No. 5 in Section 1, T-21-S,
R-36-E, Lea County, New
Mexico

Gentlemen:

We forward herewith an application for administrative approval of a 240-acre gas proration unit for our State F-1 well No. 5 in the Eumont Pool, Lea County, New Mexico. This is the same well which is the subject in Case No. 1181, originally set for hearing at Hobbs on November 28, 1956. At that hearing it was requested that the case be continued indefinitely in order that additional information as to the productivity of the well might be obtained.

In view of this application for administrative approval of a smaller unit, it is respectfully requested that

IN THE MATTER OF THE APPLICATION
OF CONTINENTAL OIL COMPANY FOR AN
EXCEPTION TO RULE 5 (a) OF THE
SPECIAL RULES AND REGULATIONS FOR
THE EUMONT GAS POOL CONTAINED IN
ORDER NO. R-520 IN ESTABLISHMENT OF
A NON-STANDARD GAS PRORATION UNIT OF
360 ACRES CONSISTING OF LOTS 2,
7, 10, 11, 12, 13, 14, 15 and 16 OF
SECTION 1, T 21S, R 36E, NMPM, LEA
COUNTY, NEW MEXICO, TO BE ALLOCATED
TO ITS STATE F-1 WELL NO. 5.

A P P L I C A T I O N

Comes now applicant, Continental Oil Company and petitions the Commission for an order approving a non-standard gas proration unit consisting of lots 2, 7, 10, 11, 12, 13, 14, 15, and 16 of Section 1, T 21S, R 36E, NMPM, Eumont gas pool, Lea County, New Mexico, to be allocated to its State F-1 No. 5 well located 3300 feet from the north line and 1980 feet from the west line of said Section 1 and in support thereof would show:

1. That applicant is owner and operator of a lease designated as the State F-1 lease consisting of, in addition to other lands, lots 2, 7, 10, 11, 12, 13, 14, 15, and 16 of Section 1, T 21S, R 36E, NMPM, Lea County, New Mexico.

2. That applicant is drilling the State F-1 No. 5 at a location 3300 feet from the north line and 1980 feet from the west line of said Section 1.

3. That no portion of the above described lands is allocated to any gas well, and that all of said acreage may reasonably be presumed to be productive of gas from the Eumont Pool and should be allocated to a gas well in the interests of the prevention of waste and the protection of correlative rights.

4. That the most practical and economical method of allocating said acreage for Eumont Pool gas production is

to establish a 360-acre non-standard gas proration unit for assignment to the State F-1 well No. 5.

Wherefore, applicant prays that this application be set for hearing before the Commission's duly appointed examiner, in Hobbs, New Mexico, that appropriate notice thereof be given, and that upon hearing an order be entered granting applicant an exception to Rule 5 (a) of the special rules and regulations for the Eumont gas pool contained in order No. R-520 for the non-standard gas proration unit described above.

Respectfully submitted,
