TRANSCRIPT OF HEARING

MR. MACEY: The next case on the docket is Case 935. We will consolidate Case 935, in the absence of any objection, with Cases 889, 890, 891, 926, 927 and Case 278. All the cases pertain to the oil area in Eddy and Lea Counties. The applicants in each case have requested a continuance in the case to the September hearing, but I would like to call your attention to the proposed rules which the Committee and the Commission Staff have devised for the area.

It was deemed advisable to have a 30-day waiting period for everyone to examine the proposed rules and to attempt to dispense with the matter in September.

Does anyone have any comments they wish to make on any of these cases at this time, or any questions they might want to ask about the proposed rules? If not we will continue all those cases until September.

June 3, 1955

Oil Conservation Commission
State of New Mexico
Santa Fe, New Mexico

Dear Sirs:

This is an application for the incorporation of additional land in the so called "potash - oil" area as defined in the Oil Conservation Commission Order R-111 dated November 9, 1951. We are planning the mining and processing of potash in the area of the following described lands on the major portion of which either leases or prospecting permits are held, and request that the Area B as defined in Order R-111 be extended to include these lands:

T21S-R30E

Section 12 - $N\frac{1}{2}$
Section 23 - $S\frac{1}{2}$
Section 24 - $S\frac{1}{2}$
Section 25 - All
Section 26 - All
Section 35 - $N\frac{1}{2}$
Section 36 - All

T22S-R30E

Section 25 - $E\frac{1}{2}$
Section 36 - $E\frac{1}{2}$

T21S-R31E

Section 1 - $S\frac{1}{2}$
Section 2 - $S\frac{1}{2}$
Section 3 - All
Section 4 - $E\frac{1}{2}$
Section 7-17 - Inc. All
Section 18 - $N\frac{1}{2}$
Section 19 - $S\frac{1}{2}$
Section 20-36 - Inc. All

T22S-R31E

Section 1, 2, 3 - All
Section 10 - 16 Inc. - All
Section 19 - $S\frac{1}{2}$
Section 20 - 36 Incl. - All

-2- Oil Conservation Commission

The above described areas are identified on the attached map.

We are presently performing core drilling exploration work in this area in anticipation of selecting a site for a shaft, and proceeding with development operations. It is considered advisable, in the interest of our proposed mining operations to have the above described lands included in the area requiring protective measures to be taken in any oil drilling operation.

The outlined ore body in which mining operations are to be carried on is in the northern part of T21S - R31E and the southern part of T20S-R32E. It is further requested that this area, as described below and outlined on the attached map, be incorporated in the Potash - Oil area designated as Area "A". This proposed new Area "A" is partly in existing Area "B" and partly in the above requested extension to Area "B":

T20S-R32E

Section 32 - $S\frac{1}{2}$, $S\frac{1}{2}$ $N\frac{1}{2}$, $NE\frac{1}{4}$ $NE\frac{1}{4}$
Section 33
Section 34

T21S-R31E

Section 2 - 5 Incl. - All
Section 7 - 10 Incl. - All
Section 16

We will be glad to furnish any additional information required to process this application.

RE: Case No. 926

Dear Mr. Macey:

We hereby respond to your recent request that all interested parties indicate their desire to have their applications to extend areas "A" and "B" of the potash-oil and gas area held in abeyance until the revisions of Order R-111 have been completed.

It appears to me that the best interests of National Farmers Union Service Corporation would be served by such a procedure. Therefore, we request that our application, identified as Case No. 926, be held in abeyance until said Order has been revised.

Dear Sir:

Reference is made to your application of June 3, 1955, pertaining to the enlargement of Area B and the creation of a new Area A in the so called oil - potash area of Eddy and Lea Counties. This case will be assigned a case number in the near future and will be set for hearing on July 14th.

I would like to call your attention to the fact that three cases are pending before the Commission pertaining to the enlargement of Area A. These cases are 889, 890 and 891. At the May hearing on these cases it was deemed advisable to set up a committee to be composed of two representatives of the oil industry, two representatives of the potash industry and myself to resolve the situation and to determine the best course of action to be followed in handling the entire question of joint operation in the potash - oil area. We are planning on having a meeting of this committee in the near future, and in the event you or any representative of your company desires to observe the proceedings, we would be more than happy to have you present. At the first meeting of this committee I will acquaint them of the facts concerning your application.

If there is anything further you desire concerning these matters, please advise.
