to be allocated to the well, productive of gas?

A Yes, sir, it is.

Q Does the length or width of this proration unit exceed five thousand two hundred and fifty feet?

A No, sir, it does not.

Q Do you believe it is necessary to create this unorthodox unit in order to prevent waste and protect correlative rights?

A In view of the fact of the units already formed in the section, this unit will not disturb the correlative rights of the other owners, and will certainly not cause waste.

MR. FOSTER: I believe that is all.

MR. MACEY: Any questions of the witness?

MR. KITTS: What was the objection of Kan-Mex?

A I didn't read that. There is a letter here from Mr. Worthington, I believe, Vice President and Trust Officer, which reads:
"In regards to the Application of Phillips Petroleum Company for Approval of Non-Standard Gas Proration Unit - C.D. Woolworth Group 3, Well No. 1, Jalmat Pool, Lea County, New Mexico. Gentlemen: Phillips Petroleum Company has advised us that it has recompleted its C.D. Woolworth Group 3, Well No. 1, Jalco Pool, Lea County, New Mexico, as a gas well producing from the Yates and Upper Seven Rivers formations.

It is our understanding that the applicant has requested approval of a Non-Standard Gas Proration Unit in accordance with the provisions of the Commission order no. R-520, Case No. 673, dated August 12, 1954. This unit, we are advised, will comprise the southwest quarter northwest quarter; northwest quarter southwest quarter and south half southwest quarter of Section 6, Township 258, Range 37E, Lea County.

Please be advised that the undersigned, an offset operator to the applicant's lease, objects to the formation of the above described gas unit. Our objection to this proposal is that they wish

MR. MACEY: Anyone else have any questions of the witness?
If not the witness may be excused.

MR. FOSTER: I would like to introduce in evidence, the plat that is attached to our application in our unorthodox unit.

MR. MACEY: We will take the case under advisement and proceed to Case 811.

In re: Application Phillips Petroleum Company for Approval of Non-
Standard Gas Proration Unit - C.D. Woodworth Group 3, Well
No. 1, Jalmat Pool, Lea County, New Mexico.

Gentlemen:

Phillips Petroleum Company has advised us that
it has recompleted its C.D. Woodworth Group 3, Well No. 1, Jalmat
Pool, Lea County, New Mexico, as a gas well producing from the Yates
and Upper Seven Rivers formations.

It is our understanding that the applicant has
requested approval of a Non-Standard Gas Proration Unit in accord-
ance with the provisions of the Commission order no. R-520, Case No.
673, dated August 12, 1954. This unit, we are advised, will comprise
the southwest quarter northwest quarter; northwest quarter southwest
quarter and south half southwest quarter of Section 6, Township 25S,
Range 37E, Lea County.

Please be advised that the undersigned, an off-
set operator to the applicant's lease, objects to the formation of
the above described gas unit. Our objection to this proposal is that
they wish to include in their unit the southwest quarter of the north-
west quarter of Section 6-25S-37E, which tract is almost a half mile
from their gas well.

Very truly yours,

Dear Sir:

We attach a docket for the regular January 13 hearing of the Oil Conservation Commission. Please note the listing of Case 810, which is concerned with Phillips Petroleum Company's application for approval of an unorthodox gas proration unit consisting of SW/4 NW/4, NW/4 SW/4 and S/2 SW/4 of Section 6, Township 25 South, Range 37 East, NMPH, Lea County, New Mexico.

This matter reverted to hearing status after we received the letter of objection dated October 15, 1954, from First National Bank in Dallas as Trustee, Paul P. Scott Trust (Kam-Max Corporation).

Attention of Mr. W. B. Macey, Secretary and Director

Gentlemen:

This will acknowledge receipt of your letter of December 7, 1954, concerning the objection of the First National Bank in Dallas, Texas, trustee for Paul F. Scott (Kan-Mex Corporation), to our request to form a non-standard gas proration unit applicable to the subject well.

The proposed 160 acre unit as described in our application under date of November 30, 1954, will cover the following acreage on our C. D. Woolworth Group 3 Lease:

SE/4 NW/4; NW/4 SW/4 and S/2 SW/4 of Section 6,
Township 25 South, Range 37 East, Lea County, New
Mexico

Inasmuch as the above referred to objection prevents executive approval of our application, we kindly request that it be included on the January 13, 1955 Docket for hearing before the Commission, and that notice be published as required.

Yours very truly,

L. E. Fitzjarrald

In re: Application of Phillips Petroleum Company for Approval
of Non-Standard Gas Proration Unit - C. D. Woolworth
Group 3, Well No. 1, Jalmat Pool, Lea County, New Mexico

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Attention of Mr. W. B. Macey, Secretary-Director

Gentlemen:

By Order No. R-125 dated January 8, 1952, Phillips Petroleum Company's C. D. Woolworth Group 3, Well No. 1, was classified as a gas well in the Upper Seven Rivers Gas formation, Cooper Jal Field, Lea County, New Mexico.

This well is located 660' from the south line and 647' from the west line of Section 6, Township 25 South, Range 37 East, Lea County, and was originally completed as an oil well in the Lower Seven Rivers formation on September 27, 1935.

As this well did not have a previous acreage allocation due to its having been shut in during 1953, and since the well was recompleted in the Yates and Upper Seven Rivers gas zones after the effective date of Commission Order R-520, we are hereby requesting approval of a non-standard gas proration unit consisting of 160 acres described as follows:

SW/4 NW/4; NW/4 SW/4 and S/2 SW/4 of Section 6, Township 25 South, Range 37 East, Lea County, New Mexico

Attached are waivers from the following offset operators in compliance with Rule 5(b) Paragraph 5, of Order No. 520:

New Mexico Oil Conservation Commission

It is our understanding that the applicant has requested approval of a non-standard gas proration unit in accordance with the provisions of Commission Order No. R-520, Case No. 673 dated August 12, 1954. This unit will comprise the SW/4 NW/4; NW/4 SW/4 and S/2 SW/4 of Section 6, Township 25S, Range 37E, Lea County.

Please be advised that the undersigned, an offset operator to the applicant's lease has no objection to the formation of the above described gas unit.

Yours very truly,

WESTERN NATURAL GAS COMPANY
